for Large Bank Holding Companies**

Reporting Form FR Y-9LP

Reissued June 2007

# Parent Company Only Financial Statements for Large Bank Holding Companies

## FR Y-9LP

### GENERAL INSTRUCTIONS

#### Who Must Report

##### A. Reporting Criteria

All bank holding companies, regardless of size, are required to submit financial statements to the Federal Reserve, unless specifically exempted (see description of exemptions below).

The specific reporting requirements for each bank holding company depend upon the size of the holding company, or other specific factors as determined by the appropriate Federal Reserve Bank. Bank holding companies must file the appropriate forms as described below:

(1) **Bank Holding Companies with Total Consolidated Assets of \$500 Million or More.** Bank holding companies with total consolidated assets of \$500 million or more (the top tier of a multi-tiered holding company, when applicable) must file:

(a) the *Consolidated Financial Statements for Bank Holding Companies* (FR Y-9C) quarterly, as of the last calendar day of March, June, September, and December.

(b) the *Parent Company Only Financial Statements for Large Bank Holding Companies* (FR Y-9LP) quarterly, as of the last calendar day of March, June, September, and December.

Each bank holding company that files the FR Y-9C must submit the FR Y-9LP for its parent company.

**For tiered bank holding companies.** When bank holding companies with total consolidated assets of \$500 million or more, own or control, or are owned or controlled by, other bank holding companies (i.e., are tiered bank holding companies), only the top-tier holding company must file the FR Y-9C for the consolidated bank holding company organization

unless the top-tier holding company is exempt from reporting the FR Y-9C. If a top-tier holding company is exempt from reporting the FR Y-9C, then the lower-tier holding company (with consolidated assets of \$500 million or more) must file the FR Y-9C.

In addition, such tiered bank holding companies, regardless of the size of the subsidiary bank holding company, must also submit, or have the bank holding company subsidiary submit, a separate FR Y-9LP for each lower-tier bank holding company.

(2) **Bank Holding Companies that are Employee Stock Ownership Plans.** Bank holding companies that are employee stock ownership plans (ESOPs) as of the last calendar day of the calendar year must file the *Financial Statements for Employee Stock Ownership Plan Bank Holding Companies* (FR Y-9ES) on an annual basis, as of December 31. No other FR Y-9 series form is required. However, bank holding companies that are subsidiaries of ESOP bank holding companies (i.e., a tiered bank holding company) must submit the appropriate FR Y-9 series in accordance with bank holding company reporting requirements.

(3) **Bank Holding Companies with Total Consolidated Assets of Less Than \$500 Million.** Bank holding companies with total consolidated assets of less than \$500 million must file the *Parent Company Only Financial Statements for Small Bank Holding Companies* (FR Y-9SP) on a semiannual basis, as of the last calendar day of June and December.<sup>1</sup>

1. The Reserve Bank with whom the reporting bank holding company files its reports may require that a bank holding company with total consolidated assets of less than \$500 million submit the FR Y-9C and the FR Y-9LP reports to meet supervisory needs. Reserve Banks will consider such criteria including, but not limited to, whether the holding company

# General Instructions

**For tiered bank holding companies.** When bank holding companies with total consolidated assets of less than \$500 million, own or control, or are owned or controlled by, other bank holding companies (i.e., are tiered bank holding companies), the top-tier holding company must file the FR Y-9SP for the top-tier parent company of the bank holding company. In addition, such tiered bank holding companies, must also submit, or have the bank holding company subsidiary submit, a separate FR Y-9SP for each lower-tier bank holding company.

When a bank holding company that has total consolidated assets of less than \$500 million is a subsidiary of a bank holding company that files the FR Y-9C, the bank holding company that has total consolidated assets of less than \$500 million would report on the FR Y-9LP rather than the FR Y-9SP.

The instructions for the FR Y-9C, FR Y-9ES, and the FR Y-9SP are not included in this booklet but may be obtained from the Federal Reserve Bank in the district where the bank holding company files its reports, or may be found on the Federal Reserve Board's public website ([www.federalreserve.gov/boarddocs/reportforms](http://www.federalreserve.gov/boarddocs/reportforms)).

## B. Exemptions from Reporting the Bank Holding Company Financial Statements

The following bank holding companies do not have to file bank holding company financial statements:

- (1) a bank holding company that has been granted an exemption under Section 4(d) of the Bank Holding Company Act; or
- (2) "qualified foreign banking organization" as defined by section 211.23(a) of Regulation K (12 CFR 211.23(a)) that controls a U.S. subsidiary bank.

---

(1) is engaged in significant nonbanking activities either directly or through a nonbank subsidiary; (2) conducts significant off-balance-sheet activities, including securitizations or managing or administering assets for third parties, either directly or through a nonbank subsidiary; or (3) has a material amount of debt or equity securities (other than trust preferred securities) outstanding that are registered with the Securities and Exchange Commission.

In addition, any bank holding company that is not subject to the Federal Reserve's Capital Adequacy Guidelines, but nonetheless elects to comply with the guidelines, are required to file a complete FR Y-9C and FR Y-9LP report, and generally would not be permitted to revert back to filing the FR Y-9SP report in any subsequent periods.

Bank holding companies that are not required to file under the above criteria may be required to file this report by the Federal Reserve Bank of the district in which they are registered.

## C. Shifts in Reporting Status

A top-tier bank holding company that reaches \$500 million or more in total consolidated assets as of June 30 of the preceding year must begin reporting the FR Y-9C and the FR Y-9LP in March of the current year, and any lower-tier bank holding companies must begin reporting the FR Y-9LP in March of the current year. If a top-tier bank holding company reaches \$500 million or more in total consolidated assets due to a business combination, then the bank holding company must begin reporting the FR Y-9C and the FR Y-9LP with the first quarterly report date following the effective date of the business combination, and any lower-tier bank holding companies must begin reporting the FR Y-9LP with the first quarterly report date following the effective date of the business combination. In general, once a bank holding company reaches or exceeds \$500 million in total consolidated assets and begins filing the FR Y-9C and FR Y-9LP, it should file a complete FR Y-9C and FR Y-9LP going forward (and any lower-tier bank holding companies should file a complete FR Y-9LP going forward). If a top-tier bank holding company's total consolidated assets should subsequently fall to less than \$500 million for four consecutive quarters, then the bank holding company may revert to filing the FR Y-9SP (and any lower-tier bank holding companies in those organizations may revert to filing the FR Y-9SP).

## Where to Submit the Reports

### Electronic Submission

All bank holding companies are required to submit their completed reports electronically. Bank holding companies should contact their district Reserve Bank or go to [www.reportingandreserves.org](http://www.reportingandreserves.org) for procedures for electronic submission.

## When to Submit the Reports

The *Parent Company Only Financial Statements for Large Bank Holding Companies* (FR Y-9LP) are required to be submitted as of March 31, June 30, September 30 and December 31. The submission date is 45 calendar

---

# General Instructions

days after the as of date unless that day fall on a weekend or holiday (subject to the timely filing provisions). For example, the June 30 report must be received by August 14 and the September 30 report by November 14. The term “submission date” is defined as the date by which the appropriate Reserve Bank must receive the bank holding company’s FR Y-9LP.

If the submission deadline falls on a weekend or holiday, the report must be received on the first business day after the Saturday, Sunday, or holiday. Earlier submission would aid the Federal Reserve in reviewing and processing the reports and is encouraged. No extensions of time for submitting reports are granted.

The reports are due by the end of the reporting day on the submission date (i.e., 5:00 P.M. at each of the Reserve Banks).

## How to Prepare the Reports

### A. Applicability of GAAP and Equity Method

Bank holding companies are required to prepare and file the *Parent Company Only Financial Statements for Large Bank Holding Companies* in accordance with generally accepted accounting principles (GAAP) and these instructions. All reports shall be prepared in a consistent manner.

The bank holding company’s financial records shall be maintained in such a manner and scope so as to ensure that the *Parent Company Only Financial Statements for Large Bank Holding Companies* can be prepared and filed in accordance with these instructions and reflect a fair presentation of the bank holding company’s financial condition and results of operations.

Bank holding companies should retain workpapers and other records used in the preparation of these reports.

### Equity Method of Accounting for Investments in Bank and Nonbank Subsidiaries and Associated Companies

Each bank holding company in preparing its parent company only financial statements shall account for all investments in subsidiaries, associated companies, and those corporate joint ventures over which the bank holding company exercises significant influence according to the equity method of accounting, as prescribed by

GAAP. The equity method of accounting is described in Schedule PC, item 5. (Refer to the instructions for Schedule PC, item 5, “Investments in and receivables due from subsidiaries and associated companies,” for the definitions of the terms subsidiary, associated company, and corporate joint venture.)

### B. Report Form Captions, Non-applicable Items and Instructional Detail

No caption on the report forms shall be changed in any way. An amount or a zero should be entered for all items except where the reporting bank holding company cannot report a line item because of the nature of their organization. For example, if the parent company does not own nonbank subsidiaries, Schedule PC-A, items 2(a) and 2(b) and Schedule PI, item 1(b) should be left blank. Also if the parent company does not, directly or indirectly, own any subsidiary bank holding companies, Schedule PC-A, items 3(a) and 3(b) should be left blank. A zero should be entered whenever a parent company can participate in an activity, but does not, on the report date, have any outstanding balances.

There may be areas in which a bank holding company wishes more technical detail on the application of accounting standards and procedures to the requirements of these instructions. Such information may often be found in the appropriate entries in the Glossary section of the instructions for the Consolidated Financial Statements for Bank Holding Companies (Form FR Y-9C) or, in more detail, in APB Opinions and FASB Statements. Selected opinions and statements of these accounting organizations are referenced in the instructions, where appropriate. The accounting entries in the Glossary of the FR Y-9C instructions are intended only to serve as an aid in specific reporting situations; they do not, and are not intended to, constitute a comprehensive statement on accounting for bank holding companies.

Questions and requests for interpretations of matters appearing in any part of these instructions should be addressed to the appropriate Federal Reserve Bank (that is, the Federal Reserve Bank in the district where the bank holding company submits this report).

### C. Rounding

All bank holding companies must report all dollar amounts in thousands, with the figures rounded to the nearest thousand. Items less than \$500 will be reported as

---

# General Instructions

zero. Rounding may result in details not adding to their stated totals. However, in order to ensure consistent reporting, the rounded detail items should be adjusted so that the totals and the sums of their components are identical.

On the *Parent Company Only Financial Statements for Large Bank Holding Companies*, “Total assets” (Schedule PC, item 10) and “Total liabilities and equity capital” (Schedule PC, item 21), which must be equal, must be derived from unrounded numbers and then rounded in order to ensure that these two items are equal as reported.

For bank holding companies with total assets of less than \$10 billion, all dollar amounts must be reported in thousands, with the figures rounded to the nearest thousand. Items less than \$500 will be reported as zero. For bank holding companies with total assets of \$10 billion or more, all dollar amounts may be reported in thousands, but each bank holding company, at its option, may round the figures reported to the nearest million, with zeros reported in the thousands column. For bank holding companies exercising this option, amounts less than \$500,000 will be reported as zero.

## D. Negative Entries

Except for the items listed below, negative entries are generally not appropriate on the FR Y-9LP and should not be reported. Hence, assets with credit balances must be reported in liability items and liabilities with debit balances should be reported in asset items, as appropriate, and in accordance with these instructions. Items for which negative entries may be made include:

- (1) Schedule PC, item 5, “Investments in and receivables due from subsidiaries and associated companies,”
- (2) Schedule PC, item 20(d), “Retained Earnings,”
- (3) Schedule PC, item 20(e), “Accumulated other comprehensive income.”
- (4) Schedule PC, item 20(f), “Other equity capital components.”
- (5) Schedule PC-A, items 1(a)(2)(a), 2(a)(2)(a), and 3(a)(2)(a), “Goodwill.”

When negative entries do occur in one or more of these

items, they shall be recorded with a minus (–) sign rather than in parenthesis.

On the Parent Company Only Income Statement (Schedule PI) and Schedule PI-A “Cash Flow Statement,” negative entries may appear, as appropriate. Income items with a debit balance and expense items with a credit balance must be reported in parentheses.

## E. Confidentiality

The completed version of this report is available to the public upon request on an individual basis. However, a reporting bank holding company may request confidential treatment for the *Parent Company Only Financial Statements for Large Bank Holding Companies* (FR Y-9LP) if the bank holding company is of the opinion that disclosure of specific commercial or financial information in the report would likely result in substantial harm to its competitive position, or that disclosure of the submitted information would result in unwarranted invasion of personal privacy.

A request for confidential treatment must be submitted in writing prior to the electronic submission of the report. The request must discuss in writing the justification for which confidentiality is requested and must demonstrate the specific nature of the harm that would result from public release of the information; merely stating that competitive harm would result or that information is personal is not sufficient.

Information, for which confidential treatment is requested, may subsequently be released by the Federal Reserve System if the Board of Governors determines that the disclosure of such information is in the public interest.

## F. Verification and Signatures

**Verification.** All addition and subtraction should be double-checked before reports are submitted. Totals and subtotals in supporting materials should be cross-checked to corresponding items elsewhere in the reports. Before a report is submitted, all amounts should be compared with the corresponding amounts in the previous report. If there are any unusual changes from the previous report, a brief explanation of the changes should be provided to the appropriate Reserve Bank.

**Signatures.** The *Parent Company Only Financial Statements for Large Bank Holding Companies* must be signed by the Chief Financial Officer of the bank holding

---

# General Instructions

company (or by the individual performing this equivalent function). *Bank holding companies must maintain in their files a manually signed and attested printout of the data submitted.* The cover page of the Reserve Bank-supplied, holding company's software, or from the Federal Reserve's web site report form should be used to fulfill the signature and attestation requirement and this page should be attached to the printout placed in the bank holding company's files.

## **G. Amended Reports**

The Federal Reserve may require the filing of amended *Parent Company Only Financial Statements for Large Bank Holding Companies* if reports as previously submitted contain significant errors. In addition, a bank holding company should file an amended report when internal or external auditors make audit adjustments that result in a restatement of financial statements previously submitted to the Federal Reserve.

The Federal Reserve also requests that bank holding companies that have restated their prior period financial

statements as a result of an acquisition accounted for on a pooling of interest basis submit revised reports for the prior year-ends. In the event that certain of the required data is not available, bank holding companies should contact the appropriate Reserve Bank for information on submitting revised reports.

## **H. Organization of the Instruction Book**

The instruction book is divided into two sections:

- (1) The General Instructions describing overall reporting requirements.
- (2) The Line Item Instructions for each schedule of the report for the parent company only of the bank holding company.

Additional copies of this instruction book may be obtained from the Federal Reserve Bank in the district where the reporting bank holding company submits its FR Y-9LP reports, or may be found on the Federal Reserve Board's public website ([www.federalreserve.gov](http://www.federalreserve.gov)).

NOTE: The amount of interest expense paid to special-purpose subsidiaries that have issued trust preferred securities reported in this item should also be included as part of the total amount reported in Schedule PI, item 2(d), "All other expenses." See the instructions for Schedule PI, item 2(d).

***Memorandum item 5 is to be completed by bank holding companies that have elected to account for financial instruments or servicing assets and liabilities at fair value under a fair value option.***

*Memoranda item 5 is to be completed by bank holding companies that have adopted FASB Statement No. 157, "Fair Value Measurements" (FAS 157), and have elected to report certain assets and liabilities at fair value with changes in fair value recognized in earnings in accordance with U.S. generally accepted accounting principles (GAAP) (i.e., FASB Statement No. 159, "The*

*Fair Value Option for Financial Assets and Financial Liabilities" (FAS 159); FASB Statement No. 155, "Accounting for Certain Hybrid Financial Instruments" (FAS 155); and FASB Statement No. 156, "Accounting for Servicing of Financial Assets" (FAS 156)). This election is generally referred to as the fair value option.*

*If the bank holding company has elected to apply the fair value option to interest-bearing financial assets and liabilities, it should report the interest income on these financial assets (except any that are in nonaccrual status) and the interest expense on these financial liabilities for the year-to-date in the appropriate interest income and interest expense items on Schedule PI, not as part of the reported change in fair value of these assets and liabilities for the year-to-date. The bank holding company should measure the interest income or interest expense on a financial asset or liability to which the fair value option has been applied using either the contractual interest rate on the asset or liability or the effective yield method based on the amount at which the asset or liability was first recognized on the balance sheet. Although the use of the contractual interest rate is an acceptable method under GAAP, when a financial asset or liability has a significant premium or discount upon initial recognition, the measurement of interest income or interest expense under the effective yield method more accurately portrays the economic substance of the transaction. In addition, in some cases, GAAP requires a particular method of interest income recognition when the fair value option is elected. For example, when the fair value option has been applied to a beneficial interest in securitized financial assets within the scope of Emerging Issues Task Force Issue No. 99-20, "Recognition of Interest Income and Impairment on Purchased and Retained Beneficial Interests in Securitized Financial Assets," interest income should be measured in accordance with the consensus in this Issue. Similarly, when the fair value option has been applied to a purchased impaired loan or debt security accounted for under AICPA Statement of Position 03-3, "Accounting for Certain Loans or Debt Securities Acquired in a Transfer," interest income on the loan or debt security should be measured in accordance with this Statement of Position when accrual of income is appropriate.*

*Revaluation adjustments, excluding amounts reported as interest income and interest expense, to the carrying value of all assets and liabilities reported in Schedule PC*

---

## Schedule PI

*at fair value under a fair value option (excluding servicing assets and liabilities reported in Schedule PC, item 7, “Intangible assets,” and Schedule PC, item 17, “Other liabilities,” respectively, and trading assets and trading liabilities reported in Schedule PC, item 8, “Other assets,” and Schedule PC, item 17, “Other liabilities,” respectively) resulting from the periodic marking of such assets and liabilities to fair value should be reported as “All other operating income” in Schedule PI, item 1(e).*

**Line item M5 Net change in fair values of financial instruments accounted for under a fair value option.**

Report the net change in fair values of all financial instruments that the bank holding company has elected to account for under the fair value option that is included in item 1(f), “Total operating income.”

## LINE ITEM INSTRUCTIONS FOR

# Cash Flow Statement Schedule PI-A

### General Instructions

The purpose of the statement of cash flows is to provide information about the cash receipts and cash payments of the bank holding company on a parent company only basis during the reporting period. For purposes of reporting on Schedule PI-A, the reporting period is calendar year-to-date. The statement of cash flows reflects the cash effects during the reporting period from the parent bank holding companies resulting from operations, investing, and financing. The cash flow statement should be prepared in accordance with FASB Statement of Financial Accounting Standards No. 95, Statement of Cash Flows.

For purposes of the statement of cash flows, cash flows from investing activities include making and collecting loans and acquiring and disposing of debt or equity instruments and property, plant, and equipment. Cash flows from financing activities include obtaining resources from shareholders and providing them with a return on, and a return of, their investment; borrowing money and repaying amounts borrowed, or otherwise settling the obligation; and obtaining and paying for other resources obtained from creditors on long-term credit. Operating activities include all transactions and other events that are not defined as investing or financing activities. Operating activities generally involve producing and delivering goods and providing services. Cash flows from operating activities are generally the cash effects of transactions and other events that enter into the determination of net income.

### Negative Entries

Attention should be given to amounts reported on the Cash Flow Statement. For Part I, Cash Flows from Operating Activities, negative entries recorded with a minus (-) sign must be used for:

- (1) Gain on sales of assets;

- (2) Equity in undistributed earnings of subsidiaries;
- (3) Equity in extraordinary items of subsidiaries, when a gain occurs;
- (4) Net change in other liabilities, when other liabilities decrease; and
- (5) Net change in other assets, when other assets increase.

Positive entries must be used for:

- (1) Loss on the sales of assets;
- (2) Equity in undistributed losses of subsidiaries;
- (3) Equity in extraordinary items of subsidiaries, when a loss occurs;
- (4) Net change in other liabilities, when other liabilities increase; and
- (5) Net change in other assets, when other assets decrease.

For Part II, Cash Flows from Investing Activities, use **absolute values** in items 1 through 6. In Item 7, "Other, net," negative entries should be recorded with a minus (-) sign. For example, securities traded on national, regional, or foreign exchanges or on organized over-the-counter markets should be valued at the most recently available quotation in the most active market. Quotations from brokers or others making markets in securities that are neither widely nor actively traded are acceptable if prudently used. securities purchased under agreements to resell, which are to be reported in item 3 above.

Domicile is used to determine the foreign (non-U.S. addressee) or domestic (U.S. addressee) status of a customer of the reporting parent company of a bank holding company for the purposes of these reports. Domicile is determined by the principal residential address of an individual or the principal business address of a corporation, partnership, or sole proprietorship. If other addresses are used for correspondence or other purposes, only the principal address, insofar as it is known to the reporting bank holding company, should be used in determining whether a customer should be regarded as a U.S. or non-U.S. addressee. For purposes of defining customers of the reporting bank holding company, U.S. addressees include residents of the 50 states of the United States, the District of Columbia, Puerto Rico, and U.S. territories and possessions. Non-U.S. addressees include residents of any foreign country. The term non-U.S. addressee generally includes foreign-based subsidiaries of other U.S. banks and bank holding companies.

**Line Item 4(a)(1) To U.S. addressees (domicile).**

**Line Item 4(b) LESS: Unearned income on loans.**

To the extent possible, the preferred treatment is to report the specific loan categories net of unearned income. The reporting parent company should enter in this item unearned income only to the extent that it is not deducted from items 4(a)(1) and 4(a)(2) above. If the reporting parent company reports each loan item net of unearned income, enter a zero or the word “none.”

**Line Item 4(c) Loans, net of unearned income.**

the lessee is a subsidiary or an associated company; such leases are to be reported in item 5.

**Line Item 4(e) LESS: Allowance for loan and lease losses.**

Report the allowance for loan and lease losses as determined in accordance with generally accepted accounting principles (GAAP).

**Line Item 4(f) Loans and leases, net of unearned income and allowance for loan and lease losses.**

**Line Item 5 Investments in and receivables due from subsidiaries and associated companies. (From Schedule PC-A, item 4)**

Report the amount of the bank holding company’s direct investments in the stock of and all loans and receivables due from *all* subsidiaries (whether consolidated or unconsolidated), associated companies, and those corporate joint ventures over which the reporting bank holding company exercises significant influence (collectively referred to as “investees”). Investees include banks, nonbank companies, and lower-tier bank holding companies.

Include the following in this item:

- (1) the cost of the parent’s holdings of capital stock of subsidiaries and associated companies including any goodwill associated with the acquisitions;
- (2) when the investment is in common stock, the parent’s proportionate share in the earnings or losses (net of preferred dividends) of subsidiaries and associated companies since the date of their acquisition, less common stock dividends declared or paid;
- (3) any advances made to, and other receivables due from, direct and indirect subsidiaries and associated companies (including those taking the form of loans and holdings of their bonds and debentures). Investments in the common stock of investees shall be reported using the equity method of accounting in accordance with GAAP. Under the equity method,

---

## Schedule PC

the carrying value of the bank holding company's investment in the common stock of an investee is originally recorded at cost but is adjusted periodically to record as income the bank holding company's proportionate share of the investee's earnings or losses and decreased by the amount of any cash dividends received from the investee and amortization of goodwill.

The term "subsidiary" is defined by section 2(d) of the Bank Holding Company Act and under Section 225.2 of Federal Reserve Regulation Y, which includes companies 25 percent or more owned or controlled by another company and may include companies less than 25 percent owned, if the Board determined that they are controlled by the bank holding company. However, for purposes of the Parent Company Only Financial Statements for Bank Holding Companies, a subsidiary is a company in which the parent bank holding company directly or indirectly owns more than 50 percent of the outstanding voting stock.

An associated company is a corporation in which the bank holding company, directly or indirectly, owns 20 to 50 percent of the outstanding voting stock and over which the bank holding company exercises significant influence. This 20 to 50 percent ownership is presumed to carry "significant" influence unless the bank holding company can demonstrate the contrary to the satisfaction of the Federal Reserve.

A corporate joint venture is a corporation owned and operated by a group of companies ("joint venturers"), no one of which has a majority interest, as a separate and specific business or project for the mutual benefit of the joint venturers. Each joint venturer may participate, directly or indirectly, in the management of the joint venture. An entity that is a majority-owned subsidiary of one of the joint venturers is not a corporate joint venture.

The amount reported for this item should equal the sum of Schedule PC-A, items 1(a)(1) through 3(b)(2).

### **Line Item 6 Premises and fixed assets (including capitalized leases).**

Report the book value, less depreciation, of all premises, furniture, fixtures, and equipment purchased directly or acquired by means of a capital lease. *Exclude* real estate owned other than company premises. Such real estate is to be reported in item 8, "Other assets."

### **Line Item 7 Intangible assets (other than reported in item 5 above).**

Report in the appropriate subitem the amount of intangible assets. Include in this item intangible assets that are not properly reported as part of investments in subsidiaries (to be reported in item 5 above). Such intangibles may arise from acquisitions of portions or segments of another institution's business, such as branch offices, mortgage servicing portfolios, and credit card portfolios.

Intangible assets primarily result from business combinations accounted for under the purchase method in accordance with FASB Statement No. 141 that relate to the acquisition of a subsidiary should be reflected in Schedule PC-A.

*Purchase acquisition*—In a purchase acquisition the assets and liabilities of the acquired business must be recorded on the books of the combined bank holding company at their fair value. The fair value of an asset is generally its market or appraised value and liabilities are generally valued on a present value basis. Therefore, to the extent possible, the cost of the acquisition is allocated to each identifiable asset or liability being acquired or assumed. Identifiable assets may be tangible (such as securities or fixed assets) or intangible (such as service contracts or the estimated value of certain deposit relationships as recognized by the Federal Reserve). Any excess of the cost of the acquisition over the net fair value of the identifiable assets and liabilities acquired or assumed is purchased goodwill.

In a purchase acquisition, the historical equity capital balances of the acquired business are not to be carried forward to the balance sheet of the combined bank holding company. If the reporting holding company has issued any stock in connection with the acquisition, the fair value of the shares issued shall be used in determining the cost of the acquisition unless the net fair value of the assets acquired and liabilities assumed presents a more accurate measure of the value of the transaction. The aggregate par or stated value of perpetual preferred or common shares issued shall be credited to the acquiring holding company's appropriate stock account and any excess of fair value over par or stated value of shares issued (reduced by any direct costs of issuing the shares) shall be credited to capital surplus. The operating results of the acquired business are to be included in the income and expenses of the reporting holding company only from the date of acquisition.

A *fixed interest rate* is a rate that is specified at the origination of the transaction, is fixed and invariable during the term of the instrument, and is known to both the borrower and the lender.

A *predetermined interest rate* is a rate that changes during the term of the instrument on a predetermined basis, with the exact rate of interest over the life of the instrument known with certainty to both the borrower and the lender when the instrument is acquired. Examples of predetermined-rate transactions are:

- (1) Instruments that carry a specified interest rate, for, say, six months and thereafter carry a rate equal to a specific percentage over the initial rate.
- (2) Instruments that carry a specified interest rate while the transaction amount is below a certain threshold amount but carry a different specified rate above that threshold (e.g., a line of credit where the interest rate is 14% when the unpaid balance of amounts advanced is \$100,000 or less, and 12% when the unpaid balance is more than \$100,000).

A *floating or adjustable interest rate* is a rate that varies, or can vary, in relation to an index, to some other interest rate such as the rate on certain U.S. Government securities or the bank’s “prime rate” or to some other variable

criterion the exact value of which cannot be known in advance. Therefore, the exact rate the instrument carries at any subsequent time cannot be known at the time of origination. If the interest rate can float or be adjusted daily, the rate is considered immediately adjustable, even if the rate is not, in fact, changed.

For purposes of this item, when the rate on an instrument with a floating or adjustable rate can no longer float because it has reached a floor or ceiling level, the instrument is to be treated as “fixed rate” rather than as “floating rate” until the rate is again free to float.

*Remaining maturity* is the amount of time remaining from the report date until the final contractual maturity of the instrument *without regard to the instrument’s repayment schedule, if any.*

*Repricing frequency* is how often the contract permits the interest rate on an instrument to be changed (e.g., daily, monthly, quarterly, semiannually, annually) without regard to the length of time between the report date and the date the rate can next change.

Report in the appropriate subitem the total amount of the parent bank holding company’s assets, including those in the form of loans, lease financing receivables, and placements, that are past due 90 days or more and still accruing (item 7(a)) or in nonaccrual status (item 7(b)). Include in this item the dollar amount of assets that have been restructured, but are no longer in compliance with the restructured terms and are now past due or in non-accrual status.

#### Line Item 7(a) Past due 90 days or more and still accruing.

#### Line Item 7(b) Nonaccrual status.

Report on a bank holding company parent company only basis assets, including loans, lease financing receivables, and placements, that are past due or are in nonaccrual status. Loan amounts should be reported net of unearned income to the extent that the same categories of loans are reported net of unearned income in Schedule PC. Report the full outstanding balances of past due and nonaccrual assets, as reported for the purposes of Schedule PC-B, not simply the delinquent payments.

---

## Schedule PC-B

### Definitions for Item 7

*Past due*—For purposes of this item, grace periods allowed by the bank holding company after an asset technically has become past due but before the imposition of late charges are not to be taken into account in determining past due status. Assets (including loans, lease financing receivables, and placements) are to be reported in this item when either the interest or principal is due and unpaid 90 days or more and still accruing.

Furthermore, loans and lease financing receivables are to be reported as past due when either interest or principal is unpaid in the following circumstances:

- (1) Closed-end monthly installment loans are to be reported as past due when the borrower is in arrears (At a bank holding company's option, loans and leases with payments scheduled monthly may be reported as past due when one scheduled payment is due and unpaid for 30 days or more.) Other multipayment obligations with payments scheduled other than monthly are to be reported as past due when one scheduled payment is due and unpaid for 30 days or more.
- (2) Open-end credit such as charge-card plans, check credit, and other revolving credit plans are to be reported as past due when the customer has not made the minimum payment for two or more billing cycles.
- (3) Amortizing loans secured by real estate are to be reported as past due when the borrower is in arrears two or more monthly payments. (Bank holding company may use 30 days as a proxy for a month if they prefer.) Such obligations with payments scheduled other than monthly are to be reported as past due when one scheduled payment is due and unpaid for 30 days or more.
- (4) Single payment and demand notes providing for the payment of interest at stated intervals are to be reported as past due after one interest payment is due and unpaid for 30 days or more.
- (5) Single payment notes providing for the payment of interest at maturity are to be reported as past due after maturity if interest or principal remains unpaid for 30 days or more.
- (6) Unplanned overdrafts are to be reported as past due if the account remains continuously overdrawn for 30 days or more.

For purposes of this item, a full payment in computing past due status for consumer installment loans (both closed-end and open-end) is defined to include a partial payment equivalent to 90 percent or more of the contractual payment.

NOTE: The time period used for reporting past due status as indicated above may not in all instances conform to those utilized by the Federal Reserve in bank holding company examinations.

*Nonaccrual*—For purposes of this item, assets (including loans, lease financing receivables, and placements) are to be reported as being in nonaccrual status if: (a) they are maintained on a cash basis because of deterioration in the financial position of the borrower, (b) payment in full of interest or principal is not expected, or (c) principal or interest has been in default for a period of 90 days or more unless the obligation is both well secured and in the process of collection.

A debt is “well secured” if it is secured (1) by collateral in the form of liens on or pledges of real or personal property, including securities, that have a realizable value sufficient to discharge the debt (including accrued interest) in full, or (2) by the guaranty of a financially responsible party. A debt is “in the process of collection” if collection of the debt is proceeding in due course either through legal action, including judgment enforcement procedures, or, in appropriate circumstances, through collection efforts not involving legal action which are reasonably expected to result in repayment of the debt or in its restoration to a current status.

NOTE: Loans to individuals for household, family, and other personal expenditures and loans secured by 1–4 family residential properties on which principal or interest is due and unpaid for 90 days or more are not required to be reported as nonaccrual loans. Nevertheless, such loans should be subject to other alternative methods of evaluation to assure that the bank holding company's net income is not materially overstated. To the extent that the bank holding company has elected to carry any loans in nonaccrual status on its books, such loans must be reported as nonaccrual in this schedule.

### **Line Item 8 Loans and leases of the parent restructured and in compliance with modified terms.**

Report on a bank holding company parent company only basis all loans and lease financing receivables that have

---

## Schedule PC-B

been restructured because of a deterioration in the financial position of the obligor but, as of the report date, are in compliance with the modified terms. Loan amounts should be reported net of unearned income to the extent that the same categories of loans are reported net of unearned income in Schedule PC above.

### Definition for Item 8

*Restructured loans and leases*—For purposes of this report, restructured loans and leases (i.e., renegotiated debt) includes those loans and lease financing receivables that have been restructured or renegotiated to provide a reduction of either interest or principal because of a deterioration in the financial position of the borrower. A loan extended or renewed at a stated interest rate equal to the current interest rate for new debt with similar risk is not considered restructured debt.

Include in memoranda item 8 only those restructured loans and leases that are in compliance with the modified terms of the renegotiation. If such loans and leases are past due or in nonaccrual status, they are to be excluded from memoranda item 8 and reported in memoranda items 7(a) and 7(b) above.

*Exclude* all loans to individuals for household, family, and other personal expenditures, and all loans secured by 1–4 family residential properties.

For further information, see Financial Accounting Standards Board Statement No. 15, “Accounting by Debtors and Creditors for Troubled Debt Restructurings” (FASB 15).

**Line Item 9 Not applicable.**

**Line Item 10 Pledged securities.**

Report the amortized cost of all held-to-maturity securities and the fair value of all available-for-sale securities held by the reporting bank holding company (parent company only) that are pledged to secure deposits, repurchase transactions, or other borrowings (regardless of the balance of liabilities against which the securities are pledged), such as performance bonds on futures or forward contracts, or for any other purpose.

**Line Item 11(a) Fair value of securities classified as available-for-sale in Schedule PC, item 2(a) through 2(c).**

Report in this item the fair value of all securities included in Schedule PC, item 2(a) through 2(c), “Securities,” that

have been designated as available-for-sale. The fair value (market value) of securities should be determined, to the extent possible, by timely reference to the best available source of current market quotations or other data on relative current value. For example, securities traded on national, regional, or foreign exchanges, or on organized over-the-counter markets should be valued at the most recently available quotation in the most active market. Quotations from brokers or others making markets in securities that are neither widely nor actively traded are acceptable if prudently used. Unrated debt securities for which no reliable market price data are available may be valued at cost adjusted for amortization of premium or accretion of discount unless credit problems of the obligor or upward movements in the level of interest rates warrant a lower estimate of current value. Equity securities that do not have readily determinable fair values shall be reported at historical cost. (NOTE: The sum of items 11(a) and 11(b) must equal the sum of Schedule PC, item 2(a) through 2(c)).

**Line Item 11(b) Amortized cost of securities classified as held-to-maturity in Schedule PC, item 2(a) through 2(c).**

Report the amortized cost of securities classified as held-to-maturity in Schedule PC, item 2(a) through 2(c). (NOTE: The sum of items 11(a) and 11(b) must equal the sum of Schedule PC, item 2(a) through 2(c)).

**Line Item 12 Balances held by subsidiary banks of the bank holding company due from other bank subsidiaries of the bank holding company or due from nonbank subsidiaries of the bank holding company.**

Report in item 12(a) all balances (that is, balances due from, securities, federal funds sold, securities purchased under agreements to resell, loans, or any other assets) that are booked as assets on the books of a subsidiary bank of the bank holding company that are due from a bank that is a direct or indirect subsidiary of the top tier parent bank holding company.

Report in item 12(b) all balances (that is, balances due from, securities, federal funds sold, securities purchased under agreements to resell, loans, or any other assets) that are booked as assets on the books of a subsidiary bank of the bank holding company that are due from direct or indirect nonbank subsidiaries of the top-tier parent bank holding company.

### **Line Item 14 Bank holding company (parent company only) borrowings not held by financial institutions or by insiders (including directors) and their interests.**

Report the amount of all borrowings (parent company only) that are reported in Schedule PC, liability items 13

through 16 that are not held by financial institutions or by the bank holding company's officers, directors, or shareholders and their related interests. For reporting purposes, a related interest is a company in which an officer, director, or shareholder controls 25 percent or more of its stock. Do not report borrowings that are held by former shareholders of the bank holding company in this item.

*Exclude* limited-life preferred stock reported in Schedule PC, item 16, "Subordinated notes and debentures."

### **Line Item 15 To be completed only by the top-tier bank holding company for its consolidated nonbank and thrift subsidiaries.**

For example, eliminate the loans made by one nonbank subsidiary to a second nonbank subsidiary, but do not eliminate loans made by one nonbank subsidiary to the parent bank holding company or a subsidiary bank.

Include the combined assets and operating revenue of inactive nonbanking subsidiaries to the extent that the top-tier bank holding company directly or indirectly owns or controls more than 50 percent of the outstanding voting stock, and these companies have been consolidated using generally accepted accounting principles for purposes of reporting in the FR Y-9C.

Report the dollar amount of the reporting bank holding company's total combined nonbank assets of nonbank

subsidiaries. Nonbank assets include the assets of all foreign and domestic nonbank subsidiaries (as defined below) and their majority-owned direct and indirect subsidiaries.

The top-tier parent bank holding company should report in this item all assets of nonbank subsidiaries, whether held directly or indirectly or held through lower-tier bank holding companies. The lower-tier parent bank holding company in a multi-tier bank holding company who files this report (FR Y-9LP) should leave items 15(a) through 15(h) blank.
