Subject: OMB A76 Comments

On page B-1 the chart indicated that the Agency, Private sector, and Public Reimbursable Responses Developed after the Solicitation Developed and Issued: Does this imply that the MEO Team developing the Agency Tender can not begin until the Solicitation is Issued?

Page B-3 Para 1 discusses Agency Tender Official with duties of developing the Agency Tender. Para2 discusses Contracting Officer that shall designate and assist the PWS Team. Is it the intent that the CO is in charge of the PWS team and not the functional element that is being studied?

Page B-17 Para 6 discusses the Appeal Process but the document does not discuss the Protest process. Is there a Protest process and if so, does the Agency have the right to Protest?
