Washington, DC 20503

Dear Office of Information and Regulatory Affairs Hunt:

The analysis proposes to devalue the life of a human over 70 to 2/3 that of the rest of the population and lowers the established EPA price tag of a human life from \$6.1 million to \$3.7 million.

This is a mere pretext to cut the value of health and safety standards in order to protect the industries that stand to gain from this White House initiative.

One more very good reason to vote against this administration - or are our votes going to be de-valued next?

Sincerely,

Jane Silverman
