Dear Bob-

I'm sorry to disturb you last night, I knew you were closed and wanted to leave a message. I'll be back next Wednesday for two nights and a day and a half to run around the homestead. I do appreciate your help on the trees - and the plan to get the old stamp so it will be useful.

There are still things I need to learn about the house. And, I hope I can get Rocky to make that shut off valve for the furnace. Catherine would have a hard time shutting that off if I didn't get there by freeze-up time. That house feels good to me. It's home - Joe never been able to call a house in D.C. home! I'll get you more info about the Paris trip soon. my best  
Ted
