Subject: from ari's briefing today

Q Ari, I just would like to set the record straight on something the President said last week, when he was up at the NSA, when he was asked about the report on global warming by the EPA. He said he read the report. I believe the report is 260-some pages -- he meant he read the full report?

MR. FLEISCHER: I think the President -- whenever Presidents say they read it, you can read that to be he was briefed.
(Laughter.)

Q Frankness. (Laughter.)

Q Refreshing. (Laughter.)

MR. FLEISCHER: I've enjoyed working here, thank you.
