[CFDA No.: 84.133F]

Office of Special Education and Rehabilitative Services; National Institute on Disability and Rehabilitation Research; Notice Inviting Applications for New Awards Under the Research Fellowships Program for Fiscal Year (FY) 2002

Purpose of the Program: The purpose of this Fellowship program is to build research capacity by providing support to highly qualified individuals, including those who are individuals with disabilities, to perform research on the rehabilitation of individuals with disabilities. Fellows may conduct original research in any area authorized by section 204 of the Rehabilitation Act of 1973, as amended. Fellows may address problems encountered by individuals in their daily lives that are due to the presence of a disabling condition, problems associated with the provision of rehabilitation services to individuals with disabilities, and problems connected with the conduct of disability research.

The program provides two categories of Fellowships: Merit Fellowships and Distinguished Fellowships. (a) To be eligible for a Distinguished Fellowship, an individual must have seven or more years of research experience in subject areas, methods, or techniques relevant to rehabilitation research and must have a doctorate, other terminal degree, or comparable academic qualifications. (b) To be eligible for a Merit Fellowship, an individual must have either advanced professional training or independent study experience in an area which is directly pertinent to disability and rehabilitation.

Applicants are not required to submit a budget with their proposal. These are one Full Time Equivalent (FTE) awards: the applicant must work principally on the fellowship during the year. The applicant cannot receive support through any other federal government grants during this period. We define one FTE as equal to 40 hours per week.
