

of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

Dated: March 25, 2002.

John Tressler,

Leader, Regulatory Information Management, Office of the Chief Information Officer.

Office of Postsecondary Education

Type of Review: New.

Title: Teacher Recruitment Application Package.

Frequency: Annually.

Affected Public: Not-for-profit institutions; State, Local, or Tribal Gov't, SEAs or LEAs.

Reporting and Recordkeeping Hour Burden:

Responses: 125.

Burden Hours: 20,000.

Abstract: This application package is essential for States and partnerships to apply for new awards under the Teacher Quality Enhancement Grants Program's Fiscal Year 2002 Teacher Recruitment competition.

Requests for copies of the proposed information collection request may be accessed from <http://edicsweb.ed.gov>, or should be addressed to Vivian Reese, Department of Education, 400 Maryland Avenue, SW., Room 4050, Regional Office Building 3, Washington, D.C. 20202-4651. Requests may also be electronically mailed to the Internet address OCIO_IMG_Issues@ed.gov or faxed to 202-708-9346. Please specify the complete title of the information collection when making your request.

Comments regarding burden and/or the collection activity requirements should be directed to Joseph Schubart at (202) 708-9266 or via his Internet address Joe.Schubart@ed.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.

BILLING CODE 4000-01-P

DEPARTMENT OF EDUCATION

Notice of Proposed Information Collection Requests

AGENCY: Department of Education.

SUMMARY: The Leader, Regulatory Information Management Group, Office of the Chief Information Officer, invites comments on the proposed information

collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before May 28, 2002.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Leader, Regulatory Information Management Group, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) title; (3) summary of the collection; (4) description of the need for, and proposed use of, the information; (5) respondents and frequency of collection; and (6) reporting and/or Recordkeeping burden. OMB invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

Dated: March 25, 2002.

John Tressler,

Leader, Regulatory Information Management, Office of the Chief Information Officer.

Student Financial Assistance

Type of Review: Revision.

Title: Federal Stafford Loan (Subsidized and Unsubsidized) Program Master Promissory Note.

Frequency: On occasion, annually.

Affected Public: Individuals or household; businesses or other for-profit; not-for-profit institutions.

Reporting and Recordkeeping Hour Burden:

Responses: 2,887,200.

Burden Hours: 2,165,400.

Abstract: This promissory note is the means by which a Federal Stafford Program Loan borrower promises to repay his or her loan.

Requests for copies of the proposed information collection request may be accessed from <http://edicsweb.ed.gov>, or should be addressed to Vivian Reese, Department of Education, 400 Maryland Avenue, SW, Room 4050, Regional Office Building 3, Washington, DC 20202-4651. Requests may also be electronically mailed to the Internet address OCIO_IMG_Issues@ed.gov or faxed to 202-708-9346. Please specify the complete title of the information collection when making your request.

Comments regarding burden and/or the collection activity requirements should be directed to Joseph Schubart at (202) 708-9266 or via her Internet address Joe.Schubart@ed.gov.

Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.

BILLING CODE 4000-01-P

DEPARTMENT OF EDUCATION

[CFDA No. 47.076]

Mathematics and Science Partnerships

AGENCY: Department of Education.

ACTION: Notice inviting applications for new awards for fiscal year (FY) 2002 under a grants competition to be administered by the National Science Foundation in collaboration with the Department.

Purpose of Program: The Mathematics and Science Partnerships (MSP) is intended to improve the academic achievement of students in mathematics and science through partnerships of organizations providing education from pre-kindergarten through postsecondary schooling. The MSP is a jointly funded initiative supported by the National Science Foundation (NSF) and the Department.

Note: The Department and NSF are cooperating to implement a single grants competition that NSF is administering. For FY 2002 NSF has committed \$160 million, and the Department \$12.5 million, to support the MSP. This notice describes the statutory requirements for Department funding under the MSP, and informs interested applicants how to apply for these funds.

Eligible Applicants: To receive the Department's MSP funding, a partnership must comprise, at minimum, a State educational agency (SEA), a mathematics, science, or engineering department of an institution of higher education (IHE), and a high-need local educational agency (LEA). The lead applicant may be any one of these entities. The term "high-need LEA" is defined in the "Requirements for FY 2002 Competition" section of this notice.

Deadline for Transmittal of Applications: April 30, 2002.

Deadline for Intergovernmental Review: July 1, 2002.

Estimated Available Funds: \$12,500,000.

Estimated Range of Awards: \$100,000–\$1,500,000 per year for up to 5 years.

Estimated Average Size: \$700,000 per year.

Estimated Number of Awards: 10–20.

Note: The Department is not bound by any estimates in this notice. Future-year funding depends on the availability of appropriations.

Project Period: Up to 60 months.

SUPPLEMENTARY INFORMATION: The President's plan for improving American education, the No Child Left Behind initiative, is embedded in the major revisions to the Elementary and Secondary Education Act (ESEA), as amended by the No Child Left Behind Act of 2001 (Pub. L. 107–110). The President's plan includes the MSP, an initiative to improve student achievement in mathematics and science. The MSP builds on the Nation's dedication to educational reform through—

- Support of partnerships that unite the efforts of local school districts with science, mathematics, engineering, and education faculties of colleges and universities and other individuals and entities with an interest in improving student achievement in mathematics and science; and
- High expectations and achievement for all students.

The MSP Program is newly authorized in title II, part B of the Elementary and Secondary Education Act (ESEA). Together, the funds committed by NSF and the funds that the Congress appropriated to the Department for the MSP will support projects to raise student achievement in these core subject areas by giving teachers greater knowledge, understanding, and appreciation of the mathematics and science they teach.

As section 2201 of the ESEA explains, the program would specifically meet this broad objective by encouraging

SEAs, IHEs, high-need LEAs, and schools to participate in programs that—

1. Improve and upgrade the status and stature of mathematics and science teaching by encouraging IHEs to assume greater responsibility for improving mathematics and science teacher education;

2. Focus on the education of mathematics and science teachers as a career-long process;

3. Bring mathematics and science teachers together with scientists, mathematicians, and engineers to improve the teachers' content knowledge and teaching skills; and

4. Develop more rigorous mathematics and science curricula that are aligned both with challenging State and local academic achievement standards, and the standards expected for postsecondary study in engineering, mathematics, and science.

The complete text of title II, part B is available on the Internet at: www.ed.gov/legislation/ESEA02/pg26.html.

The Department and NSF are collaborating to implement the MSP in ways that will maximize services and technical assistance to grantees by eliminating duplicative efforts of the two agencies and, at the same time, building on the strengths of each agency. There will be a single grant competition this year administered by NSF with the collaboration of the Department. A single set of reviewers will review all applications. After they have recommended those applications that they believe are of highest quality, the Department will make awards with Title II, part B funds to those that meet the special criteria contained in the statute.

Waiver of Proposed Rulemaking

Under the Administrative Procedure Act (5 U.S.C. 553) the Department generally offers interested parties the opportunity to comment on proposed regulations. However, to make timely grant awards in FY 2002, the Secretary has decided to issue these final requirements without first publishing them as proposals for public comment. These requirements will apply to the FY 2002 grant competition only. The Secretary takes this action under section 437(d)(1) of the General Education Provisions Act.

At a later date the Assistant Secretary plans to publish a notice of proposed requirements for this program and offer interested parties the opportunity to comment. The proposed requirements would apply to grant competitions under the program beginning in FY 2003.

The remainder of this notice explains the application content, selection criteria, and other information that prospective applicants will need to know to qualify for MSP grants that the Department will competitively award under title II, part B.

Requirements for FY 2002 Competition

NSF published a grant solicitation for the MSP on January 31, 2002 (announcement NSF–02–061). This solicitation gives applicants until April 30, 2002, to submit their applications, provides other rules that govern the content and formatting of these applications, and announces the selection criteria that NSF will use to assess the relative merit of each application.

All of the rules, deadlines, and selection criteria in the NSF announcement also apply to those wishing to receive MSP grants from the Department. Therefore, applicants that want to be considered for Department funding must respond to these selection criteria and application requirements, and adhere to the instructions for preparing applications contained in this NSF solicitation.

A copy of the NSF grant solicitation may be obtained on the NSF web site at: www.ehr.nsf.gov.

For general and continually updated information, applicants should consult the following web site: www.nsf.gov.

Invitational priorities. The Secretary is particularly interested in having applicants submit to NSF proposals that address one or more of the following strategies:

1. Engaging classroom teachers in mathematical or scientific research and development projects sponsored by IHEs or other private- and public-sector research organizations.

2. Engaging practicing teachers as professional colleagues who work together with scientists, mathematicians and engineers to master advanced, new content and teaching strategies.

3. Demonstrating how technology can be used in the classroom both to deepen teachers' scientific and mathematical understanding and to promote higher student achievement.

4. Establishing and evaluating the effectiveness of differential salary scales used to make the mathematics and science teaching profession more comparable in pay to the private sector. These differential salary scales would be both a tool to attract beginning teachers with deep mathematical or scientific training, and a means to create a career ladder capable of retaining highly skilled and effective teachers.

Other pre-award requirements.

Consistent with section 2202 of the ESEA, before making any grant awards the Department must have the following additional information from applicants it has selected for funding:

1. The results of a comprehensive assessment of the teacher quality and professional development needs of any schools, LEAs, and SEAs that comprise the eligible partnership with respect to the teaching and learning of mathematics and science.

2. A description of how the activities to be carried out by the eligible partnership will be aligned with (a) challenging State academic content and student academic achievement standards in mathematics and science, and (b) other educational reform activities that promote student academic achievement in mathematics and science.

3. A description of how the activities to be carried out by the eligible partnership will be based on a review of scientifically based research, and an explanation of how the activities are expected to improve student academic achievement and strengthen the quality of mathematics and science instruction.

4. A description of (a) how the eligible partnership will carry out the activities described in this notice under "Authorized Activities", and (b) the eligible partnership's plan for evaluation and accountability as described in section 2202(c) of the ESEA.

5. A description of how the eligible partnership will continue the activities funded by this program after the original grant has expired.

Eligible partnerships. To be eligible to receive an MSP grant from the Department, a partnership must include a high-need LEA. Section 2102(3) of the ESEA defines "high-need LEA" to mean an LEA—

1. (a) That serves not fewer than 10,000 children from families with incomes below the poverty line; or

(b) For which not less than 20 percent of the children served by the agency are from families with incomes below the poverty line; and

2. (a) For which there is a high percentage of teachers not teaching in the academic subjects or grade levels that the teachers were trained to teach; or

(b) For which there is a high percentage of teachers with emergency, provisional, or temporary certification or licensing.

Note: Section 2102(3) of the ESEA expressly applies only to the programs authorized in title II, part A of the ESEA, the Teacher and Principal Training and

Recruiting Fund, and to the title II, part C Transition to Teaching Program. However, because the MSP authorized in Title II, part B of the ESEA includes no definition of the term "high-need LEA," we believe it is reasonable to have the part A definition apply to this program as well. The Department will need to confirm that participating high-need LEAs meet this definition before it can award grants of title II, part B funds.

LEA poverty rates can be found in information about the "Application Process" for the Rural Education Achievement Program (REAP), on the Department's web site at the following address: www.ed.gov/offices/OESE/reap.html

The poverty rates are available only for LEAs that are included in the National Center for Education Statistics (NCES) Common Core of Data.

The total number of students in poverty in any LEA can be found on the Census Bureau web site at:

www.census.gov/housing/saipe/sd97/

(Note: The number of children in poverty is the number in the sixth column.)

An applicant also should consider whether its proposed activities would be enhanced by including such other entities as: other mathematics, science, engineering, business, or teacher-training departments of higher education institutions; other LEAs; public charter schools, public or private elementary or secondary schools or consortia of these schools; businesses; professional organizations of scientists, engineers, and mathematicians; and nonprofit organizations with demonstrated effectiveness in improving the quality of mathematics and science teachers.

Authorized activities. The NSF program announcement identifies the activities that a partnership may carry out, consistent with the narrative and other content of its approved application and the activities authorized in section 2202(c) of the ESEA.

Supplement, not supplant. Section 2202(a)(4) of the ESEA requires a grantee to use funds the Department awards under the MSP to supplement, and not supplant, funds that the grantee otherwise would use for activities that the program authorizes.

Administration of grants. We administer all MSP grants funded with title II, part B funds under requirements of the Education Department General Education Regulations (EDGAR). Hence, a grantee must submit any programmatic or fiscal report to the Department, not to NSF. However, as part of the joint NSF-Department collaboration, the two agencies jointly will monitor grant activities and provide

technical assistance. Moreover, the two agencies intend that Department-funded projects be joined with NSF-funded projects in a common system of collaboration and support coordinated by NSF.

Special application instructions. An application for title II, part B funds must conform to the NSF protocols; otherwise, NSF may reject the application. For this reason, we advise an applicant to review carefully both the grant solicitation announcement for the MSP that NSF published on January 31, 2002 (NSF-02-061), and NSF's general guidelines in the NSF Grant Proposal Guide (GPG). The complete text of the GPG is available electronically on the NSF web site at: www.nsf.gov

Other program requirements. If you are a member of a partnership receiving funds from the Department under this program, you must by law (section 2202(d)(1) of the ESEA) coordinate your use of these funds with any related activities that you or the partnership carry out with funds made available under section 203 of title II, part B of the Higher Education Act (the Partnership Program component of the Teacher Quality Enhancement Grant programs).

In addition, in implementing your project, we strongly encourage you to coordinate your activities with other Department programs that have teacher quality and mathematics and science components, including the following ESEA programs: title II, part A (Improving Teacher Quality State Grants); title I, part A, (Improving Basic Programs Operated by LEAs); title I, part F (Comprehensive School Reform); and title IV, part B (21st Century Community Learning Centers).

Applicable Regulations: (a) EDGAR in 34 parts 74, 75 except for §§ 75.200–75.210, 77, 79, 80, 81, 82, 85, 86, 97, 98, and 99. (b) The special rules announced in this notice.

For Applications and Further Information Contact: To obtain a copy of the NSF solicitation, visit the NSF web site at: www.nsf.gov

For further information on the Department of Education portion of the MSP, call or write Alexis Radocaj, U.S. Department of Education, Office of Elementary and Secondary Education, 400 Maryland Avenue, S.W., Room 5W234, FOB6, Washington, DC 20202–6175. Telephone: (202) 401–0821, by FAX: (202) 260–3420; or via Internet at: Alexis.Radocaj@ed.gov

BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY

[Docket No. EA-168-C]

Application to Export Electric Energy; PG&E Energy Trading-Power, L.P.

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of application.

SUMMARY: PG&E Energy Trading-Power, L.P. ("PGET-Power") has applied for renewal of its authority to transmit electric energy from the United States to Canada pursuant to section 202(e) of the Federal Power Act.

DATES: Comments, protests or requests to intervene must be submitted on or before April 29, 2002.

ADDRESSES: Comments, protests or requests to intervene should be addressed as follows: Office of Coal & Power Import/Export (FE-27), Office of Fossil Energy, U.S. Department of Energy, 1000 Independence Avenue, SW, Washington, DC 20585-0350 (FAX 202-287-5736).

FOR FURTHER INFORMATION CONTACT: Xavier Puslowski (Program Office) 202-586-6807 or Michael Skinker (Program Attorney) 202-586-2793.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated and require authorization under section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)).

On February 25, 1998, the Office of Fossil Energy (FE) of the Department of Energy (DOE) authorized PGET-Power to transmit electric energy from the United States to Canada using the international transmission facilities of Detroit Edison, Minnesota Power, Niagara Mohawk and New York Power Authority. On August 25, 1998, in Order EA-168-A, DOE amended PGET-Power's electricity export authorization to add the remaining major transmission interconnections with Canada. That two-year authorization expired on August 25, 2000. On July 6, 2000, PGET-Power filed an application with FE for renewal of its export authority. That authorization was issued on September 7, 2000 and will expire on September 7, 2002. On March 7, 2002, PGET-Power again filed an application for a two-year renewal of its export authority.

PGET-Power is a power marketer that does not own or control any electric generation or transmission facilities nor does it have a franchised electric service territory in the United States. PGET-Power will purchase the electric energy to be exported at wholesale from electric utilities and Federal Power Marketing Administrations in the United States.

PGET-Power proposes to arrange for the delivery of electric energy to Canada over the international transmission facilities owned by Basin Electric Power Cooperative, Bonneville Power Administration, Citizens Utilities, Eastern Maine Electric Cooperative, International Transmission Company, Joint Owners of the Highgate Project, Long Sault, Inc., Maine Electric Power Company, Maine Public Service Company, Minnesota Power Inc., Minnkota Power Cooperative, New York Power Authority, Niagara Mohawk Power Corporation, Northern States Power, and Vermont Electric Transmission Company. The construction, operation, maintenance, and connection of each of the international transmission facilities to be utilized by PGET-Power has previously been authorized by a Presidential permit issued pursuant to Executive Order 10485, as amended.

Procedural Matters: Any person desiring to become a party to this proceeding or to be heard by filing comments or protests to this application should file a petition to intervene, comment or protest at the address provided above in accordance with §§ 385.211 or 385.214 of the FERC's

Rules of Practice and Procedures (18 CFR 385.211, 385.214). Fifteen copies of each petition and protest should be filed with the DOE on or before the date listed above.

Comments on the PGET-Power application to export electric energy to Canada should be clearly marked with Docket EA-168-C. Additional copies are to be filed directly with Sanford L. Hartman, Assistant General Counsel, PG&E Energy Trading—Power, L.P., 7500 Old Georgetown Road, Suite 1300, Bethesda, MD 20814-6161 and Ms. Sarah Barpoulis, Senior Vice President, PG&E Energy Trading—Power, L.P., 7500 Old Georgetown Road, Suite 1300, Bethesda, MD 20814-6161.

DOE notes that the circumstances described in this application are virtually identical to those for which export authority had previously been granted in FE Orders EA-168. Consequently, DOE believes that it has adequately satisfied its responsibilities under the National Environmental Policy Act of 1969 through the documentation of a categorical exclusion in the FE Docket EA-168 proceeding.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above or by accessing the Fossil Energy Home Page at <http://www.fe.doe.gov>. Upon reaching the Fossil Energy Home page, select "Electricity Regulation," and then "Pending Procedures" from the options menus.

Issued in Washington, DC, on March 25, 2002.

Anthony J. Como,

Deputy Director, Electric Power Regulation, Office of Coal & Power Import/Export, Office of Coal & Power Systems, Office of Fossil Energy.

[FR Doc. 02-7593 Filed 3-28-02; 8:45 am]

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Notice of Intent to Solicit Competitive Applications/Proposals for Financial Assistance

AGENCY: Rocky Flats Field Office, Department of Energy (DOE).

ACTION: Notice of intent to solicit competitive applications/proposals for financial assistance.

SUMMARY: The Rocky Flats Field Office (RFFO) of the Department of Energy is entrusted to contribute to the welfare of the nation by providing the scientific foundation, technology, policy and institutional leadership necessary to
