<PRE>Dear Ted, i am dumbfounded by the work at the house. That lower deck is beautiful and will be pretty fancy with the clear roof on it. Brian suggested that you could get a free-standing swing if you want one and not worry about hanging one. The electrician was there and i told him about the light over the garage not working and he will fix it. There is a huge box in the garage that i forgot to tell you about last week, the note said it is a fish sculpture and i took the sequoia seedling out of the refrigerator and put it on the window sill [not a seedling yet, actually]. Other than not being able to get those guys to stop leaving the lights on all is well and l'll have it cleaned again after they get through. i'll continue to go over in the evenings and turn the lights off so don't worry about that. hope all is well with you, bob
