## 8. Relative Importance of Various Sources of Supply

Please indicate below, beside each subcategory of product, the percentage of your household's shopping done at each type of facility. The percentages summed across each row should add to 100%. Do not report outlet names in this table.

The subcategory definitions are as follow:

- "Local Market": Items purchased locally, regardless of the country of origin.
- "Supply brought to current location": Items purchased in anticipation of your assignment or conveyed to the
- foreign location at U.S. government expense in your household effects.
- "Other": Items purchased from other posts or foreign locations.
