

Date: April 1, 2007

To: Project Directors
Teacher Quality Enhancement Grants Program
for States (TQE-S)

From Kathleen C. Price
Team Leader

Subject: Fiscal Year (FY) 2007 Annual Performance Report for FY 2005 TQE-S Grantees

Recipients of multi-year discretionary grants must submit an Annual Performance Report (APR) for each year funding has been approved. **Your APR for FY 2007 is due May 15.** The information presented in the APR must demonstrate that substantial progress has been made toward meeting the approved objectives of the project as stated in the original grant application and program performance measures. In addition, the information described in this letter will provide the U.S. Department of Education (ED) with information about whether recipients of federal grant awards are meeting statutory and regulatory requirements. Performance reporting requirements are found in 34 CFR 74.51, 75.118, 75.253, and 80.40 of the Education Department General Administrative Regulations (EDGAR).

E-REPORTS

You should have received an electronic message stating that the TQE Program is participating in e-Reports, ED's electronic performance reporting initiative. You may access the e-Reports Web site at <http://e-grants.ed.gov/egWelcome.asp>. If you did not receive the electronic message describing ED's e-Reports, please contact your program officer immediately.

ED 524B APR REPORTING REQUIREMENTS

The ED 524B consists of five pages. Please read the instructions and forms for the ED 524B carefully before completing and submitting your APR. All requested information must be reported in the appropriate section and page of the form according to the instructions. Please do not hesitate to contact your ED program officer if you have any questions about completing the form.

APR Reporting Period

The reporting period (see item 7 of the ED 524B cover sheet) for this report is from the start of your current budget period through 30 days before the due date of the report. In this case, you are reporting on project accomplishments and financial expenditures from October 1, 2006, through April 15, 2007.

Additional Reporting Information

In Spring 2006, you reported on your grant activities and expenditures from October 1, 2005, through April 15, 2006. In order to provide a full accounting of expenditures and accomplishments for the complete fiscal year, you are to also provide a brief **update** on finances and accomplishments from April 16, 2006, through September 30, 2006. This update should be provided on page three under the “status update” section of the e-report. Please keep in mind that this portion of the e-report will provide a complete picture of last year’s activities. The main portion of this report should focus on activities from October 1, 2006, through April 15, 2007.

APR Due Date

Your annual performance report must be submitted to the TQE office by May 15, 2006. Failure to submit your report on time could result in a delay in the awarding of your non-competing continuation. In addition, grantees that fail to provide all required documentation will be in noncompliance with ED regulations. In this event, we may pursue remedies available for noncompliance in accordance with EDGAR 34 CFR 74.62 and 75.217(d)(3)(iii).

BUDGET REPORT

Your Business Office must now complete all financial data, including budget expenditure data and indirect cost information. Please allow sufficient time for your Business Office to provide you with this information in order for you to meet the performance report due date. Many of you have indicated that the ED 524 is the best tool for clearly showing the budget expenditures. Although it is not required for reporting, you may download the budget form for federal and non-federal budget reporting at

<http://www.ed.gov/fund/grant/apply/appforms/appforms.html>. You may use this original form or reproduce it as an Excel document.

PERFORMANCE MEASURES

Performance measures are reported in Section A of the APR. TQE-S grantees are required to report only GPRA measures and project measures. Project measures are those that the grantee established in an approved grant application to account for progress toward meeting objectives and goals. GPRA measures were developed by ED for reporting to Congress on the TQE program's effectiveness. In item 11a of the ED 524B cover sheet, you must indicate whether complete data on performance measures for the current budget period is included with your performance report. Because your report is due before the end of your current budget period, in many cases complete performance measure data will not be available when you submit this report. Report performance measure data for the reporting period to date when you submit this report.

Quantitative Data Reports

When reporting on quantitative performance measures, you are required to report on the targets (e.g., benchmarks or goals) that you established in your approved grant application for each budget period, as well as your actual performance data for the budget period. Quantitative performance measure data must be reported in a specific format in Section A of the Project Status Chart. Please read these instructions carefully. If you did not establish targets in your approved grant application, please contact your program officer for assistance with establishing targets.

GPRA Measures

GPRA requires all federal agencies to report to Congress on their progress in meeting the goals and objectives established for their programs. Programs receiving federal funds are likewise required to report on their progress in achieving the program's GPRA indicator. Provide the most current actual data for the current budget period.

*NOTE: State grantees need **only** address TQE GPRA Indicator 8.1.1. Indicator 8.1.1 seeks data on the percentage of program completers who meet the definition of being highly qualified teachers. Specifically the state GPRA data pertains to the pass rates for the preservice teachers taking subject matter competency tests as part of state licensure requirements in states that receive funds from the Teacher Quality Enhancement Grants Programs for States. To report on this GPRA measure, provide data in Section A of the APR as follows:*

1. GPRA Performance Measure Report

- The percentage of preservice teachers passing subject matter competency tests as part of state licensure requirements.

Project Performance Measures: Work Plan

All performance measures data must be reported in Section A of the Project Status Chart. You are required to report on any project-specific performance measures that you established in your approved grant application and presented in your work plan. When reporting on your project objectives, each of your performance measures must be aligned or associated with one of your approved project objectives. The information from your project work plan may be inserted in the Project Status Chart, Section A of the ED 524B. (See Section A of the Project Status Chart). If you did not establish an alignment in your approved grant application and are having difficulty doing so in your performance report, please contact your program officer for technical assistance. When establishing this alignment between project objectives and performance measures, do not redesign your approved grant application or make changes to your approved objectives or scope of work.

Note: If you want to update your performance measures data after you have submitted the performance report, but before the due date of the report, please ask your program officer to "unsubmit" your e-Report so that you may revise Section A and provide *complete* data for the budget period.

Additional Information

All state grantees are required by statute or government regulations found in Section 206(a) of the Higher Education Act of 1965 Title II to report the status of their program measures to Congress and the Secretary of Education. Your report to Congress is due on October 31, 2007. It should address your program measures incorporated in Section 206(a) for the period October 1, 2006, through September 30, 2007. Also, please submit a copy of your previous report to Congress to this office on or before May 15, 2006. You may mail the copies of this reports to your program officer at: The Office of Post Secondary Education, Teacher Quality Enhancement Grants Office, 1990 K Street, NW, 7th Floor, Washington, DC 20006.

Thank you in advance for your work in producing this APR. We look forward to hearing not only about your accomplishments, but also about any barriers you may

have encountered in implementing your project. TQE program officers are always available to work with you in ensuring your project's success.

Note that failure to adhere to the reporting requirements in Section 206(a) will place your award in noncompliance and may lead the Department to pursue remedies available for noncompliance in accordance with EDGAR 34 CFR 74.62 and 75.217(d)(3)(iii).
