<PRE>Dear Ted, i think you and CAS are going to love the changes Bill has made to the house. The porch is beautiful and the de-icer on the roof is state of the art quality and the guys are leaving the lights off, the only thing i ask for is sprouting by the Sequoia. I'm concerned that we are not getting enough sunlight. I can get a grow light and will if we don't get a little sun soon. Good Luck with all you have to deal with. bob
