Subject: Re: Your homecoming

Dear Ted, we are looking forward to your return, Dave decided to come down monday and he is bringing an electrician with him. We need to make sure the lights in the tree are working properly. We are getting some very nice snow as i write and the mountain is getting just right. Here's hoping for a nice chilly couple of weeks so CAS can enjoy Girdwood without the dreaded wet. I'm working on a crab dip recipe that will be perfect for protein dieters like us and it will be ready when you guys get here. It will be nice to see Beth, i don't think i have seen her but once since Paris. What about the capture today, things get better and better for GW. He is a President we can all respect and deserves good things. I'm sure Lily already knows that Justin is due in thursday. I'll let you know tomorrow about Mr Joe's work. my best, Bob
