

U.S. Fish & Wildlife Service

Fisheries Volunteers and Student Employment/Experience Programs

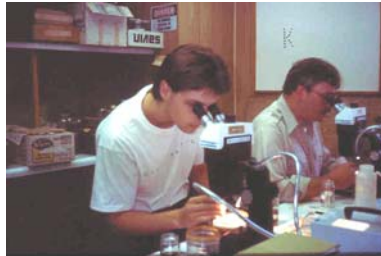

Volunteers...

Spend Time With Us

Volunteers are welcome to assist in many of our fisheries program activities. Some work full time, some a few hours per week or month. Your individual talents and skills will be appreciated and always put to good use!

For more information, please visit:

Student volunteering in lab sorting invertebrates to assist the Marquette Biological Station, Marquette MI.

Workforce Management

Student Career Experience Programs...

Develop A Career With Us

The **Student Temporary Employment Program** (STEP) was designed to introduce talented students to the advantages and challenges of working for the Federal Government.

The **Student Career Experience Program** (SCEP) was established to recruit high quality employees into the Federal Service.

If you are interested in temporary employment which supports the protection and conservation of fish and their habitats, perhaps the STEP and SCEP programs are for you.

La Crosse FRO volunteers retrieve gill net from Chippewa River as WI DNR staff use dip nets to capture lake sturgeon for tagging

For more information, please visit:
