CEMENT IN MAY 2008

This report provides monthly data on the shipments of cement to final customers, and the production of clinker, in the United States from January 2007 through the current month.¹ The current report contains extensive revisions to the data for, primarily, northern California and Puerto Rico. Data on the imports of cement and clinker for the current month are also provided.

Total shipments of portland and blended cement in the United States and Puerto Rico for May 2008 were about 9.2 million metric tons (Mt). This was about 18% lower than shipments in May 2007 (tables 2A and 2B). Year-to-date shipments were 38.0 Mt, down by about 13% from those of the same period in 2007. The leading producing States (Texas, California, Michigan, Florida, and Pennsylvania, descending order) shipped about 36% of the May total (table 1A). The leading consuming States (Texas, California, Florida, Illinois, and Ohio, in descending order) received about 36% of May's total shipments (tables 2A and 2B).

Clinker production totaled about 7.3 Mt, about 9% lower than the production in May 2007 (table 4). Year-to-date production

was 32.4 Mt, down by about 7% compared with that of the same period in 2007. The leading clinker-producing States (California, Texas, Alabama, Florida, and Pennsylvania, in descending order) produced about 44% of the May total.

Masonry cement shipments in May of about 287,000 metric tons (t) were about 35% lower than shipments for May 2007 (table 2C). Year-to-date shipments were 1.32 Mt, down by about 13% from those of the same period in 2007. The leading consuming States in May, in descending order, were Florida, Texas, California, Georgia, and North Carolina, and these States received about 46% of May's total shipments.

Tables 5, 6, and 7 contain import data from the U.S. Census Bureau. Data for clinker imports into the Seattle and possibly the Detroit customs districts are likely incomplete owing to some shipments arriving overland from Canada on an informal entry basis. May 2008 imports of cement and clinker were about 1.3 Mt, down by about 49% from imports in May 2007. Year-to-date imports were 5.1 Mt, down by about 47%.

An e-mail notification will be sent to MI-CEMENT list service subscribers when new publications or data releases become available. For more information, refer to USGS Minerals Information Publication List Services at: <http://minerals.usgs.gov/minerals/pubs/listservices.html>.

¹Footnoted revisions to the historical data are those received since the publication of the previous month's edition of this report. Data for the current month may contain revisions (not indicated by footnotes) received since the publication of the preliminary edition of the current month's report.

^PPreliminary.

¹Data are unrounded but are believed to be accurate to no more than three significant digits.

²Includes cement manufactured from imported clinker.

³Data may not add to totals shown because of independent rounding.

⁴As reported by domestic and Canadian cement manufacturers and other importers.

^PPreliminary.

¹Data are unrounded but are believed to be accurate to no more than three significant digits.

²Includes cement manufactured from imported clinker.

³As reported by domestic and Canadian cement manufacturers and other importers.

⁴Data may not add to totals shown because of independent rounding.

Total:					
Quantity	1,334,875	5,129,892			
Value ³	\$122,463,945	\$451,498,305			

-- Zero.

¹Includes white cement and clinker.

²Includes Puerto Rico.

³Value = c.i.f. (cost, insurance, and freight).

⁴Data for the Seattle and Detroit districts for imports from Canada are believed to be underrepresented with respect to clinker.

Source: U.S. Census Bureau.
