fyi. I told him we'd probably not stay at the chalet until christmas time, but might "camp out" if necessary as we worked on the place when we get back this month. O

good morning senator, we are back and all is well here, lots of snow on the mountain and cold here in the valley. i was a bit dissapointed in the progress on the house but rocky said the weather was mizerable last week. (they still stacked off) the plumbing is mostly done and the electrician was there yesterday. it is good that catherine is coming to town, we will have some bills, a little from redmond, hannah and the first bill from augie. should be a total of about \$15,000. i hope you have recovered from your operations and are feeling good, everyone in alaska wants you to be in tip-top shape. you know what's good for alaska not john mccain. my best, bob. oh, did you get the joke about clinton in hell?
