(A) Educational goals, curriculum guidelines and content, standards and assessments;

(B) Personnel policies and practices including recruitment, certification, staff development, and assignment;

(C) Student grade-promotion and graduation requirements;

(D) Student assignment policies and practices;

(E) Family education programs and parent outreach and training activities designed to assist parents to become active participants in the education of their children;

(F) The instructional program for limited English proficient students by identifying, acquiring, and upgrading curriculum, instructional materials, educational software, and assessment procedures and, if appropriate, applying educational technology;

(G) Tutorials and academic or career counseling for children and youth of limited-English proficiency; and

(H) Such other activities, related to the purposes of this part, as the Secretary may approve.

Priorities

Absolute Priority: The priority in the notice of final priority for this program, as published in the **Federal Register** on October 30, 1995 (60 FR 55246-55247) applies to this competition.

Under 34 CFR 75.105(c)(3) and section 7115(a) of the Act, the Secretary gives an absolute preference to applications that meet the following priority. The Secretary funds under this competition only applications that meet this absolute priority:

Projects that serve only LEAs in which the number of LEP students, in each LEA served, is at least 1,000 or at least 25 percent of the total student enrollment.

Competitive Priority: Within the absolute priority specified in this notice, the Secretary under 34 CFR 75.105(c)(2)(i) and 34 CFR 299.3(b) gives preference to applications that meet the following competitive priority. The Secretary awards 5 points to an application that meets this competitive priority. These points are in addition to any points the application earns under the selection criteria for the program:

Projects that will contribute to systemic educational reform in an Empowerment Zone, including a Supplemental Empowerment Zone, or an Enterprise Community designated by the United States Department of Housing and Urban Development or the United States Department of Agriculture, and are made an integral part of the Zone's or Community's comprehensive community revitalization strategies.

A list of areas that have been designated as Empowerment Zones and Enterprise Communities is provided at the end of this notice.

Invitational Priorities: Within the absolute priority specified in this notice, the Secretary is particularly interested in applications that meet one or both of the following invitational priorities. However, under 34 CFR 75.105(c)(1) an application that meets one or both of these invitational priorities does not receive competitive or absolute preference over other applications.

Invitational Priority 1—Safe and Drug-Free Schools: Projects that contribute to the creation and maintenance of a safe and drug-free learning environment for limited English proficient students by being

made an integral part of a comprehensive school safety plan.

Information on developing and implementing a comprehensive school safety plan is found in the 1998 Annual Report on School Safety prepared by the U.S. Departments of Education and Justice.

Invitational Priority 2—Professional Development: Applicants that consider the U.S. Department of Education Professional Development Principles in planning and designing a Systemwide Improvement Grant project.

These principles call for educator professional development that focuses on teachers as central to student learning, yet includes all other members of the school community; focuses on individual, collegial, and organizational improvement; respects and nurtures the intellectual and leadership capacity of teachers, principals, and others in the school community; reflects best available research and practice in teaching, learning, and leadership; enables teachers to develop further expertise in subject content, teaching strategies, uses of technologies, and other essential elements in teaching to high standards; promotes continuous inquiry and improvement embedded in the daily life of schools; is planned collaboratively by those who will participate in and facilitate that development; requires substantial time and other resources; is driven by a coherent long-term plan; is evaluated ultimately on the basis of its impact on teacher effectiveness and student learning; and uses this assessment to guide subsequent professional development efforts.

Intergovernmental Review of Federal Programs

This program is subject to the requirements of Executive Order 12372 (Intergovernmental Review of Federal Programs) and the regulations in 34 CFR part 79.

The objective of the Executive order is to foster an intergovernmental partnership and to strengthen federalism by relying on State and local processes for State and local government coordination and review of proposed Federal financial assistance.

Applicants must contact the appropriate State Single Point of

Contact to find out about, and to comply with, the State's process under Executive order 12372. Applicants proposing to perform activities in more than one State should immediately contact the Single Point of Contact for each of those States and follow the procedure established in each State under the Executive order.

If you want to know the name and address of any State Single Point of Contact (SPOC), see the list published in the **Federal Register** on April 28, 1999 (64 FR 22963), or you may view the latest SPOC list on the OMB Web site at the following address: <http://www.whitehouse.gov/omb/grants>.

In States that have not established a process or chosen a program for review, State, areawide, regional, and local entities may submit comments directly to the Department.

Any State Process Recommendation and other comments submitted by a State Single Point of Contact and any comments from State, areawide, regional, and local entities must be mailed or hand-delivered by the date indicated in this notice to the following address: The Secretary, E.O. 12372—CFDA# 84.291R, U.S. Department of Education, 400 Maryland Avenue, SW., Room 7E200, Washington, DC 20202-0125.

Proof of mailing will be determined on the same basis as applications (see 34 CFR 75.102). Recommendations or comments may be hand-delivered until 4:30 p.m. (Eastern time) on the date indicated in this notice.

Please Note That the Above Address is not the Same ADDRESS as the one to Which the Applicant Submits its Completed Application. *Do not send applications to the above address.*

Instructions for Transmitting Applications

Note: Some of the procedures in these instructions for transmitting applications differ from those in the Education Department General Administrative Regulations (EDGAR) (34 CFR 75.102). Under the Administrative Procedure Act (5 U.S.C. 553) the Department generally offers interested parties the opportunity to comment on proposed regulations. However, these amendments make procedural changes only and do not establish new substantive policy. Therefore, under 5 U.S.C. 553(b)(A), the Secretary has determined that proposed rulemaking is not required.

Application Instructions

Parity Guidelines Between Paper and Electronic Applications

The Department of Education is conducting a limited pilot project that allows applicants to use an Internet-based electronic system for submitting applications under selected discretionary grant programs. This competition is among those that have an electronic submission option available to all applicants. The system, called e-GAPS (Electronic Grant Application Package System), allows an applicant to submit a grant application to the Department (us) electronically, using a current version of the applicant's Internet browser. To see e-GAPS visit the following address: <http://e-grants.ed.gov>

Because we want to ensure parity and a similar look between applications transmitted electronically and applications submitted in conventional paper form, e-GAPS has an impact on all applicants under this competition.

E-GAPS is a data-driven system; that is, e-GAPS users will be entering data on-line while completing their applications. This will be more interactive than just e-mailing a soft copy of a grant application to us. If you participate in this voluntary pilot project by submitting an application electronically, the data you enter on-line will go into a database and ultimately will be accessible in electronic form to our reviewers.

However, this pilot project is only the first step in the Department's eventual transition to electronic applications for grants. The pilot project is designed to enable us to evaluate the experience of gathering application data on-line. We will assess the on-line review process separately; so, during this pilot project, we will ultimately review in hard copy all information that we receive.

To help ensure parity and a similar look between electronic and paper copies of grant applications, we are asking each applicant that submits a paper application to adhere voluntarily to the following guidelines:

- Use consistent font throughout your document, with no formatting of any kind (that is, no bolding, underlining, italics, or colored text).
- If you are preparing your application on a conventional typewriter, make sure that the pitch (characters per inch) of the font is consistent throughout your document, and do not use formatting of any kind (for example, underlining or italics).

- For the narrative component, your application should consist of the number and text of each selection criterion followed by the narrative. The text of the selection criterion, if included, does not count against any page or character count limitation. You should append charts, tables, graphs, and graphics of any kind after you have completed the text of the relevant section. We suggest that you begin these items on a separate sheet of paper and refer to them within the text.

Example

1. Please describe your project management plan.

Our project plan is composed of three major components: start-up, fulfillment, and closure. The flow of these components into the stated outcomes for this project is described below and presented in figure 3-1.

- Create all illustrations (including charts, tables, graphs, and pictures) in grayscale only.
- Place a page number at the bottom right of each page beginning with 1; and number your pages consecutively throughout your document.
- At the top right of each page, place the name of the applicant, the applicant's DUNS number (if available), and the CFDA number of the competition.

Abstract

The narrative section should be preceded by a one-page abstract that includes a short description of the population to be served by the project, project objectives, and planned project activities.

Selection Criteria

The narrative should address fully all aspects of the selection criteria in the order listed and should give detailed information regarding each criterion. Do not simply paraphrase the criteria. Do not include resumes or curriculum vitae for project personnel; provide position descriptions instead. Do not include bibliographies, letters of support, or appendices in your application.

Empowerment Zone/Enterprise Community Priority

Applicants that wish to be considered under the competitive priority for Empowerment Zones and Enterprise Communities, as specified in a previous section of this notice, should identify in Section D of the Project Documentation Form the applicable Empowerment Zone or Enterprise Community. The application narrative should describe the extent to which the proposed project will contribute to systemic educational reform in the particular Empowerment Zone or Enterprise Community and be an integral part of the Zone's or Community's comprehensive revitalization strategies. A list of areas that have been designated as Empowerment Zones and Enterprise Communities is provided at the end of this notice.

Table of Contents

The application should include a table of contents listing the various parts of the

narrative in the order of the selection criteria. The table should include the page numbers where the parts of the narrative are found.

Budget

A separate budget summary and cost itemization must be provided on the Budget Information Form (ED 524) and in the itemized budget for each project year. Budget line items should be directly related to the activities proposed to achieve the goals and objectives of the project.

Submission of Application to State Education Agency

Section 7116(a)(2) of the authorizing statute (Elementary and Secondary Education Act of 1965, as amended by the Improving America's Schools Act of 1994, Pub. L. 103-382) requires all applicants except schools funded by the Bureau of Indian Affairs to submit a copy of their application to their State educational agency (SEA) for review and comment (20 U.S.C. 7426(a)(2)). Section 75.156 of the Education Department General Administrative Regulations (EDGAR) requires these applicants to submit their application to the SEA on or before the deadline date for submitting the application to the U.S. Department of Education. This section of EDGAR also requires applicants to attach to their application a copy of their letter requesting the SEA to comment on the application (34 CFR 75.156). A copy of this letter should be attached to the Project Documentation Form contained in this application package. Applicants That Do Not Submit a Copy of Their Application to Their State Educational Agency in Accordance with These Statutory and Regulatory Requirements Will Not be Considered for Funding.

Final Application Preparation

Use the Checklist for Applicants provided below to verify that your application is complete. If you submit your application in conventional paper form, provide three copies of the application, including one copy with an original signature on each form that requires the signature of the authorized representative. Do not use elaborate bindings, notebooks, or covers. If you mail your application, the application must be postmarked by the deadline date.

Protection of Human Subjects in Research (Attachment to ED 424)

I. Instructions to Applicants about the Narrative Information that Must be Provided if Research Activities Involving Human Subjects are Planned.

If you marked item 12 on the application "Yes" and designated exemptions in 12a, **(all research activities are exempt)**, provide sufficient information in the application to allow a determination that the designated exemptions are appropriate. Research involving human subjects that is exempt from the regulations is discussed under **II.B. "Exemptions,"** below. The Narrative must be succinct. **Provide this information in an "Item 12/Protection of Human Subjects Attachment" and insert this attachment immediately following the ED 424 face page.**

If you marked "Yes" to item 12 on the face page, and designated no exemptions from the regulations **(some or all of the research activities are nonexempt)**, address the following six points for each nonexempt activity. In addition, if research involving human subjects will take place at collaborating site(s) or other performance site(s), provide this information before discussing the six points. Although no specific page limitation applies to this section of the application, be succinct. Provide the six-point narrative and discussion of other performance sites in an **"Item 12/Protection of Human Subjects Attachment"** and insert this attachment immediately following the ED 424 face page.

(1) Provide a detailed description of the proposed involvement of human subjects. Describe the characteristics of the subject population, including their anticipated number, age range, and health status. Identify the criteria for inclusion or exclusion of any subpopulation. Explain the rationale for the involvement of special classes of subjects, such as children, children with disabilities, adults with disabilities, persons with mental disabilities, pregnant women, prisoners, institutionalized individuals, or others who are likely to be vulnerable.

(2) Identify the sources of research material obtained from individually identifiable living human subjects in the form of specimens, records, or data. Indicate whether the material or data will be obtained specifically for research purposes or whether use will be made of existing specimens, records, or data.

(3) Describe plans for the recruitment of subjects and the consent procedures to be followed. Include the circumstances under which consent will be sought and obtained, who will seek it, the nature of the information to be provided to prospective subjects, and the method of documenting consent. State if the Institutional Review Board (IRB) has authorized a modification or waiver of the elements of consent or the requirement for documentation of consent.

(4) Describe potential risks (physical, psychological, social, legal, or other) and assess their likelihood and seriousness. Where appropriate, describe alternative treatments and procedures that might be advantageous to the subjects.

(5) Describe the procedures for protecting against or minimizing potential risks, including risks to confidentiality, and assess their likely effectiveness. Where appropriate, discuss provisions for ensuring necessary medical or professional intervention in the event of adverse effects to the subjects. Also, where appropriate, describe the provisions for monitoring the data collected to ensure the safety of the subjects.

(6) Discuss why the risks to subjects are reasonable in relation to the anticipated benefits to subjects and in relation to the importance of the knowledge that may reasonably be expected to result.

II. Information on Research Activities Involving Human Subjects

A. Definitions.

A research activity involves human subjects if the activity is research, as defined in the Department's regulations, and the research activity will involve use of human subjects, as defined in the regulations.

—Is it a research activity?

The ED Regulations for the Protection of Human Subjects, Title 34, Code of Federal Regulations, Part 97, define research as "a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge." *If an activity follows a deliberate plan whose purpose is to develop or contribute to generalizable knowledge, such as an exploratory study or the collection of data to test a hypothesis, it is research.* Activities which meet this definition constitute research whether or not they are conducted or supported under a program which is considered research for other purposes. For example, some demonstration and service programs may include research activities.

—Is it a human subject?

The regulations define human subject as "a living individual about whom an investigator (whether professional or student) conducting research obtains (1) data through intervention or interaction with the individual, or (2) identifiable private information." (1) *If an activity involves obtaining information about a living person by manipulating that person or that person's environment, as might occur when a new instructional technique is tested, or by communicating or interacting with the individual, as occurs with surveys and interviews, the definition of human subject is met.* (2) *If an activity involves obtaining private information about a living person in such a way that the information can be linked to that individual (the identity of the subject is or may be readily determined by the investigator or associated with the information), the definition of human subject is met.* [Private information includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an

individual and which the individual can reasonably expect will not be made public (for example, a school health record).]

B. Exemptions.

Research activities in which the only involvement of human subjects will be in one or more of the following six categories of *exemptions* are not covered by the regulations:

(1) Research conducted in established or commonly accepted educational settings, involving normal educational practices, such as (a) research on regular and special education instructional strategies, or (b) research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods.

(2) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless: (a) information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and (b) any disclosure of the human subjects' responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects' financial standing, employability, or reputation. *If the subjects are children, this exemption applies only to research involving educational tests or observations of public behavior when the investigator(s) do not participate in the activities being observed.* [Children are defined as persons who have not attained the legal age for consent to treatments or procedures involved in the research, under the applicable law or jurisdiction in which the research will be conducted.]

(3) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior that is not exempt under section (2) above, if the human subjects are elected or appointed public officials or candidates for public office; or

federal statute(s) require(s) without exception that the confidentiality of the personally identifiable information will be maintained throughout the research and thereafter.

(4) Research involving the collection or study of existing data, documents, records, pathological specimens, or diagnostic specimens, if these sources are publicly available or if the information is recorded by the investigator in a manner that subjects cannot be identified, directly or through identifiers linked to the subjects.

(5) Research and demonstration projects which are conducted by or subject to the approval of department or agency heads, and which are designed to study, evaluate, or otherwise examine: (a) public benefit or service programs; (b) procedures for obtaining benefits or services under those programs; (c) possible changes in or alternatives to those programs or procedures; or (d) possible changes in methods or levels of payment for benefits or services under those programs.

(6) Taste and food quality evaluation and consumer acceptance studies, (a) if wholesome foods without additives are consumed or (b) if a food is consumed that contains a food ingredient at or below the level and for a use found to be safe, or agricultural chemical or environmental contaminant at or below the level found to be safe, by the Food and Drug Administration or approved by the Environmental Protection Agency or the Food Safety and Inspection Service of the U.S. Department of Agriculture.

Copies of the Department of Education's Regulations for the Protection of Human Subjects, 34 CFR Part 97 and other pertinent materials on the protection of human subjects in research are available from the Grants Policy and Oversight Staff (GPOS) Office of the Chief Financial and Chief Information Officer, U.S. Department of Education, Washington, D.C., telephone: (202) 708-8263, and on the U.S. Department of Education's Protection of Human Subjects in Research Web Site at <http://ocfo.ed.gov/humansub.htm>.

Notice To All Applicants

The purpose of this enclosure is to inform you about a new provision in the Department of Education's General Education Provisions Act (GEPA) that applies to applicants for new grant awards under Department programs. This provision is Section 427 of GEPA, enacted as part of the Improving America's Schools Act of 1994 (Pub. L. 103-382).

To Whom Does This Provision Apply?

Section 427 of GEPA affects applicants for new grant awards under this program. ALL APPLICANTS FOR NEW AWARDS MUST INCLUDE INFORMATION IN THEIR APPLICATIONS TO ADDRESS THIS NEW PROVISION IN ORDER TO RECEIVE FUNDING UNDER THIS PROGRAM.

(If this program is a State-formula grant program, a State needs to provide this description only for projects or activities that it carries out with funds reserved for State-level uses. In addition, local school districts or other eligible applicants that apply to the State for funding need to provide this description in their applications to the State for funding. The State would be responsible for ensuring that the school district or other local entity has submitted a sufficient section 427 statement as described below.)

What Does This Provision Require?

Section 427 requires each applicant for funds (other than an individual person) to include in its application a description of the steps the applicant proposes to take to ensure equitable access to, and participation in, its Federally-assisted program for students, teachers, and other program beneficiaries with special needs. This provision allows applicants discretion in developing the required description. The statute highlights six types of barriers that can impede equitable access or participation: Gender, race, national origin, color, disability, or age. Based on local circumstances, you should determine whether these or other barriers may prevent your students, teachers, etc., from such access or participation in the Federally-funded project or activity. The description in your application of steps to be taken to overcome these barriers need not be lengthy; you may provide a clear and succinct description of how you plan to address those barriers that are applicable to your circumstances. In addition, the information may be provided in a single narrative, or, if appropriate, may be discussed in connection with related topics in the application.

Section 427 is not intended to duplicate the requirements of civil rights statutes, but rather to ensure that, in designing their projects, applicants for Federal funds address equity concerns that may affect the ability of certain potential beneficiaries to fully participate in the project and to achieve to high standards. Consistent with program requirements and its approved application, an applicant may use the Federal funds awarded to it to eliminate barriers it identifies.

What are Examples of How an Applicant Might Satisfy the Requirement of This Provision?

The following examples may help illustrate how an applicant may comply with Section 427.

(1) An applicant that proposes to carry out an adult literacy project serving, among others, adults with limited English proficiency, might describe in its application how it intends to distribute a brochure about the proposed project to such potential participants in their native language.

(2) An applicant that proposes to develop instructional materials for classroom use might describe how it will make the materials available on audio tape or in braille for students who are blind.

(3) An applicant that proposes to carry out a model science program for secondary students and is concerned that girls may be less likely than boys to enroll in the course, might indicate how it intends to conduct "outreach" efforts to girls, to encourage their enrollment.

We recognize that many applicants may already be implementing effective steps to ensure equity of access and participation in their grant programs, and we appreciate your cooperation in responding to the requirements of this provision.

Estimated Burden Statement for GEPA Requirements

The time required to complete this information collection is estimated to vary from 1 to 3 hours per response, with an average of 1.5 hours, including the time to review instructions, search existing data resources, gather and maintain the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time and estimate(s) or suggestions for improving this form, please write to: U.S. Department of Education, Washington, DC 20202-4651.
