

NRC/COT Subcommittee on Selected Submarine Contaminants

Contact: Annetta Watson - (865)576-2125; watsonap@ornl.gov

Funding Source: Program Development

- **Watson is member of this NRC Subcommittee, and attended first meeting held January 23–24, 2003, at The National Academies Building in Washington, D.C.**
- **Mission: develop acute (1-hour minimum) and long-term (90-day continuous; limit of submergence) exposure guidance levels for submarine contaminants of interest to the Naval Sea Systems Command, Naval Health Research Center, Naval Submarine Medical Research Lab**
- **Relevance to ongoing LSD programmatic development of Acute Exposure Guideline Levels (AEGs) for hazardous industrial compounds**
