The 2009 budget provides \$47,231 million in gross discretionary funding for veterans health, benefits, and other services, including \$44,764 million in net discretionary budget authority and \$2,467 million in anticipated medical collections. One of VA's highest priorities is to provide high-quality, accessible, and timely health care for veterans returning from service in Operation Iraqi Freedom and Operation Enduring Freedom. The President's 2009 budget request provides the resources necessary to ensure that service members' transition from active duty military status to civilian life continues to be as smooth and seamless as possible.

For 2009, the budget requests total resources for the VA Medical Services appropriation of \$36.5 billion. This includes \$34.0 billion in appropriated budget authority and \$2.5 billion to be collected in the Medical Care Collections Fund.

The budget is proposing a set of legislative proposals that will be submitted to the authorizing committees of Congress recommending the enhancement of health care benefits for our veterans; these proposals will be outlined in the Department's budget submission. The budget also includes an additional set of mandatory legislative proposals that are not reflected in the Medical Services appropriation request. These proposals are discussed at the end of the narrative for Medical Services. The appropriation request reflects the full funding request for Medical Services to care for our veterans.

Medical Services.—Provides for a comprehensive, integrated health care delivery system that addresses the needs of eligible veterans and beneficiaries in VA medical centers, outpatient clinic facilities, contract hospitals, State homes, and outpatient programs on a fee basis. Hospital and outpatient care is also provided by the private sector for certain dependents and survivors of veterans under the Civilian Health and Medical Programs for the Department of Veterans Affairs (CHAMPVA).

In the FY 2009 request, the Medical Administration appropriation is being consolidated into the Medical Services appropriation. Merging these two accounts will improve the execution of the budget and will allow VA to respond rapidly to unanticipated changes in the health care environment throughout the year. This portion of the Medical Services appropriation finances the expenses of management, security, and administration of the VA health care system through the operation of VA medical centers, other facilities, Veterans Integrated Service Network offices and facility director offices, chief of staff operations, quality of care oversight, legal services, billing and coding activities, procurement, financial management, and human resource management.

Medical Care Collections Fund (MCCF).—VA estimates collections of \$2.5 billion, representing 7 percent of available resources. VA has the authority to collect inpatient and outpatient co-payments, medication co-payments, and nursing home co-payments; authority for certain income verification; authority to recover third-party insurance payments from veterans for nonservice-connected conditions; and authority to collect revenue from enhanced use leases. These collections also include those collected from the Compensated Work Therapy Program, Compensation and Living Expenses Program, and the Parking Program.

PERFORMANCE MEASURES

Provide High Quality Health Care.—Use of clinical practice guidelines in treating patients results in improved health of veterans and reduced use of services. The prevention index spotlights and summarizes a variety of evidencebased measures for high quality preventive health care. VHA's strategy to monitor satisfaction through patient surveys will identify areas of improvement in all medical services.

MEDICAL SERVICES MANDATORY LEGISLATIVE PROPOSALS

The budget is proposing a set of legislative proposals that are not reflected in the Medical Services appropriation request. Authorizing legislation for these proposals will be transmitted separately from the budget to the authorizing committees of Congress. This legislation will propose three changes to VA's fee structure that will result in additional receipts to the Treasury. These additional receipts will be classified as mandatory and will not reduce the Medical Services appropriation request, which has been made in full.

These proposals will: assess a tiered annual enrollment fee based on the family income of the veteran; increase the pharmacy co-payment from \$8 to \$15 for all Priority 7 and Priority 8 veterans; and eliminate the third-party offset to first-party debt.

The first proposal is the tiered annual enrollment fee which is structured to charge \$250 for veterans with family incomes from \$50,000 to \$74,999; \$500 for those with family incomes from \$75,000 to \$99,999; and \$750 for those with family incomes equal to or greater than \$100,000. This proposal is estimated to contribute over \$129 million to the Treasury annually, beginning in 2010, and will increase receipts over 5 years by \$514 million.

The second proposal is the pharmacy co-payment proposal which is projected to contribute \$335 million to the Treasury beginning in 2009 and will increase receipts by \$1.6 billion over five years.

The third proposal eliminates the current practice of VA offsetting or reducing third-party billings to insurance companies based upon the direct co-payment responsibilities of the veteran. This proposal will increase receipts by \$44 million beginning in FY 2009 and \$215 million over five years.

Note: In 2008, \$2,012,000,000 in contingency funds will be used for: increasing staffing levels and purchasing medical equipment needed to continue delivering high-quality health care services. The additional personnel will enable VA to: improve access to care for veterans; address new initiatives related to mental health and substance abuse services, outpatient services for blind veterans, and for Vet Centers; provide enhanced case management for OIF/OEF veterans; and address the material weakness identified by the external financial statement auditors.

The purpose of the fund is to enable the Departments to carry out a program to identify and provide incentives to implement creative sharing initiatives at the facility, intraregional and nationwide levels. The Departments have established the fund and developed processes and criteria to solicit and select projects. Section 721 of the FY 2003 National Defense Authorization Act, Public Law 107–314, established the fund and requires VA and Department of Defense (DoD) to establish a joint incentive program. In FY 2009, each Secretary shall contribute a minimum of \$15 million to the fund after the appropriation is enacted.

For 2009, the budget requests total resources for the VA Medical Facilities appropriation of \$4.7 billion. Medical Facilities provides for the operations and maintenance of the capital infrastructure required to provide health care to the Nation's veterans. These costs include utilities, engineering, capital planning, leases, laundry services, grounds maintenance, trash removal, housekeeping, fire protection, pest management, facility repair, and property disposition and acquisition.

Note: In 2008, \$508,000,000 in contingency funds will be used for: hiring additional staff and completing an increased number of non-recurring maintenance (NRM) projects. VA will use funds to reduce the Facilities Condition Assessment deficiencies and backlog.

For 2009, the total budgetary resources of \$1.8 billion are comprised of \$442 million in direct appropriations, \$442 million in medical care support and \$961 million in federal and private sector grants. The Research program will support 3,201 FTE through direct appropriation and a total of over 15,000 research staff through all funding sources.

This account is an intramural program whose mission is to conduct research focused on the special health care needs of veterans and to balance the discovery of new knowledge and the application of these discoveries to advance the health and care of veterans and the Nation. VA is uniquely positioned to move scientific discovery from investigators' laboratories to patient care. In turn, VA clinician investigators identify new research questions for the laboratory at the patient's bedside, making the research program one of VA's most effective tools to improve the care of veterans. Embedding research within an integrated health care system with a state-of-theart electronic health record creates a national laboratory for the discovery of new medical knowledge and the translation of that knowledge into improved health. VA scientists who partner with colleagues from other Federal agencies, acedemic medical centers, nonprofit organizations and commercial entities nationwide further expand the reach and scope of VA research. Although VA R&D is an intramural program, through VA's academic affiliations as well as collaborations with other federal agencies, it is fully integrated with the larger biomedical research community. Veterans' health issues are addressed comprehensively in the following four program divisions and the medical care research support required for these programs:

Biomedical Laboratory.—Supports preclinical research to understand life processes from a molecular, genomic, and physiological level in regard to diseases affecting veterans.

Clinical Science.--Administers investigations (i.e., human subject research such as drug, surgical, single subject, pilot and multi-center cooperative studies as well as feasibility trials) aimed at instituting new, more effective clinical care.

Health Services .- Supports studies to identify and promote effective and efficient strategies to improve the delivery of health care to veterans.

Rehabilitation .- Develops novel approaches to restoring veterans with traumatic amputation, central nervous system injuries, loss of sight and/or hearing, or other physical and cognitive impairments to full and productive lives.

VA's Medical and Prosthetic Research programs are included in the Federal Science & Technology (FS&T) budget.

VA has the authority to collect co-payments which are deposited into the Medical Care Collections Fund (MCCF) receipt account. As allowed by the provisions of the appropriations Acts, these receipts are transferred to the Medical Services appropriation where they remain available until expended for the purposes of this account. In 2007, \$2.2 billion was collected in the MCCF receipt account and transferred to the Medical Services appropriation to provide health care to our veterans. These collections consist of co-payments from veterans for inpatient, outpatient, and nursing home care and prescribed medications; third-party insurance payments from veterans for nonservice-connected conditions; and collections from enhanced-use leases, the Compensated Work Therapy Program, Compensation and Living Expensed Program, and the Parking Program.

This fund consists of gifts, bequests, and proceeds from the sale of property left in the care of the facilities by former beneficiaries; patients' fund balances; and, proceeds from the sale of effects of beneficiaries who die leaving no heirs or without having otherwise disposed of their estate. Such funds are used to promote the comfort and welfare of veterans at hospitals, nursing homes, and domiciliaries where no general appropriation is available. Public Law 102–54 authorizes compensation work therapy and therapeutic transitional housing and loan programs to be funded from the General Post Fund. (38 U.S.C. chs. 83 and 85.)

This appropriation provides for the payment of compensation, pension, and burial benefits to veterans and survivors.

Compensation is paid to veterans for disabilities incurred in or aggravated during active military service. Dependency and Indemnity Compensation is paid to survivors of servicepersons or veterans whose death occurred while on active duty or as a result of service-connected disabilities. Compensation and vocational rehabilitation is provided to the children of Vietnam veterans who were born with certain birth defects. The Secretary may pay a clothing allowance to each veteran who uses a prescribed medication for a service-connected skin condition or wears a prosthetic or orthopedic appliance (including a wheelchair) which, in the judgment of the Secretary, tends to damage or tear the clothing of such veteran.

Miscellaneous benefits provided for are:

(a) payments for claims made pursuant to the provision of the World War Adjusted Compensation Act of 1924, as amended; (c) payments authorized by the Equal Access to Justice Act.

The appropriation also provides for a pilot program authorizing VA to contract out medical examinations to determine service-connected disabilities of veterans who are potential applicants of compensation benefits and a program to allow VA to perform income matches for certain compensation recipients.

In accordance with Public Law 97–377, the Reinstated Entitlement Program for Survivors (REPS) program restores Social Security benefits to certain surviving spouses or children of veterans who died of service-connected causes.

Legislation is proposed to provide a cost-of-living adjustment comparable to the annual social security increase to recipients of disability compensation, dependency and indemnity compensation, and clothing allowances. The increase, effective with payments made on January 1, 2009, is expected to be 2.5 percent.

Pension benefits may be paid to veterans or their survivors. A veteran's entitlement is based on active duty service of a specific length (normally 90 days or more) during a designated war period, disabilities considered permanent and total, and countable income below established levels. There is no disability requirement for survivor cases or veterans age 65 or older. Income support is provided at established benefit levels.

An automatic annual cost-of-living increase comparable to the annual social security increase is provided for those pensioners in the improved program and to parents receiving dependency and indemnity compensation. The increase, effective with payments made on January 1, 2009, is expected to be 2.5 percent.

This appropriation finances educational assistance allowances for certain service persons, veterans and for eligible dependents of those veterans: (a) who died from service-connected causes or have a total and permanent rated serviceconnected disability; and (b) servicepersons who were captured or missing in action. In addition, certain disabled veterans are provided with vocational rehabilitation, specially adapted housing grants, and automobile grants with the associated approved adaptive equipment. Voluntary contributions by eligible servicepersons and matching contributions provided by the Department of Defense are included in the Post-Vietnam Era Veterans Education Account.

All Volunteer Force Educational Assistance (Montgomery GI Bill).-Public Law 98-525, enacted October 19, 1984, established two new educational programs: an assistance program for veterans who enter active duty during the period beginning July 1, 1985; and an assistance program for certain members of the Selected Reserve. Public Law 108–375 established a program to provide educational assistance to members of the reserve components called or ordered to active service in response to a war or national emergency declared by the President or the Congress, in recognition of the sacrifices that those members make in answering the call to duty. The Readjustment Benefit appropriation pays the basic benefit allowance for veterans, except for certain Post-Vietnam Era Veterans Education participants who transferred to the Montgomery GI Bill program. Supplementary educational assistance, Post-Vietnam Era Veterans Education converters, reservists, and the National Call to Service Program are financed by payments from the Department of Defense.

The following table shows a caseload and cost comparison for these beneficiaries under existing legislation.

Dependents' Education and Training.—This program provides benefits to children and spouses of veterans who died of a service-connected disability or whose service-connected disability is rated permanent and total. In addition, dependents of servicepersons missing in action or interned by a hostile foreign government for more than 90 days are also eligible. The following table provides a comparison of trainees and costs for the Dependents Educational Assistance program.

Special Assistance to Disabled Veterans.—Service-disabled veterans requiring vocational rehabilitation receive assistance to cover the costs of subsistence, tuition, books, supplies, and equipment. In addition to monetary benefits, individuals may also receive rehabilitation evaluation, planning, and delivery services designed to move the veteran into a suitable job.

Automobile Grants and Adaptive Equipment—Certain disabled veterans are provided with automobile grants with the associated approved adaptive equipment. An allowance, up to a maximum of \$11,000, is provided to certain service-disabled veterans and servicepersons toward the purchase price of an automobile. Adaptive equipment and the maintenance and replacement of such equipment is also provided.

Specially Adapted Housing Grants.—Specially adapted housing grants, up to a maximum of \$50,000, are provided to certain severely disabled veterans. Veterans who suffer service-connected blindness or who have lost the use of both upper extremities can receive up to \$10,000.

Tuition Assistance.—Public Law 106–398, enacted October 30, 2000, allows the military services to pay up to 100 percent of tuition and expenses charged by a school for service members. If a service department pays less than 100 percent, a service member eligible for the Montgomery GI Bill Activeduty (MGIB) can elect to receive MGIB benefits for all or a portion of the remaining expenses. Public Law 108–454 established a program that provides availability of education benefits for payment for national admissions exams and national exams for credit at institutions of higher education.

Licensing and Certification Test Payments.—Under Public Law 106–419, veterans and other eligible persons may receive up to \$2,000 to pay fees required for civilian occupational licensing and certification examinations needed to enter, maintain, or advance in employment in a vocation or profession, effective March 1, 2001.

National Call to Service.—The 2003 National Defense Authorization Act directs the Department of Defense to offer an active duty enlistment option of 15 months plus training time to facilitate interest in National Service. Program participants will be given the opportunity to select one of the following incentives: a \$5,000 enlistment bonus, repayment of student loans up to \$18,000, or one of two education allowances.

Note.—The Department of Veterans Affairs insurance policy loans are not an extension of Federal credit. Credit schedules previously shown for this account have been discontinued.

The Insurance business line administers six life insurance programs, including two trust funds, two public enterprise funds, a trust revolving fund, and Veterans' Mortgage Life Insurance (VMLI), and supervises two additional programs for the benefit of servicepersons, veterans, and their beneficiaries through contracts with a commercial company. All programs are operated on a commercial basis, to the extent possible, consistent with all applicable statutes. The Insurance appropriation is the funding mechanism for the following administration of the Government life insurance activities: U.S. Government Life Insurance Fund (USGLI); National Service Life Insurance (NSLI); Service-Disabled Veterans Insurance Fund (S-DVI); and Veterans Mortgage Life Insurance (VMLI).

Military and Naval Insurance.—Payments are made to the USGLI fund for certain World War I veterans for extra hazards of military service and for claims on war risk insurance issued to servicemen and veterans of World War I.

National Service Life Insurance (NSLI).—Payments are made to the NSLI fund for certain World War II veterans for: (a) the extra hazards of service; (b) gratuitous insurance granted to certain persons unable to apply for national service life insurance; and (c) death claims on policies under the waiver of a premium while the insured was on active duty.

Payment to Service-Disabled Veterans Insurance Fund (S-DVI).—Payments are made to the S-DVI fund to supplement the premiums and other receipts of the fund in amounts necessary to pay claims on insurance policies issued to veterans with service-connected disabilities.

Veterans' Mortgage Life Insurance (VMLI).—Payments are made to mortgage holders under this program, which provides mortgage protection life insurance to veterans who have received a grant for specially adapted housing due to severe disabilities. The general decline in the number of policies and the amount of insurance in force is expected to continue in 2009 as indicated in the following table.

This fund finances the payment of claims on nonparticipating life insurance policies issued and currently is open for new issues to veterans having service-connected disabilities. The program provides insurance coverage for servicedisabled veterans at standard rates.

Operating costs-

Death claims.—Represents payments to designated beneficiaries.

All other.—Represents payments to policyholders who surrender their policies for their cash value and hold endowment policies which have matured.

Capital investment.—A policyholder may borrow up to 94 percent of the value of his policy.

The trend in the number and amount of policies in force is indicated in the following table.

POLICIES AND INSURANCE IN FORCE

| | 2007 actual | 2008 est. | 2009 est. |
|--|-------------|-----------|-----------|
| Number of policies | 187,904 | 195,020 | 201,453 |
| Insurance in force (dollars in millions) | \$1,885 | \$1,962 | \$2,032 |

Financing.—Operations are financed from premiums and other receipts. Additional funds are received by transfer from the veterans' insurance and indemnities appropriation, instead of direct appropriations to this fund.

Operating results and financial condition.—Since premium and other receipts are insufficient to cover operations, the fund continues to project liabilities in excess of assets. The deficit is expected to reach an estimated \$750 million by September 30, 2009.

Note.—The Department of Veterans Affairs insurance policy loans are not an extension of Federal credit. Credit schedules previously shown for this account have been discontinued.

This fund pays claims and administrative costs on participating life insurance policies issued during the period May 1, 1965, through May 2, 1966, under three life insurance programs: (1) service-disabled standard insurance; (2) servicedisabled rated insurance; and (3) nonservice disabled insurance availing disabled World War II and Korean conflict veterans an opportunity to acquire life insurance coverage who were no longer eligible for other Government insurance.

Budget program-

Death claims.—Represents payments to designated beneficiaries.

Dividends.—Policyholders participate in the distribution of annual dividends.

All other.—This represents resources for the administrative costs of processing claims and maintaining the accounts, and to those policyholders who: (a) surrender their policies for cash value; (b) hold endowment policies which VETERANS REOPENED INSURANCE FUND-Continued

have matured; and (c) have purchased total disability income coverage and subsequently become disabled.

Policy loans made.—A policyholder may borrow up to 94 percent of the cash value of his policy at an interest rate adjusted to reflect private sector borrowing costs.

The following table reflects the decrease in the number of policies and the amount of insurance in force:

POLICIES AND INSURANCE IN FORCE

| Number of policies | 43,720 | 39,360 | 35,130 |
| Insurance in force (dollars in millions) | \$418 | \$386 | \$346 |

Financing.—Operations are financed from premiums collected from policyholders and interest on investments. Excess earnings of the fund are now distributed to the policyholders in the form of an annual dividend.

As required by the Federal Credit Reform Act of 1990, this account records, for these programs, the subsidy costs associated with the direct loans obligated and loan guarantees committed in 1992 and beyond, (including modifications of direct loans or loan guarantees that resulted from obligations

or commitments in any year), as well as for the administrative expenses of these programs. The subsidy amounts are estimated on a net present value basis.

Veterans housing program account.—The Federal guaranty for this program protects lenders against the following types of losses: (a) for loans of \$45,000 or less, 50 percent of the loan is guaranteed; (b) for loans greater than \$45,000, but not more than \$56,250, \$22,500; (c) for loans more than \$56,250, but less than \$144,000, the lesser of \$36,000 or 40 percent of the loan: or (d) for loans in excess of \$144,000 the guarantee will be the lesser of: 25 percent of the Freddie Mac conforming loan limit for a single family residence, as adjusted for the year involved; or 25 percent of the loan; or the veteran's available entitlement.

Guaranteed transitional housing loans for homeless veterans program account.-Public Law 105-368, the "Veterans Benefits Improvement Act of 1998," established a pilot project designed to expand the supply of transitional housing for homeless veterans and to guarantee up to 15 investment loans with a maximum aggregate value of \$100 million. The project must enforce sobriety standards and provide a wide range of supportive services such as counseling for substance abuse and job readiness skills. Residents will be required to pay a reasonable fee.

This appropriation provides for the corporate leadership and operational support to VA's housing business line.

The Housing program facilitates the extension of private capital, on more liberal terms than generally available to nonveterans, to: assist veterans and servicepersons in obtaining housing credit; and assist veterans in retaining their homes during periods of temporary economic difficulty through intensive supplemental mortgage loan servicing.

The account preceding this section contains information on the Native American Veterans Housing Loan program, and the account following this section contains information on the Guaranteed Transitional Housing Loans for Homeless Veterans program. The Transitional Housing loans are 100% guaranteed and use the Federal Financing Bank (FFB) as the lending institution. For budget purposes, all FFB loans shall be treated as direct loans.

As required by the Federal Credit Reform Act of 1990, these non-budgetary accounts record all cash flows to and from the Government resulting from direct loans obligated in 1992 and beyond (including modifications of direct loans that resulted from obligations in any year). The amounts in the accounts are a means of financing and are not included in the budget totals.

Note.—The Department of Veterans Affairs insurance policy loans are not an extension of Federal credit. Credit schedules previously shown for this account have been discontinued.

This fund was established in 1940. It is for the World War II servicemen's and veterans' insurance program. Over 22 million policies were issued under this program. Activity of the fund reflects a declining claim workload. The trend in the number and amount of policies in force is shown as follows:

POLICIES AND INSURANCE IN FORCE

| | 2007 actual | 2008 est. | 2009 est. |
|--|-------------|-----------|-----------|
| Number of policies | 1,013,557 | 919,970 | 828,052 |
| Insurance in force (dollars in millions) | \$11,516 | \$10,553 | \$9,650 |

This fund is operated on a commercial basis to the extent possible. The income of the fund is derived from premium receipts, interest on investments, and payments which are made to the fund from the Veterans insurance and indemnities appropriation.

Assets of the fund, which are largely invested in special interest-bearing Treasury securities and in policy loans, are expected to decrease from an estimated \$9,823 million as of September 30, 2008 to \$9,230 million as of September 30, 2009. The actuarial estimate of policy obligations as of September 30, 2009, totals \$8,977 million, leaving a balance of \$253 million for contingency reserves.

The status of the fund, excluding noncash transactions, is as follows:

Note.—The Department of Veterans Affairs insurance policy loans are not an extension of Federal credit. Credit schedules previously shown for this account have been discontinued.

This fund was established in 1919 to receive premiums and pay claims on insurance issued under the provisions of the War Risk Insurance Act. The general decline in the activity of the fund is indicated in the following table:

POLICIES AND INSURANCE IN FORCE

| | 2007 actual | 2008 est. | 2009 est. |
|--|-------------|-----------|-----------|
| Number of policies | 6,720 | 5,710 | 4,740 |
| Insurance in force (dollars in millions) | \$20 | \$17 | \$14 |

The fund is operated on a commercial basis to the extent possible. The income of the fund is derived from interest on investments and payments from the Veterans insurance and indemnities appropriation. Effective January 1, 1983, premiums were discontinued because reserves held in the fund were adequate to meet future liabilities of the program.

Assets of the fund, which are largely invested in interestbearing securities and policy loans, are estimated to decrease from \$32 million as of September 30, 2008, to \$27 million as of September 30, 2009, as an increasing number of policies mature through death or disability. The actuarial evaluation of policy obligations as of September 30, 2009, totals \$26 million, leaving a balance of \$1 million for contingency reserves.

The mission of the National Cemetery Administration is to honor veterans with final resting places in national shrines and with lasting tributes that commemorate their service to our Nation. The National Cemetery Administration's vision is to serve all veterans and their families with the utmost dignity, respect, and compassion. Every national cemetery will be a place that inspires visitors to understand and appreciate the service and sacrifice of our Nation's veterans. There are four related programs managed by the National Cemetery Administration including: (1) burying eligible veterans and their family members in national cemeteries and maintaining the graves and their environs as national shrines; (2) administering grants to States in establishing, expanding, or improving State veteran cemeteries; (3) providing headstones and markers for the graves of eligible veterans in national, State, and private cemeteries; and (4) providing presidential memorial certificates to family and friends of deceased veterans, recognizing the veterans' contribution and service to the Nation.

Note: In 2008, \$28,191,000 in contingency funds will be used to correct gravesite deficiencies at VA's national cemeteries, including those identified in the 2002 Millennium Act report to Congress. These repairs involve gravesite renovation projects to replace turf, repair sunken graves, and raise, realign and clean headstones.

NATIONAL CEMETERY ADMINISTRATION—Continued

The National Cemetery Administration also reflects budget information for the National Cemetery Gift Fund and the National Cemetery Administration Facilities Operation Fund. Through the Gift Fund, the Secretary is authorized to accept gifts and bequests which are made for the purpose of beautifying national cemeteries or are determined to be beneficial to such cemeteries, or are made for the purpose of the operation, maintenance, or improvement of the National Memorial Cemetery of Arizona. Through the Facilities Operation Fund, the Secretary is authorized to lease any undeveloped land and unused or underutilized buildings of the National Cemetery Administration, or parts or parcels thereof, for a term not to exceed 10 years. Proceeds from such leases are deposited in the Facilities Operation Fund, and are available to cover costs incurred by the National Cemetery Administration in the operation and maintenance of property of the Administration.

Under the provisions of 38 U.S.C. 8121, the Supply Fund is responsible for the operation and maintenance of a supply system for VA. The Supply Fund is an intragovernmental revolving fund without fiscal year limitations.

Budget program.—The fund provides financial support for: (1) a National Acquisition Center or central contracting office; (2) the maintenance of field station inventories; (3) a service and distribution center; (4) a service and reclamation program; (5) a national prosthetics distribution center; and (6) an asset management service.

Costs for the administration of supply activities at VA field stations are not financed by the Supply Fund. These costs are charged directly to applicable appropriations accounts.

Financing.—Costs of supplies, equipment, and services acquired through the Supply Fund and Supply Fund operating costs are recovered through reimbursements from the VA appropriations and other Government agencies receiving goods and services. For 2009, Supply Fund sales are estimated to reach \$1.5 billion.

Operating results.—The Fund operated at a profit of 16 million in 2007. The new total of retained earnings is 109 million. Operating expense as related to sales was 5 percent.
