

FOREWARD

Public Law 93-400 requires that the Office of Management and Budget (OMB), Office of Federal Procurement Policy (OFPP), "...establish a system for collecting, developing, and disseminating the procurement data which takes into account the needs of the Congress, the executive branch, and the public sector. Under the guidance of OFPP, design of the Federal Procurement Data System (FPDS) was completed in early 1978 and data collection began October 1, 1978. The Federal Procurement Data Center (FPDC) was established to operate the system. The Center provides a central point to respond to the requirements of the legislative, executive, and judicial branches of the Government as well as the private sector.

The Federal Procurement Data Center produces reports which examine various aspects and impacts of the Federal acquisition process. The data can be used for geographical analysis, market analysis, and analysis of the impact of congressional and presidential initiatives in socio-economic areas such as small business. The data is also a reliable basis for measuring and assessing the impact of Federal acquisition policy and management improvement.

Basic acquisition data will be published each fiscal year in the Federal Procurement Report. Special reports to meet specific data requirements can be produced on demand. Data on each procurement action of fiscal year 2002 is available on CD-ROM.

This report was prepared in the Federal Procurement Data Center by Grafton Biglow, Chief of the Customer Liaison Branch. Computer processing operations were performed by Pathina Musgrove.

Further information regarding the Federal Procurement Data System reports or capabilities can be obtained from the Federal Procurement Data Center, U.S. General Services Administration, 1800 F Street, N.W., Room 4020, Washington, D.C. 20405 or by calling area code (202) 219-3416. The FPDS website is located at www.fpds.gsa.gov

FEDERAL PROCUREMENT DATA SYSTEM

HIGHLIGHTS

The FPDS Federal Procurement Report is developed annually, and contains "snapshot" statistics on the procurement activities of over 60 agencies. The figures in this report are only as accurate, timely, and complete as the data provided by the reporting agencies to the FPDC.

All dollars are in thousands except for the dollars in the Credit Card Report and the per capita procurement displayed at the top of each State Snapshot. Due to rounding, dollars on the charts may not equal the TOTAL DOLLAR figure, and percentages may not total 100 percent.

The FPDS Federal Procurement Report is current as of the date of issuance and all older reports are obsolete, therefore, the FPDC will not maintain prior issuance for either distribution or for reference.

The Commission on Civil Rights, Corporation for National Community Service, Federal Communications Commission, Federal Labor Relations Authority, Federal Mine Safety and Health Review Commission, National Capital Planning Commission, and the Occupational Safety and Health Review Commission did not report in fiscal year 2002 and are not displayed in this report.

The Report on Annual Procurement Preference Goaling Achievements contains fiscal year 2002 dollars that were processed in May of 2003. The figures in the "Goaling" report may not match the figures in the agency snapshot reports due to various exclusions.

The FPDS Annual Report is no longer published and is only available at the FPDC website at www.fpdc.gov.
