City: Cedar City

State: UT

Country: UNITED STATES

Zip: 84720

PostalCode:

Comments:

The information in the propped is covered in many other documents. The confusion with borrowers comes from too many forms. Another document will not solve the problem. The loan officer needs to be a professional and able to explain all programs, future adjustments, etc. Also, the word "illustration" to most people means a picture. The word "disclosue" is now well known as a word for "information". Changing words also will be more confusing.
