Good Morning, In Girdwood the temperature is 24 degrees, we have six inches of powder overnight and twenty inches in the past twenty four hours plus we have seventy-eight inches on top and someone has to go skiing and it may as well be me. Dave Anderson and the electrician came down yesterday and the problem with the lights in the big tree is due to a malfunction which will be corrected soon. Everything else is good and the weather is perfect for your homecoming. I'll be looking for all three of you friday. Hope your day is as good as mine is shaping up to be. Bob
