Crews from the Bureau of Land Management Billings Field Office plan to burn slash piles in the Horsethief Creek area west of Roundup from Wednesday through Saturday this week so smoke may be visible in the area. The slash is a by-product of an ongoing fuel reduction project in the Horsethief area.

Crews also plan to do some burning at the Sundance Lodge recreation area near Laurel on Wednesday and Thursday. The burns will only be conducted if weather conditions meet certain criteria.

For more information, contact the Billings Field Office at 896-5013.
