

The EIS will consider the possible combinations of locations on base that are reasonable to accomplish the proposed action: The adaptive reuse of existing facilities through renovation, with emphasis on preservation of the historic context and integrity of existing buildings; the use of new construction; the potential long-term growth in installation missions; and identification of cost-effective and timely means of meeting mission requirements, the BRAC deadline, and other deadlines. These factors are currently under evaluation by an Installation Master Plan effort, which will cover a 10-year planning period that extends to the year 2016. The Master Plan and the EIS are subject to a formal review process under the authority of the National Capitol Planning Commission (NCPC). The Master Plan will include a separate document, referenced in the EIS, to comply with NCPC traffic management analysis requirements.

Alternatives were developed to assess the proposed action and potential additional development that may occur at NNMC. Alternatives to be considered include: (1) Implement the BRAC recommendation; (2) implement the BRAC recommendation and provide for future anticipated growth, support activities, and changes to the installation; and (3) no action, with NNMC continuing to maintain and repair existing facilities without additional growth.

Alternative 1 will meet the requirements of the BRAC Law by providing additions and alterations to NNMC such as additional parking and alterations to administrative and physical training facilities to accommodate functions and activities relocating from WRAMC. Road and utility improvements would be included. Additional facilities and infrastructure needed to re-establish the relocating mission and allow the installation to function are provided in this alternative. These include temporary and permanent lodging facilities, and improvements to access gates to accommodate added traffic volume and meet current Anti-terrorism/Force Protection standards. It is anticipated that completion of this action will result in NNMC facility additions and alterations totaling approximately 1,100,000 square feet, additional appropriate parking facilities totaling about 900,000 square feet, the addition of approximately 1,400 full-time staff members, and about 435,000 additional patients and visitors using the facilities per year.

Alternative 2 includes all items considered under Alternative 1 and

adds anticipated future growth of other missions performed at the installation. This will include expansion of DoD medical education and research facilities, improved or replacement athletic facilities, a potential pedestrian bridge across Wisconsin Avenue, security enhancements, and added retail space. It is anticipated that Alternative 2 would result in the following increases over those described in Alternative 1: Facility additions and alterations totaling approximately 650,000 square feet; additional appropriate parking facilities totaling approximately 130,000 square feet; the addition of approximately 1,100 full-time staff members; and about 100,000 additional patients and visitors using the facilities per year.

Alternative 3 is required by statute and will evaluate the impacts at NNMC in the event that additional growth from BRAC and non-BRAC action does not occur. NNMC would continue to maintain and repair facilities in response to requirements from Congressional action or revisions to building codes. Implementation of Alternative 3 would require the Congress to change the existing BRAC Law.

The EIS will address potential direct, indirect, short-term, long term, and cumulative impacts to the human and natural environment, to include potential impacts to topography, geology, and soils, water resources, biological resources, air quality, noise, infrastructure and utilities, traffic, cultural resources, land use, socioeconomic, environmental justice, and hazardous waste and materials. Known areas of concern associated with the BRAC action include providing required space and facilities at NNMC in consideration of historic characteristics, and impacts to local traffic and on-base parking associated with increases in personnel and patient visits.

The DON is initiating the scoping process to identify community concerns and issues that should be addressed in the EIS. Agencies and the public are encouraged to provide written comments in addition to, or in lieu of, oral comments at scheduled public scoping meetings. Comments should clearly describe specific issues or topics that the EIS should address. Written comments must be postmarked or e-mailed by midnight January 04, 2007, and should be sent to: Officer in Charge—BRAC, NNMC, 8901 Wisconsin Avenue, Bethesda, MD 20889, telephone 301-295-2722, fax 301-474-5419, e-mail: NNMCEIS@bethesda.med.navy.mil. Requests for

inclusion on the EIS mailing list may also be submitted to this address.

Requests for special assistance, sign language interpretation for the hearing impaired, language interpreters, or other auxiliary aids for scheduled public scoping meetings must be sent by mail or e-mail by December 06, 2006, to Ms. Amanda Goebel, The Louis Berger Group, Inc., telephone 202-912-0267, e-mail: agoebel@louisberger.com.

Dated: November 15, 2006.

DEPARTMENT OF EDUCATION

Notice of Proposed Information Collection Requests

AGENCY: Department of Education.

SUMMARY: The IC Clearance Official, Regulatory Information Management Services, Office of Management, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before January 22, 2007.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The IC Clearance Official, Regulatory Information Management Services, Office of Management, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

Dated: November 15, 2006.

Angela C. Arrington,

IC Clearance Official, Regulatory Information Management Services, Office of Management.

DEPARTMENT OF EDUCATION

Submission for OMB Review; Comment Request

AGENCY: Department of Education.

SUMMARY: After processing the Free Application for Federal Student Aid (FAFSA), the Department sends FAFSA applicants a Student Aid Report (SAR). The SAR contains the results of eligibility and expected family contribution determinations, information that the student originally reported on the FAFSA, and information about the applicant's financial aid history from the Department's National Study Loan Data System. SAR recipients are expected to review the information on the SAR and (1) correct errors in the reported information, (2) update information that may have changed since filing the FAFSA, (3) verify the responses if so requested, and on the paper SAR, (4) correct illegible information, or (5) supply missing information. The Secretary of Education requests comments on the SAR that the Department proposes to use for the 2007-2008 award year.

DATES: Interested persons are invited to submit comments on or before December 21, 2006.

ADDRESSES: Written comments should be addressed to Office of Information and Regulatory Affairs, Attention: Rachel Potter, Desk Officer, Department of Education, Office of Management and Budget, 725 17th Street, NW., Room 10222, New Executive Office Building, Washington, DC 20503 or faxed to (202) 395-6974.

SUPPLEMENTARY INFORMATION: The Secretary is publishing this request for comment under the Provisions of the Paperwork Reduction Act of 1995, 44 U.S.C. 3501 *et seq.* Under that Act, ED must obtain the review and approval of the Office of Management and Budget (OMB) before it may use a form to collect information. However, under

procedure for obtaining approval from OMB, ED must first obtain public comment of the proposed form, and to obtain that comment, ED must publish this notice in the **Federal Register**.

In addition to comments requested above, to accommodate the requirements of the Paperwork Reduction Act, the Secretary is interested in receiving comments with regard to the following matters: (1) Is this collection necessary to the proper functions of the Department, (2) will this information be processed and used in a timely manner, (3) is the estimate of burden accurate, (4) how might the Department enhance the quality, utility, and clarity of the information to be collected, and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.
