Bob: as a matter of interest, I believe Catherine would like the jacuzzi. The steam room will be on the first floor. She will use the bath tub on the second floor. So, if you can get the jacuzzi for \$2000, please do it. thanks. In a hurry, will be back to you later today.

good evening senator, its me again. rocky came by to discuss a few things. bill wants to install a jacuzzi in the old blue fixture bathroom and that cost about \$2,000, do you want to do that? the plumbers are working now and have already ripped out the old fixtures. the other things is your firewood, we are going to build a wire mesh around your fire-box because you need at least 2 inches clearance and some of your firewood was lying on the firebox and had fallen down by the water heater. we want to make sure you don't have a fire hazard. so, let me know about the jacuzzi and you will have to tell bill if you don't want it because he's the big dog. lots done today. my best, Bob
