Subject: Proposed changes to the A-76 Circular

Hi,  
I am a former government employee with extensive management experience, and am now working as a senior manager in the commercial sector. I strongly support the Administration's outsourcing and privatization goals, and OMB's Office efforts to improve Circular A-76, with the proposed revisions.

I think the revised Circular will be good for the country and improve efficiency and service delivery.  
Thank you very much.
