DEPARTMENT OF EDUCATION

[CFDA No. 84.364]

Office of Elementary and Secondary Education; Improving Literacy Through School Libraries Program Notice Inviting Applications for New Awards for Fiscal Year (FY) 2002

Note to Applicants: This notice is a complete application package. Together with the statute authorizing the program and the Education Department General Administrative Regulations (EDGAR), this notice contains all of the information, application forms, and instructions you need to apply for a grant under this competition.

Purpose of Program: The purpose of this program is to improve student literacy skills and academic achievement by providing students with increased access to up-to-date school library materials; a well-equipped, technologically advanced school library media center; and well-trained, professionally certified school library media specialists.

This competition focuses on projects designed to meet the priority described in the PRIORITY section of this notice.

Eligible Applicants: Local educational agencies (LEAs) in which at least 20 percent of the students served by the LEA are from families with incomes below the poverty line. (20 U.S.C. 6383)

Deadline for Notification of Intent to Apply for Funding: June 28, 2002.

We will be able to develop a more efficient process for reviewing grant applications if we have an estimate of the number of entities that intend to apply for funding under this competition. Therefore, we strongly encourage each potential applicant to notify us by e-mail of your intent to submit an application for funding via this Internet address:

literacyandschoollibraries@ed.gov

Please put "Notice of Intent" in the subject line. Applicants that fail to provide this e-mail notification may still apply for funding.

Deadline for Transmittal of Applications: July 24, 2002.

Deadline for Intergovernmental Review: September 23, 2002.

Estimated Available Funds: \$12,125,000.

Estimated Range of Awards: \$20,000 to \$250,000.

Estimated Average Size of Awards: The size of the awards will be commensurate with the nature and scope of the work proposed and the number of schools to be served. The Department estimates the average amount of each award based on a

maximum of \$25,000 per school to be served.

Estimated Number of Awards: 75.

Note: The Department is not bound by any estimates in this notice.

Project Period: 12 months.

Page Limit: The application must include the following sections: title page form (ED 424), one-page abstract, program narrative, individual resumes (up to 3 pages) for project directors and other key personnel, budget summary form (ED 524) with budget narrative, and statement of equitable access (GEPA 427). The program narrative must address the selection criteria that reviewers use to evaluate your application. Applicants are strongly encouraged to limit the program narrative (text plus all figures, charts, tables, and diagrams) to the equivalent of 15 pages, using the following standards:

- A "page" is 8.5" x 11", on one side only, with 1" margins at the top, bottom, and both sides.
- Double space (no more than three lines per vertical inch) all text in the program narrative.
- Use a font that is either 12-point or larger or no smaller than 10 pitch (characters per inch).
- Include all critical information in the program narrative, eliminating the need for appendices.
- The page limit does not apply to the title page form (ED 424), the one-page abstract, the budget summary form and narrative budget justification, the resumes, or the assurances and certifications.

We have found that reviewers are able to conduct the highest quality review when applications are concise and easy to read, with pages consecutively numbered.

Applicable Regulations: The Education Department General Administrative Regulations (EDGAR) in 34 CFR parts 75, 77, 79, 80, 81, 82, 85, 97, 98 and 99.

Description of Program: The Improving Literacy through School Libraries (LSL) program, subpart 4 of part B of Title I of the Elementary and Secondary Education Act, as amended, promotes comprehensive local strategies to improve student reading achievement by improving school library services and resources. The LSL program is one component of the Department's commitment to dramatically improving student reading achievement by focusing available resources, including those of school library media centers, on ensuring that no child is left behind. School library media centers have an important role to play in contributing to

the success of local improvement plans, especially in the literacy area, by increasing collaboration among instructional and school library media center staff, providing additional instructional materials and resources, and extending hours of operation during non-school hours.

Recent studies on the impact of school library media centers on student achievement show that a well-designed and effective school library media program includes the following attributes:

- Book collections and other media resources that are well-stocked and varied.
- Increased hours of access, such as during times outside the regular school day (such as in the morning, afternoon or weekends).
- Professional development to train school library media specialists to work closely with teachers in curriculum planning and with students in using the library.
- Improved student access via technology within the school.
- Collaboration to provide computer access to resources from other libraries, including university and public libraries.

Studies that examined the relation between school library media centers and student achievement indicated that reading test scores were higher when—

- Library media specialists were full time;
- Library hours of operation were extended; and
- Library staff spent time planning instructional units with teachers, teaching students how to access information, and serving on school-based curriculum and standards committees.

While ongoing research on libraries is expected to provide further information, studies already demonstrate a positive relationship between effective school library media centers and student achievement in reading.

Priorities*Absolute Priority*

This competition focuses on projects designed to meet the following absolute priority. Under 34 CFR 75.105(c)(3) we consider only applications that meet the priority.

To improve the services of a school library media center and the achievement of the students it serves, applicants must propose programs in their districts that incorporate the critical elements of a school library media center.

Applicants must propose programs that address two or more of the following critical elements:

1. Library media specialists will actively collaborate with teachers and work with students.
2. The applicant's plan for the acquisition of books and other resources will reflect and support this collaboration.
3. A school library media center will possess the technology necessary to expand its reach to classrooms or other libraries, or to both.
4. A school library media center will provide expanded hours to give students more access.

Invitational Priority

Within the absolute priority, we are particularly interested in applications that meet the following invitational priority.

The Secretary strongly encourages applicants to focus their efforts on elementary schools to maximize the impact of the project on improving reading achievement. Coordination and collaboration among school library and media staff, teachers, and parents are important to ensure high-quality projects as well as the sustainability of the activities.

Under 34 CFR 75.105(c)(1) we do not give an application that meets the invitational priority a competitive or absolute preference over other applications.

Waiver of Proposed Rulemaking

Under the Administrative Procedure Act (5 U.S.C. 553) the Department generally offers interested parties the opportunity to comment on proposed requirements. However, in order to make timely grant awards in FY 2002, the Secretary has decided to issue this application notice without first publishing these proposed requirements for public comment. These requirements will apply to the FY 2002 grant competition only. The Secretary takes this action under section 437(d)(1) of the General Education Provisions Act.

Selection Criteria

We use the following selection criteria to evaluate applications for new grants under this competition.

The maximum score for all of these criteria is 100 points.

The maximum score for each criterion is indicated in parentheses.

We evaluate an application by determining how well the proposed project meets the following provisions:

(a) *Needs Assessment* (15 points). Demonstrated need for school library media improvement, based on the age

and condition of book collections and other school library media resources, access of school library media centers to advanced technology, the availability of well-trained, professionally certified school library media specialists in schools served by the eligible local educational agency, and the educational achievement of the students to be served.

(b) *Use of Funds* (25 points). How well the applicant will use the funds made available through the grant to carry out those of the following activities that meet its needs and satisfy the Absolute Priority section of this notice, by proposing programs that address two or more of the critical elements of a school library media center identified in that priority.

(1) Acquiring up-to-date books and other school library media resources.

(2) Acquiring and using advanced technology incorporated into the curricula of the school to develop and enhance the research and critical thinking skills of students.

(3) Facilitating Internet links and other resource-sharing networks among schools and school library media centers, and public and academic libraries, where possible.

(4) Providing professional development for school library media specialists that is based on scientifically based reading research, and includes, to the extent relevant to the project, knowledge of early language and reading development, and activities that foster increased collaboration between school library media specialists, teachers, and administrators.

(5) Providing students with access to school libraries during nonschool hours, which may include the hours before and after school, during weekends, and during summer vacation periods.

(c) *Use of Scientifically Based Research* (10 points). The manner in which the applicant will carry out the activities described in paragraph (b) of this section using programs and materials that are grounded in scientifically based research, as defined by the statute, including using scientifically based programs and activities that support the essential components of reading research.

(d) *Broad-based Involvement* (10 points). How the applicant will extensively involve school library media specialists, teachers, administrators, and parents in the proposed project activities.

(e) *Coordination* (15 points). How the applicant will effectively coordinate the funds and activities provided under this program with other literacy, library,

technology, and professional development funds and activities.

(f) *Adequacy of Resources* (5 points). The potential for continued support of the project after Federal funding ends, including, as appropriate, the demonstrated commitment of appropriate entities to such support; and

(g) *Evaluation of Quality and Impact* (20 points). How the applicant will collect and analyze data on the quality and impact of the project activities, including their impact on student achievement, in a manner that is rigorous, systematic, objective, and will yield data on program effectiveness and best practices.

Geographic Distribution

In making funding decisions we will also consider the equitable distribution of grants across geographic regions and among local educational agencies serving urban and rural areas.

Intergovernmental Review of Federal Programs

This program is subject to the requirements of Executive Order 12372 (Intergovernmental Review of Federal Programs) and the regulations in 34 CFR part 79.

One of the objectives of the Executive order is to foster an intergovernmental partnership and a strengthened federalism. The Executive order relies on processes developed by State and local governments for coordination and review of proposed Federal financial assistance.

If you are an applicant, you must contact the appropriate State Single Point of Contact (SPOC) to find out about, and to comply with, the State's process under Executive Order 12372. If you propose to perform activities in more than one State, you should immediately contact the SPOC for each of those States and follow the procedure established in each State under the Executive order.

If you want to know the name and address of any SPOC, see the latest official SPOC list on the Web site of the Office of Management and Budget at the following address: <http://www.whitehouse.gov/omb/grants/spoc.html>. In States that have not established a process or chosen a program for review, State, area-wide, regional, and local entities may submit comments directly to the Department.

Any State Process Recommendation and other comments submitted by a SPOC and any comments from State, area-wide, regional, and local entities must be mailed or hand-delivered by the date indicated in this application notice

to the following address: The Secretary, E.O. 12372—CFDA No. 84.364, U.S. Department of Education, room 7E200, 400 Maryland Avenue, SW., Washington, DC 20202—0125.

We will determine proof of mailing under 34 CFR 75.102 (deadline date for applications). Recommendations or comments may be hand-delivered until 4:30 p.m. (Washington, DC time) on the date indicated in this notice.

PLEASE NOTE THAT THE ABOVE ADDRESS IS NOT THE SAME ADDRESS AS THE ONE TO WHICH AN APPLICANT SUBMITS ITS COMPLETED APPLICATION. *DO NOT SEND APPLICATIONS TO THE ABOVE ADDRESS.*

Definitions for Form ED 424

Novice Applicant (See 34 CFR 75.225). For discretionary grant programs under which the Secretary gives special consideration to novice applications, a novice applicant means any applicant for a grant from ED that—

- Has never received a grant or subgrant under the program from which it seeks funding;

- Has not had an active discretionary grant from the Federal government in the five years before the deadline date for applications under the program. For the purposes of this requirement, a grant is active until the end of the grant's project or funding period, including any extensions of those periods that extend the grantee's authority to obligate funds.

In the case of a group application submitted in accordance with 34 CFR 75.127-75.129, a group includes only parties that meet the requirements listed above.

Type of Submission. PROTECTION OF HUMAN SUBJECTS IN RESEARCH

I. Definitions and Exemptions

A. Definitions.

A research activity involves human subjects if the activity is research, as defined in the Department's regulations, and the research activity will involve use of human subjects, as defined in the regulations.

—Research

The ED Regulations for the Protection of Human Subjects, Title 34, Code of Federal Regulations, Part 97, define research as "a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge." If an activity follows a deliberate plan whose purpose is to develop or contribute to generalizable knowledge, it is research. Activities which meet this definition constitute research whether or not they are conducted or supported under a program which is considered research for other purposes. For example, some demonstration and service programs may include research activities.

—Human Subject

The regulations define human subject as "a living individual about whom an investigator (whether professional or student) conducting research obtains (1) data through intervention or interaction with the individual, or (2) identifiable private information." (1) If an activity involves obtaining information about a living person by manipulating that person or that person's environment, as might occur when a new instructional technique is tested, or by communicating or interacting with the individual, as occurs with surveys and interviews, the definition of human subject is met. (2) If an activity involves obtaining private information about a living person in such a way that the information can be linked to that individual (the identity of the subject is or may be readily determined by the investigator or associated with the information), the definition of human subject is met. [Private information includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which the individual can reasonably expect will not be made public (for example, a school health record).]

B. Exemptions.

Research activities in which the only involvement of human subjects will be in one or more of the following six categories of exemptions are not covered by the regulations:

(1) Research conducted in established or commonly accepted educational settings, involving normal educational practices, such as (a) research on regular and special education instructional strategies, or (b) research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods.

(2) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless: (a) information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and (b) any disclosure of the human subjects' responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects' financial standing, employability, or reputation. If the subjects are children, exemption 2 applies only to research involving educational tests and observations of public behavior when the investigator(s) do not participate in the

activities being observed. Exemption 2 does not apply if children are surveyed or interviewed or if the research involves observation of public behavior and the investigator(s) participate in the activities being observed. [Children are defined as persons who have not attained the legal age for consent to treatments or procedures involved in the research, under the applicable law or jurisdiction in which the research will be conducted.]

(3) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior that is not exempt under section (2) above, if the human subjects are elected or appointed public officials or candidates for public office; or federal statute(s) require(s) without exception that the confidentiality of the personally identifiable information will be maintained throughout the research and thereafter.

(4) Research involving the collection or study of existing data, documents, records, pathological specimens, or diagnostic specimens, if these sources are publicly available or if the information is recorded by the investigator in a manner that subjects cannot be identified, directly or through identifiers linked to the subjects.

(5) Research and demonstration projects which are conducted by or subject to the approval of department or agency heads, and which are designed to study, evaluate, or otherwise examine: (a) public benefit or service programs; (b) procedures for obtaining benefits or services under those programs; (c) possible changes in or alternatives to those programs or procedures; or (d) possible changes in methods or levels of payment for benefits or services under those programs.

(6) Taste and food quality evaluation and consumer acceptance studies, (a) if wholesome foods without additives are consumed or (b) if a food is consumed that contains a food ingredient at or below the level and for a use found to be safe, or agricultural chemical or environmental contaminant at or below the level found to be safe, by the Food and Drug Administration or approved by the Environmental Protection Agency or the Food Safety and Inspection Service of the U.S. Department of Agriculture.

II. Instructions for Exempt and Nonexempt Human Subjects Research Narratives

If the applicant marked "Yes" for Item 12 on the ED 424, the applicant must provide a human subjects "exempt research" or "nonexempt research" narrative and insert it immediately following the ED 424 face page.

A. Exempt Research Narrative.

If you marked "Yes" for item 12a. and designated exemption numbers(s), provide the "exempt research" narrative. The narrative must contain sufficient information about the involvement of human subjects in the proposed research to allow a determination by ED that the designated exemption(s) are appropriate. The narrative must be succinct.

B. Nonexempt Research Narrative.

If you marked "No" for item 12a. you must provide the "nonexempt research" narrative. The narrative must address the following seven points. Although no specific page limitation applies to this section of the application, be succinct.

(1) Human Subjects Involvement and Characteristics: Provide a detailed description of the proposed involvement of human subjects. Describe the characteristics of the subject population, including their anticipated number, age range, and health status. Identify the criteria for inclusion or exclusion of any subpopulation. Explain the rationale for the involvement of special classes of subjects, such as children, children with disabilities, adults with disabilities, persons with mental disabilities, pregnant women, prisoners, institutionalized individuals, or others who are likely to be vulnerable

(2) Sources of Materials: Identify the sources of research material obtained from individually identifiable living human subjects in the form of specimens, records, or data. Indicate whether the material or data will be obtained specifically for research purposes or whether use will be made of existing specimens, records, or data.

(3) Recruitment and Informed Consent: Describe plans for the recruitment of subjects and the consent procedures to be followed. Include the circumstances under which consent will be sought and obtained, who will seek it, the nature of the information to be provided to prospective subjects, and the method of documenting consent. State if the Institutional Review Board (IRB) has authorized a modification or waiver of the elements of consent or the requirement for documentation of consent.

(4) Potential Risks: Describe potential risks (physical, psychological, social, legal, or other) and assess their likelihood and seriousness. Where appropriate, describe alternative treatments and procedures that might be advantageous to the subjects.

(5) Protection Against Risk: Describe the procedures for protecting against or minimizing potential risks, including risks to confidentiality, and assess their likely effectiveness. Where appropriate, discuss provisions for ensuring necessary medical or professional intervention in the event of adverse effects to the subjects. Also, where appropriate, describe the provisions for monitoring the data collected to ensure the safety of the subjects.

(6) Importance of the Knowledge to be Gained: Discuss the importance of the knowledge gained or to be gained as a result of the proposed research. Discuss why the risks to subjects are reasonable in relation to the anticipated benefits to subjects and in relation to the importance of the knowledge that may reasonably be expected to result.

(7) Collaborating Site(s): If research involving human subjects will take place at collaborating site(s) or other performance site(s), name the sites and briefly describe their involvement or role in the research.

Copies of the Department of Education's Regulations for the Protection of Human Subjects, 34 CFR Part 97 and other pertinent materials on the protection of human subjects in research are available from the Grants Policy and Oversight Staff, Office of the Chief Financial Officer, U.S. Department of Education, Washington, D.C. 20202-4248, telephone: (202) 708-8263, and on the U.S. Department of Education's Protection of Human Subjects in Research Web Site at <http://www.ed.gov/offices/OCFO/humansub.html>

OMB Control No. 1890-0007 (Exp. 09/30/2004)

NOTICE TO ALL APPLICANTS

The purpose of this enclosure is to inform you about a new provision in the Department of Education's General Education Provisions Act (GEPA) that applies to applicants for new grant awards under Department programs. This provision is Section 427 of GEPA, enacted as part of the Improving America's Schools Act of 1994 (Public Law (P.L.) 103-382).

To Whom Does This Provision Apply?

Section 427 of GEPA affects applicants for new grant awards under this program. **ALL APPLICANTS FOR NEW AWARDS MUST INCLUDE INFORMATION IN THEIR APPLICATIONS TO ADDRESS THIS NEW PROVISION IN ORDER TO RECEIVE FUNDING UNDER THIS PROGRAM.**

(If this program is a State-formula grant program, a State needs to provide this description only for projects or activities that it carries out with funds reserved for State-level uses. In addition, local school districts or other eligible applicants that apply to the State for funding need to provide this description in their applications to the State for funding. The State would be responsible for ensuring that the school district or other local entity has submitted a sufficient section 427 statement as described below.)

What Does This Provision Require?

Section 427 requires each applicant for funds (other than an individual person) to include in its application a description of the steps the applicant proposes to take to ensure equitable access to, and participation in, its Federally-assisted program for students, teachers, and other program beneficiaries with special needs. This provision allows applicants discretion in developing the required description. The statute highlights six types of barriers that can impede equitable access or participation: gender, race, national origin, color, disability, or age. Based on local circumstances, you should determine whether these or other barriers may prevent your students, teachers, etc. from such access or participation in, the Federally-funded project or activity. The description in your application of steps to be taken to overcome these barriers need not be lengthy; you may provide a clear and succinct

description of how you plan to address those barriers that are applicable to your circumstances. In addition, the information may be provided in a single narrative, or, if appropriate, may be discussed in connection with related topics in the application.

Section 427 is not intended to duplicate the requirements of civil rights statutes, but rather to ensure that, in designing their projects, applicants for Federal funds address equity concerns that may affect the ability of certain potential beneficiaries to fully participate in the project and to achieve to high standards. Consistent with program requirements and its approved application, an applicant may use the Federal funds awarded to it to eliminate barriers it identifies.

What are Examples of How an Applicant Might Satisfy the Requirement of This Provision?

The following examples may help illustrate how an applicant may comply with Section 427.

- (1) An applicant that proposes to carry out an adult literacy project serving, among others, adults with limited English proficiency, might describe in its application how it intends to distribute a brochure about the proposed project to such potential participants in their native language.
- (2) An applicant that proposes to develop instructional materials for classroom use might describe how it will make the materials available on audio tape or in braille for students who are blind.
- (3) An applicant that proposes to carry out a model science program for secondary students and is concerned that girls may be less likely than boys to enroll in the course, might indicate how it intends to conduct "outreach" efforts to girls, to encourage their enrollment.

We recognize that many applicants may already be implementing effective steps to ensure equity of access and participation in their grant programs, and we appreciate your cooperation in responding to the requirements of this provision.
