The Philippine Bio-fuels website, the first internet-based information resource on Philippine bio-fuels, was recently launched at the Philippine Department of Energy. The website ([www.biofuels.com.ph](http://www.biofuels.com.ph)) is the result of collaborative efforts by Seaoil Philippines and Chemrez Technologies, the pioneers in the sale of bio-ethanol and bio-diesel in the country, respectively. Awareness by the average consumer on the benefits of the use of bio-fuels is expected to improve as a result of the website launch.
