Section I

Products And Services

This section summarizes the sale and distribution of EDC products in fiscal year 1994, in which EDC produced and distributed over \$7.1 million worth of products and services. Of the total, over \$2.8 million were direct repay sales and \$2.6 million were products and services provided through EDC cooperative repay projects, for a "reimbursable" total of over \$5.4 million. The remaining \$1.7 million were for products and services distributed to users within the U.S. Geological Survey, including EDC users, other National Mapping Division facilities, and other divisions of the USGS. More than 33,600 user inquiries were received during the year, and over 18,200 orders were filled.

Section III

EROS Data Center Archives and Data Bases

This section describes those data archives, both digital and photographic, that are maintained by EDC to preserve and reference remotely sensed, cartographic, and earth science data. In addition, several data bases reference data held elsewhere that are of interest to EDC customers.

As of the end of fiscal year 1994, the Data Center archived over 10.4 million frames of photographic data and over 179,000 tapes. This included about 2.9 million frames of Landsat photographic data and nearly 80,000 Landsat data tapes. The International Landsat Data Base maintained by EDC referenced nearly 900,000 Landsat scenes archived in the United States, and over 2.25 million scenes of Landsat data held by foreign ground stations.
