

**Asia-Pacific Partnership for Clean Development and Climate
Inaugural Breakfast Briefing & Update**

Featuring

Paula J. Dobriansky
Under Secretary of State for Democracy and Global Affairs

July 17, 2008 – 9:00 am
Horizon Room
Ronald Reagan Building and International Trade Center
Washington, DC

You are cordially invited to join Under Secretary of State Paula J. Dobriansky and U.S. government and private sector implementing partners in the first of a bi-monthly series of breakfast briefings on the programs, activities and results of the Asia-Pacific Partnership for Clean Development and Climate.

The APP promotes the development and deployment of, and increased trade and investment in, cleaner technologies through development of environmentally and commercially sustainable enabling environments and the exchange of international best practices. The Partnership's Policy and Implementation Committee (PIC) coordinates and monitors action plans and results of eight sectoral task forces in Aluminum; Buildings and Appliances; Cement; Cleaner Fossil Energy; Coal Mining; Power Generation and Transmission; Renewable Energy and Distributed Generation; and Steel.

The APP brings together the governments and private sectors of Australia, Canada, China, India, Japan, Republic of Korea, and the United States. Together, these countries account for more than half of the world's economy, population and energy use.

Please join us as we review APP goals and results to date and identify opportunities for private sector, NGO and state and local government participation in task force programs and activities.

**Please complete and return the following form by fax to (202) 682-1826 or register online at
