

term Army planning. The SEIS will evaluate land use changes in the Tularosa Basin portions of McGregor Range and the South Training Areas.

DATES: A Draft SEIS is scheduled for publication on or about June 2006 and a Final SEIS on or about December 2006.

ADDRESSES: Written comments should be forwarded to: John F. Barrera, Attn: SEIS; IMSW-BLS-Z; Fort Bliss, TX 79916-6812; or faxed to (915) 568-3548, or e-mailed at seis@bliss.army.mil.

FOR FURTHER INFORMATION CONTACT: Jean Offutt, Fort Bliss Public Affairs Office; ATZC-CGP; Fort Bliss, Texas, 79916-6812; Tel: (915) 568-4505.

SUPPLEMENTARY INFORMATION: The SEIS will assess the environmental impacts associated with Fort Bliss' response to Army Transformation initiatives and the Army Campaign Plan. Potential impacts or issues of Army Transformation at Fort Bliss were analyzed by the Department of the Army in the 2002 Programmatic EIS for Army Transformation. Implementation of these plans will result in changing land use designations within the Main Cantonment and Biggs Army Airfield, and the lower Tularosa Basin (below Otero Mesa) portions of McGregor Range and the South Training Areas. These changes would provide the capabilities to train additional units and allow off-road maneuvers on the Tularosa Basin portions of McGregor Range. Fort Bliss will maintain current mobilization missions and continue to support joint training objectives.

Besides the No Action Alternative (no change to land use designations and continuance at the current level of operations and activities), the proposed action alternatives will:

(1) Include those activities described in the No Action Alternative, plus changes land use to allow Mission Support Facilities in Training Area (TA) 1B, and off-road maneuver in TA 11, 25, and 29 thru 32; and increased air defense training on Otero Mesa;

(2) include actions of Alternative 1, plus changes land use to also allow off-road maneuvers in TA 10, 11, 29 and the Tularosa Basin portion of TA 12; and

(3) include actions of Alternative 2, plus changes land use to also allow off-road maneuvers and weapons firing in TA 24, 26 and 27.

The SEIS will include evaluation of each alternative's varying personnel and equipment requirements for range and maneuver training; supporting command, training and maintenance facilities, soldier and family housing, schools, infrastructure, utilities and

related facilities. The SEIS will also analyze each alternative's impact upon the natural, cultural, and man-made environments in the west Texas and southern New Mexico region.

Tribes, Federal, state, and local agencies and the public are invited to participate in the scoping process for the preparation of this SEIS. Scoping meetings will be held in convenient locations near the installation. Notification of the times and locations for the scoping meetings will be published in local newspapers. The scoping process will help identify additional possible alternatives, potential environmental impacts, and key issues of concern to be analyzed in the SEIS. To ensure scoping comments are fully considered in the Draft EIS, comments and suggestions should be received within the 30-day scoping period or no later than 15 days following the last scoping meeting, whichever ends last.

Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The purpose of this program is to provide research training and experience at an advanced level to individuals with doctorates or similar advanced degrees who have clinical or other relevant experience. ARRT projects train rehabilitation researchers, including individuals with disabilities, with particular attention to research areas that support the implementation and objectives of the Rehabilitation Act of 1973, as amended (Act), and that improve the effectiveness of services authorized under the Act.

Program Requirements: ARRT projects must carry out all of the following activities—(1) Recruit and select candidates for advanced research training; (2) Provide a training program that includes didactic and classroom instruction, is multidisciplinary, emphasizes scientific methodology, and may involve collaboration among institutions; (3) Provide research experience, laboratory experience, or its equivalent in a community-based research setting, and a practicum that involves each individual in clinical research and in practical activities with organizations representing individuals with disabilities; (4) Provide academic

mentorship or guidance, and opportunities for scientific collaboration with qualified researchers at the host university and other appropriate institutions; and (5) Provide opportunities for participation in the development of professional presentations and publications, and for attendance at professional conferences and meetings, as appropriate for the individual's field of study and level of experience.

Furthering the employment of individuals with disabilities is a critical part of NIDRR's mission. For this reason, applicants for funding under this program must target advanced rehabilitation research training that will enable scientists to improve employment outcomes of individuals with disabilities. This may include, but is not limited to, methods in areas such as econometrics, labor force analysis, workforce development, and vocational rehabilitation strategies.

It is expected that applicants will articulate goals, objectives, and expected outcomes for the proposed capacity building activities. Applicants should describe expected public benefits, especially benefits for individuals with disabilities, and propose projects designed to demonstrate outcomes that are consistent with the proposed goals. Applicants are encouraged to include information describing how they will measure outcomes, including the indicators that will represent the end-result. Submission of this information is voluntary except where required by the selection criteria listed in the application package.

Note: NIDRR supports the goals of President Bush's New Freedom Initiative (NFI). The NFI can be accessed on the Internet at the following site: <http://www.whitehouse.gov/infocus/newfreedom/>.

The ARRT projects are in concert with NIDRR's proposed Long-Range Plan (Plan) published in the **Federal Register** on July 27, 2005 (70 FR 43522). The Plan is comprehensive and integrates many issues relating to disability and rehabilitation research topics. While applicants will find many sections in the Plan that support potential research to be conducted under these program requirements, the specific reference to the program requirements is in Part C, Chapter I, Section A Employment. The Plan can be accessed on the Internet at the following site: <http://www.ed.gov/legislation/FedRegister/other/2005-3/072705d.html>.

Through the implementation of the Plan, NIDRR seeks to—(1) Improve the quality and utility of disability and

rehabilitation research; (2) Foster an exchange of expertise, information, and training to facilitate the advancement of knowledge and understanding of the unique needs of traditionally underserved populations; (3) Determine best strategies and programs to improve rehabilitation outcomes for underserved populations; (4) Identify research gaps; (5) Identify mechanisms of integrating research and practice; and (6) Disseminate findings.

Program Authority: 29 U.S.C. 762(k).

Applicable Regulations: (a) The Education Department General Administrative Regulations (EDGAR) in 34 CFR parts 74, 75, 77, 81, 82, 84, 85, 86, and 97. (b) The regulations for this program in 34 CFR part 350.

4. Performance Measures: To evaluate the overall success of its research program, NIDRR assesses the quality of its funded projects through reviews of grantee activities, performance, and products. The performance measures for this project include the following:

- The number of former pre- and postdoctoral students and fellows who received research training supported by NIDRR who are actively engaged in conducting high-quality research and demonstration projects.
- The percentage of NIDRR-supported fellows, postdoctoral trainees, and doctoral students who publish results of NIDRR-sponsored research in refereed journals.

NIDRR uses information submitted by grantees as part of their Annual Performance Reports (APR) for these reviews. NIDRR also determines, using information submitted as part of the APR, the number of publications in refereed journals that are based on NIDRR-funded research and development activities.

Department of Education program performance reports, which include information on NIDRR programs, are available on the Department's Web site: <http://www.ed.gov/offices/OUS/PES/planning.html>.

Updates on the Government Performance and Results Act (GPRA) indicators, revisions and methods appear in the NIDRR Program Review Web site: <http://www.neweditions.net/pr/commonfiles/pmconcepts.htm#gpra>.
