

manufactured on or after January 1, 1993, must comply with the entrapment protection provisions in UL Standard 325 in effect on or before January 1, 1992. The entrapment protection requirements of UL Standard 325 are codified as the Safety Standard for Automatic Residential Garage Door Operators, 16 CFR part 1211.

The Office of Management and Budget (OMB) approved the collection of information concerning the Safety Standard for Automatic Residential Garage Door Operators under control number 3041-0125. OMB's most recent approval will expire on April 30, 2000. The Commission now proposes to request an extension of approval without changes of this collection of information.

A. Certification Requirements

The Improvement Act provides that UL Standard 325 shall be considered to be a consumer product safety standard issued by the Consumer Product Safety Commission under section 9 of the Consumer Product Safety Act (CPSA) (15 U.S.C. 2058). Section 14(a) of the CPSA (15 U.S.C. 2063(a)) requires manufacturers, importers, and private labelers of a consumer product subject to a consumer product safety standard to issue a certificate stating that the product complies with all applicable consumer product safety standards. Section 14(a) of the CPSA also requires that the certificate of compliance must be based on a test of each product or upon a reasonable testing program.

Section 14(b) of the CPSA (15 U.S.C. 2063(b)) authorizes the Commission to issue regulations to prescribe a reasonable testing program to support certificates of compliance with a consumer product safety standard. Section 14(b) of the CPSA allows firms that are required to issue certificates of compliance to use an independent third-party organization to conduct the testing required to support the certificate of compliance.

Section 16(b) of the CPSA (15 U.S.C. 2065(b)) authorizes the Commission to issue rules to require establishment and maintenance of records necessary to implement the CPSA or determine compliance with rules issued under the authority of the CPSA. On December 22, 1992, the Commission issued rules prescribing requirements for a reasonable testing program to support certificates of compliance with the Safety Standard for Automatic Residential Garage Door Operators (57 FR 60449). These regulations also require manufacturers, importers, and private labelers of residential garage door operators to establish and maintain

records to demonstrate compliance with the requirements for testing to support certification of compliance. 16 CFR Part 1211, Subparts B and C.

The Commission uses the information compiled and maintained by manufacturers and importers of residential garage door operators to protect consumers from risks of death and injury resulting from entrapment accidents associated with garage door operators. More specifically, the Commission uses this information to determine whether the products produced and imported by those firms comply with the standard. The Commission also uses this information to facilitate corrective action if any residential garage door operators fail to comply with the standard in a manner that creates a substantial risk of injury to the public.

B. Estimated Burden

The Commission staff estimates that about 22 firms are subject to the testing and recordkeeping requirements of the certification regulations. The staff estimates that each respondent will spend 60 hours annually on the collection of information for a total of about 1320 hours. Using an hourly rate of \$13.50, based on 1999 Statistical Abstract data for average all private sector wages, the total industry cost would be about \$18,000.

C. Request for Comments

The Commission solicits written comments from all interested persons about the proposed collection of information. The Commission specifically solicits information relevant to the following topics:

—Whether the collection of information described above is necessary for the proper performance of the Commission's functions, including whether the information would have practical utility;

—Whether the estimated burden of the proposed collection of information is accurate;

—Whether the quality, utility, and clarity of the information to be collected could be enhanced; and

—Whether the burden imposed by the collection of information could be minimized by use of automated, electronic or other technological collection techniques, or other forms of information technology.

Dated: February 4, 2000.

Sadye E. Dunn,

Secretary, Consumer Product Safety Commission.

CONSUMER PRODUCT SAFETY COMMISSION

Sunshine Act Meeting

TIME AND DATE: Monday, February 14, 2000, 11:30 a.m.

LOCATION: Room 410, East West Towers, 4330 East West Highway, Bethesda, Maryland.

STATUS:

Closed to the Public.

Matter to be Considered:

Compliance Operational Matter (OS# 5756)

The Commission and staff will discuss a compliance operational matter.

For a recorded message containing the latest agenda information, call (301) 504-0709.

CONTACT PERSON FOR ADDITIONAL

INFORMATION: Sadye E. Dunn, Office of the Secretary, 4330 East West Highway, Bethesda, MD 20207 (301) 504-0800.

Dated: February 7, 2000.

Sadye E. Dunn,

Secretary.

BILLING CODE 6355-01-M

DEPARTMENT OF EDUCATION

Submission of Data by State Educational Agencies

AGENCY: National Center for Education Statistics, Department of Education.

ACTION: Notice of dates of submission of state revenue and expenditure reports for fiscal year 1999 and of revisions to those reports.

SUMMARY: The Secretary of Education announces dates for the submission by state educational agencies (SEAs) of expenditure and revenue data and average daily attendance statistics on ED Form 2447 (the National Public Education Financial Survey) for fiscal year (FY) 1999. The Secretary sets these dates to ensure that data are available to serve as the basis for timely distribution of Federal funds. The U.S. Bureau of the Census is the data collection agent for the Department's National Center for Education Statistics (NCES). The data will be published by NCES and will be used by the Secretary in the calculation of allocations for FY 2001 appropriated funds.

DATES: The date on which submissions will first be accepted is March 15, 2000. The mandatory deadline for the final submission of all data, including any revisions to previously submitted data, is September 5, 2000.

ADDRESSES: SEAs may mail ED Form 2447 to: Bureau of the Census, ATTENTION: Governments Division, Washington, DC 20233-6800.

Alternatively, SEAs may hand deliver submissions by 4 p.m. (Eastern Time) to: Governments Division, Bureau of the Census, 8905 Presidential Parkway, Washington Plaza II, Room 508, Upper Marlboro, MD.

If an SEA's submission is received by the Bureau of the Census after September 5, in order for the submission to be accepted, the SEA must show one of the following as proof that the submission was mailed on or before the mandatory deadline date:

1. A legibly dated U.S. Postal Service postmark.
2. A legible mail receipt with the date of mailing stamped by the U.S. Postal Service.
3. A dated shipping label, invoice, or receipt from a commercial carrier.
4. Any other proof of mailing acceptable to the Secretary.

If the SEA mails ED Form 2447 through the U.S. Postal Service, the Secretary does not accept either of the following as proof of mailing:

1. A private metered postmark.
2. A mail receipt that is not dated by the U.S. Postal Service.

Note: The U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, an SEA should check with its local post office.

FOR FURTHER INFORMATION CONTACT: Mr. Lawrence R. MacDonald, Chief, Bureau of the Census, ATTENTION: Governments Division, Washington, DC 20233-6800. Telephone: (301) 457-1574. If you use a telecommunications device for the deaf (TDD), you may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.

Individuals with disabilities may obtain this document in an alternative format (e.g., Braille, large print, audiotape, or computer diskette) on request to: Frank Johnson, National Center for Education Statistics, U.S. Department of Education, Washington, DC 20208-5651. Telephone: (202) 219-1618.

SUPPLEMENTARY INFORMATION: Under the authority of section 404(a) of the National Education Statistics Act of 1994 (20 U.S.C. 9003(a)), which authorizes NCES to gather data on the financing of education, NCES collects data annually from SEAs through ED Form 2447. The report from SEAs includes attendance, revenue, and expenditure data from which NCES determines the average state per pupil expenditure (SPPE) for elementary and secondary education, as defined in the

Elementary and Secondary Education Act of 1965 (ESEA) (20 U.S.C. 8801(12)).

In addition to using the SPPE data as useful information on the financing of elementary and secondary education, the Secretary uses these data directly in calculating allocations for certain formula grant programs, including Title I of the Elementary and Secondary Education Act of 1965 as amended by the Improving America's Schools Act of 1994 (Title I), Impact Aid, and Indian Education. Other programs such as the Goals 2000: Educate America Act, the Technology Literacy Challenge Fund, the Education for Homeless Children and Youth Program under Title VII of the Stewart B. McKinney Homeless Assistance Act, the Dwight D. Eisenhower Professional Development Program, and the Safe and Drug-Free Schools and Communities Program make use of SPPE data indirectly because their formulas are based, in whole or in part, on State Title I allocations.

In January 2000, the Bureau of the Census, acting as the data collection agent for NCES, will mail to SEAs ED Form 2447 with instructions and request that SEAs submit data to the Bureau of the Census on March 15, 2000, or as soon as possible thereafter. SEAs are urged to submit accurate and complete data on March 15, or as soon as possible thereafter, to facilitate timely processing. Submissions by SEAs to the Bureau of the Census will be checked for accuracy and returned to each SEA for verification. All data, including any revisions, must be submitted to the Bureau of the Census by an SEA not later than September 5, 2000.

Having accurate and consistent information, on time, is critical to an efficient and fair allocation process, as well as the NCES statistical process. To ensure timely distribution of Federal education funds based on the best, most accurate data available, NCES establishes, for allocation purposes, September 5, 2000, as the final date by which ED Form 2447 must be submitted. However, if an SEA submits revised data after the final deadline that results in a lower SPPE figure, its allocations may be adjusted downward or the Department may request the SEA to return funds. SEAs should be aware that all of these data are subject to audit and that, if any inaccuracies are discovered in the audit process, the Department may seek recovery of overpayments for the applicable programs. If an SEA submits revised data after September 5, the data may also be too late to be included in the final NCES published dataset.
