What is the Tender on Line System or SLI?

The **Tender Online System** (SLI) is a tool developed on web technology to assist the Panama Canal Authority (ACP) procurement system in the tendering process through the use of Internet. The system publicizes the procurement tenders in all its phases, allows your submittal of tenders and makes easy your participation in our procurements. The SLI consists of two options in Internet: Tenders Online and Bidders Registry.

The **Tenders Online** option allows you to submit a bid and learn the results, including the content of contracts and purchase orders awarded. The **Bidders Registry** option allows you to register in the system. It is necessary for you to register in the system in order to submit your bid.

Additionally, it is very important for you to identify the categories at time of registration because the system will automatically send you an e-mail notification upon publication of new procurements and amendments for the categories requested.

The system identifies the following tender types:

Tender Type	Descripción
Publica (Public)	The Bid Opening is public and it is automatically done through the system. The bids are submitted and received through the Internet, and become of public knowledge at the time set for tender opening. Contract award will be made to the tenderer with the lowest price that complies with all terms and conditions of the tender documents. Please refer to Article 75 of the ACP Contracting Regulation.
Publica Presencial (Presential Public Bid Opening)	The Bid Opening is public and is done in the presence of the public at the location indicated in the tender documents. Bids are not submitted through the Internet, but physically at the indicated location. To publish the bids in Internet, the contracting officer will register the bids in the system at the conclusion of tender openings. Contract award will be made to the tenderer with the lowest price that complies with all terms and conditions of the tender documents. Please refer to Article 75 of the ACP Contracting Regulation.
Negociada (Negotiated)	The Bid Opening is not public, rather done in the presence of ACP authorized personnel. Bids may be submitted through the Internet or by other means authorized by the tender documents. The bid abstract is published after contract award. Please refer to Articles 76 and 77 of the ACP Acquisition Regulation.
Micro Compra (Small Purchase)	The Bid Opening is not public, rather done in the presence of ACP authorized personnel. Bids are submitted through the Internet. The bid abstract is published after contract award. Please refer to Article 50 of the ACP Acquisition Regulation.

The phases, in which a tendering process is, are identified by the status of the tender as follows:

Steps / Status	Description				
Announcement	The tender is publicized. During this phase you may submit your bid. Tenders remain open under this status, until the date and hour set for receipt of bid ends or the tender is Cancelled Before Opening .				
Cancelled Before Opening	The tender was cancelled. Cancellation is only possible before tender openings. Cancelled tenders remain published for several days.				
Evaluation	Review and evaluation of bids received in response to the announcement. This phase begins with the receipt of bids and ends with contract award or when the tender is cancelled or amended after opening. During this phase for Public Tenders, the bid abstract and bids can be accessed in Internet. For Presential Public Bid OpeningTenders, to publish the bids in Internet, the contracting officer will register the bids in the system at the conclusion of bid openings.				
Cancelled After Opening	The tender was cancelled after opening. Cancelled tenders remain published for several days.				
Amended	The negotiated solicitation was amended after opening. The selection process is resumed under a new solicitation number.				
Awarded	Contract award has been made to one or several awardees, in case of multiple awards. You can access through the system the content of the purchase order or contract. The tender, bid abstract and contracts awarded will remain published for several days.				

Tenders may be **Public, Negotiated or Small Purchase Procurements**. For further description of tendering processes, please refer to the **ACP Acquisition Regulation**.

How to register in the System?

Before you can submit a tender through the SLI, you shall register and complete the Bidders Registry. This registry is free of charge for the tenderer. All registrants will be held responsible for the information submitted. You are responsible for the safeguard of your identification code (ID) and password. If you forgot your password, please register again.

The **tenderer** is **the person or user who creates the entry in the system**, and who represents the company being registered. There may be more than one person or user authorized to bid on behalf of a single company.

The SLI will automatically use the information submitted at time of registration to complete the bid with company data. The information submitted can be updated at any time by accessing the **Registry Update** option.

Actividades Notas

9. The SLI assigns a number to your bid and saves it in the data base. Click: Print Bid to keep a copy of your bid for your files.

10. Print your bid and click to close the window.

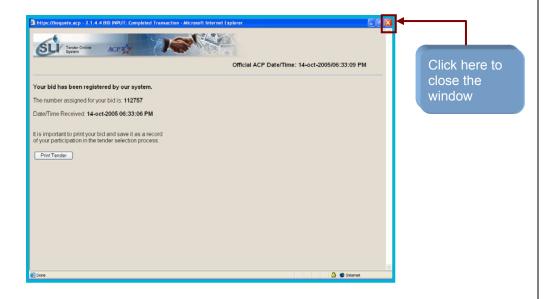

Keep this copy for your files. If the tender did not require the item offered specification, the footnote (1) will be displayed.

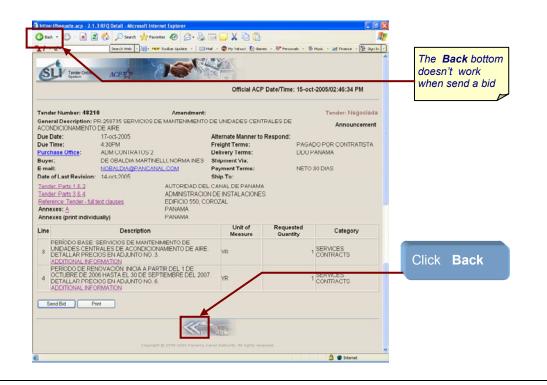

Actividades Notas

11. Click to close the window and return to the tender contend.

12. Click Back botton at the end of the window to return to the tenders list

It is important to use the option BACK button at the end of the window to return to the tenders list, after sending your bid. The Back or Return button of the navigator does not work after sending a bid.

How to access the Bid-Abstract?

The Bid-Abstract (ACR) contains a summary of bids received in the tendering process and the results of their evaluations.

Access to the BA (Bid Abstract) and the details of the proposals by the bid number will depend upon the type of solicitation process used. The following figure shows the different situations.

	Publica (Public)	Publica Presencial (Presential Public Bid Opening)	Negociada (Negotiated)	Micro Compra (Small Purchase)
When is it Published?	Bid opening date and time	BA Publication	Contract award	Contract award
When is the content of the bid accessible?	Yes	Yes	No	Yes

Steps for accessing the ACR

Activities Notes 1. Go to We Buy from the ACP web page and click Tenders Online **₩**We Buy The web page for We Buy is http://www.pancanal.com/eng/procsales/buy.html click over the tabs to display more information: Notifications of Information & Documents We recomend the use of Microsoft Internet Explorer v5.x or above Tenders Online 2 : Enter here to view the Bidders Registry 2: Register here to to disable pop-up participate in the Tenders Online System. blockers. Click Tenders <u>User's Guide</u> 🔁 Online.

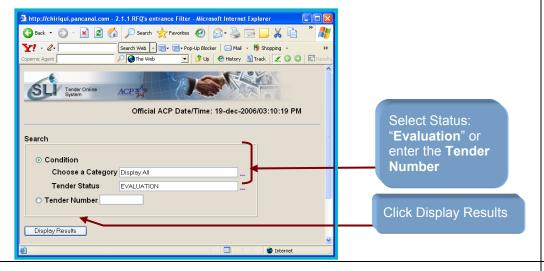

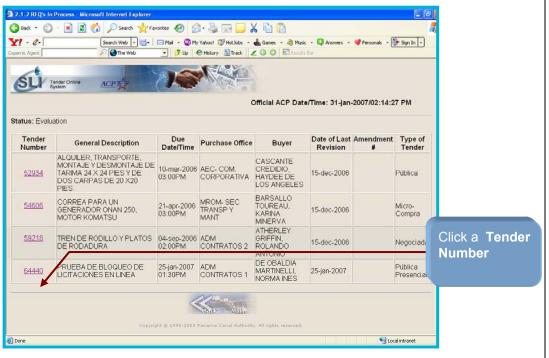

Steps for accessing the ACR

Activities Notes

 The search can be done by selecting an option (category and status) or the tender number. Select the option status EVALUATION or type the tender number and click Display Results.

3. If the search was by Condition, click a **Tender Number**. Follow step No. 5

When tenders are under **Evaluation**, you can only access the ACR for Public Tenders.

For Presential Public Bid Opening tenders, the bid abstract will be published as soon as the purchasing agent inputs the bids and proceed to publish it.

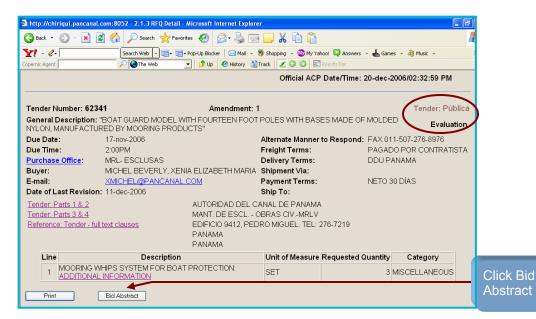

For negotiated and small purchase procurements, the ACR is published the date and time of contract award.
Please refer to: How to access the Bid-Abstract?

Steps for accessing the ACR

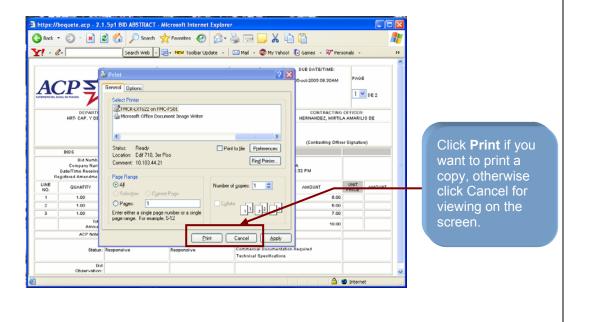

Activities Notes

4. If the search was by Tender Number, you can see the tender detail. Click on **Bid Abstract** to access the ACR.

The Bid Abstract key, will appear for Public Tenders under Evaluation or Cancellation After Opening Status.

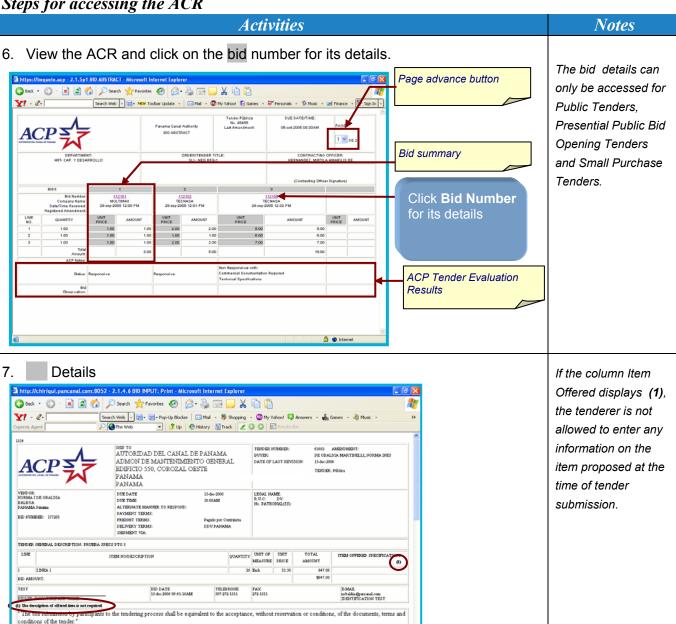

5. If you want to print the ACR, click **Print**, otherwise, click **Cancel**.
