MICROSOFT® INTERNET EXPLORER STANDARD LOGO USAGE GUIDELINES

Includes

Microsoft has established the following set of guidelines to assist you in proper use of the Microsoft Internet Explorer standard logo (the "Logo").

The power of the Logo lies in its consistent and appropriate use. Any usage outside these guidelines dilutes the effectiveness of the Logo and makes it more difficult to defend our rights to the trademark. Microsoft reserves the right to change the Logo and/or these Guidelines at any time at its discretion. Third parties shall comply with the Guidelines as amended from time to time.

ACCOMPANYING WORDS

The graphic may not be used without the words "Includes," "Microsoft®," and "Internet Explorer" attached, except as otherwise provided below. No additional or substitute words may be used. The words may not be abbreviated, translated, or transliterated, as in non-English documentation. Microsoft will, however, provide the Logo in versions where the word "Includes" may be translated for the local market, as available. You may not substitute your own translation of the Logo.

USING THE MICROSOFT INTERNET EXPLORER STANDARD LOGO

- Use the Logo only to promote Microsoft Internet Explorer and indicate that your product includes Microsoft Internet Explorer.
- This Logo is NOT to be placed on World Wide Web sites for the purpose of downloading Microsoft Internet Explorer. For this purpose, please see the Microsoft Internet Explorer Online Logo Usage guidelines at <http://www.microsoft.com/ie/logo/>.
- Microsoft will provide you with electronic artwork of the Logo. You may not alter this artwork in any way.
- This Logo is for Microsoft and third party use only as a graphical representation of Microsoft Internet Explorer software.
 - * Microsoft Use: The Logo may be used by Microsoft on packaging, channel, collateral, advertising, direct mail, and events promotion materials for Microsoft products that include Microsoft Internet Explorer software. When referring to Microsoft Internet Explorer by itself, Microsoft may use the Logo without the word "Includes."
 - * Third Party Use: The Logo may be used by third parties authorized to distribute the Microsoft Internet Explorer software under a separate License and Distribution Agreement. Authorized third parties may use the Logo only on the product packaging of products that include Microsoft Internet Explorer software and related advertising.

LEGAL INFORMATION

- The Logo is owned by Microsoft Corporation. All uses of the Logo must include the following notice: "Microsoft is a registered trademark in the United States and other countries and the Microsoft

Internet Explorer Logo is a trademark of Microsoft Corporation." A trademark symbol (™) should appear to the right of the Logo without alteration from the electronic or camera-ready artwork provided. In addition, a registered trademark symbol (®) must appear in the upper-right corner immediately following the word "Microsoft." Do not remove any trademark symbols or alter the Logo in any way.

- The product name for Microsoft Internet Explorer should appear as "Microsoft® Internet Explorer" at the first and most prominent use in all materials and can thereafter be referred to as "Internet Explorer."
- Microsoft owns the Microsoft Internet Explorer Logo and all uses of the Logo will inure to the benefit of Microsoft. Third parties shall employ best efforts to use the Logo in a manner that does not derogate from Microsoft's rights in the Logo and will take no action that will interfere with or diminish Microsoft's rights in the Logo. Third parties should not adopt, use, or register any corporate name, trade name, trademark, service mark or certification mark, trade dress, or other designation similar to, or containing in whole or in part the Logo.
- Third parties may not use the Logo in a manner that would imply that their company or any goods or services provided by such third parties are sponsored or endorsed by, or affiliated with Microsoft.
- Third parties may not display the Logo on packaging, documentation, collateral, or advertising in a manner that suggests their product is a Microsoft product, or in a manner that suggests Microsoft is a part of their product name.
- You are not permitted to use the Logo to disparage Microsoft Corporation, its subsidiaries, products, or services, or for promotional goods or for products which, in Microsoft's reasonable judgment, may diminish or otherwise damage Microsoft's goodwill in the Logo, including but not limited to uses that could be deemed to be obscene, pornographic, excessively violent, or otherwise in poor taste or unlawful, or which purpose is to encourage unlawful activities.
- Third parties may not imitate Microsoft's product packaging or the Logo in any of their materials, including advertising, product packaging, and promotional materials.
- The Logo or the names "Microsoft," "Microsoft Internet Explorer," or "Internet Explorer" cannot appear larger and/or more prominent than third parties' trade name, service name, product name, or trademark on any materials produced or distributed by such third parties.
- Microsoft reserves the right to object to unfair uses or misuses of its trademarks or other violations of applicable law.

SIZING AND PLACEMENT REQUIREMENTS

- Recommended minimum size is 1" high. The "small" graphic interchange format (GIF) file provided is an example of the smallest recommended size.
- The Logo with accompanying words must stand alone. A minimum amount of empty space must surround the Logo so as to separate it from any other object such as type, photography, borders, edges, and so on. The required border of empty space around the Logo must be $\frac{1}{2}x$ wide, where x equals the height of the Logo as measured from the top edge of the word "Includes" to the bottom edge of the word "Explorer."
- You may not combine the Logo with any other object, including, but not limited to, other logos, words, graphics, photos, slogans, numbers, design features, or symbols.
- The Logo may not be used as a design feature on your product, product packaging, documentation, collateral, or advertising.

FOUR-COLOR OR ONE-COLOR APPLICATIONS

COLORS

The color version is the preferred way of reproducing the Logo. The Logo consists of a blue graphic element and black type. The PANTONE® Matching System (PMS) color for the blue is PMS 279 C. Four-color process (CMYK) equivalents can also be used. For online usage, the blue color should be Red 0, Green 102, Blue 255 for 8-bit or higher resolution palettes.

The color version can be reproduced only as described here.

BLACK-AND-WHITE APPLICATIONS

The black-and-white Logo consists of a black graphic element and black type. Please use the file provided.

ACCESSING THE FILES

The print files are provided in Encapsulated PostScript® (EPS) and Windows® metafile (WMF) format. Use the EPS files for materials printed to a PostScript-compatible printer. Use the Windows metafile to print to a non-PostScript printer. These files should not be opened and edited, only placed (for example, select "import...picture") into software programs such as common page-layout or presentation programs, word-processing software, and so forth.

Due to translation problems between the Mac and PC, Mac™ EPS images may lose their preview. When you place them into your page-layout document, you will see a box or big 'X' instead of the preview. The image will still print correctly and the bounding box accurately shows the size of the image. EPS images are sizable, but please scale proportionately.

PC EPS images only have black-and-white previews. If you chose to use a color PC EPS, it will still preview in black and white. When you print it, the color will print correctly.

EPS format is device-dependent so the resolution of the device you are printing to is the resolution you will achieve.

The art files include Adobe Illustrator (ART) and Macromedia Freehand (FH5) format. These are provided for use where the print files supplied will not work. They are not to be altered.

QUALITY CONTROL

Microsoft reserves the right to review your use of the Logo and to conduct spot checks on all products, product packaging, marketing materials, and documentation and may periodically send out requests for samples. Microsoft may also conduct spot checks in retail outlets and other product sources to monitor your compliance with these Logo Usage Guidelines. Refusal to submit samples, noncompliance with these Guidelines, or failure to correct any deficiencies in your use of the Logo and/or in the quality of the product used in conjunction with the Logo upon reasonable notice from Microsoft could result in revocation of your license to use the Logo.
