

**Emergency Response and Crisis Management Discretionary Grant Program  
(CFDA #84.184E)  
Fiscal Year 2005  
Grant Recipients**

The purpose of the Emergency Response and Crisis Management discretionary grant program is to provide funds for Local Education Agencies to improve and strengthen their emergency response plans. The Emergency Response and Crisis Management discretionary grant program will enable school districts to develop improved plans that address all four phases of crisis response: Prevention/Mitigation, Preparedness, Response, and Recovery. In reviewing and improving their plans, districts are required to work with community partners that include law enforcement, local government, public safety, public health, and mental health. Plans must also include training for school staff and students, a plan for communicating emergency response policies and procedures to parents, and must support implementation of the National Incident Management System. Typical activities included in grantee programs include reviewing existing crisis plans, conducting vulnerability assessments, training, tabletop exercises, and crisis simulation drills.
