

## Interdisciplinary Solutions to Instream Flow Problems

San Antonio, Texas  
October 7-9, 2008

### Registration is now open!

#### This conference will enable you to:

- Build collaborative decision-making skills in a session with Professor Larry Susskind of Harvard Law School's Program on Negotiation.
- Learn about creative, interdisciplinary tools and approaches to instream flow problem-solving.
- Explore the latest developments in instream flow science, policy and public dialogue.
- Showcase your company or organization to hundreds of conference participants with an exhibit booth.
- Submit a poster featuring new instream flow science, policy or collaborative case studies.
- Share instream flow experiences and develop problem-solving strategies with professionals from a variety of sectors and disciplines.
- Participate in one of three concurrent pre-conference technical workshops (October 6th).

Register early to save money, ensure onsite lodging,  
participate in a pre-conference survey and receive  
a free copy of Professor Susskind's latest book!

### El Tropicano Riverwalk Hotel San Antonio, Texas
