Outflow winds from thunderstorms downed several power lines and fifteen power poles in Hooker and west of Hooker with a report of two small grass fires ongoing. Power was lost in Hooker for about six hours. The downed power poles west of Hooker on U.S. Highway 54 and north sparked a wheat stubble fire. Then...high winds apparently blew a county equipment shed apart...opening a gas line that was ignited by a spark from metal or electricity. The county lost some pieces of equipment but most items stored in the shed were saved.

Severe thunderstorms produced large hail and wind damage across the central and eastern Oklahoma Panhandle during the early evening hours. No injuries were reported.

A wildfire began approximately 1000 CST about four miles northeast of Shamrock just east of County Road 19 and between County Road X and County Road Y. Three hundred acres were burned with one home saved. No damage was reported from the wildfire...although there were two injuries as reported by the Mobeetie Volunteer Fire Department. The wildfire was contained around 1430 CST and a total of five fire departments responded to the fire.
