Section B — Distribution of Sales or Gross Operating Revenues — See *Additional Instructions* for Part II, Section B, on page 10 at the back of this form.

Distribute sales or gross operating revenues among three categories – sales of goods, sales of services, and investment income. For the purpose of this distribution, "goods" are normally economic outputs that are tangible and "services" are normally economic outputs that are intangible. When a sale consists of both goods and services and cannot be unbundled (i.e., the goods and services are not separately billed), classify the sales as goods or services based on whichever accounts for a majority of the value. Give best estimates if actual figures are not available. Insurance companies also see **Special Instructions, B.3.d. and e., page 12.**

Section C — Number of Employees and Employee Compensation — See *Additional Instructions* for Part II, Section C, on page 10 at the back of this form.

NUMBER OF EMPLOYEES — Employees on the payroll at the end of FY 2007 including part-time employees, but excluding temporary and contract employees not included on your payroll records. A count taken at some other date during the reporting period may be given provided it is a reasonable estimate of employees on the payroll at the end of FY 2007. If the number of employees at the end of FY 2007 (or when the count was taken) was unusually high or low due to temporary factors (e.g., a strike), enter the number of employees that reflects normal operations. If the number of employees fluctuates widely during the year due to seasonal business variations, report the average number of employees on the payroll during FY 2007. Base such an average on the number of employees on the payroll at the end of each pay period, month or quarter. If precise figures are not available, give your best estimate.

EMPLOYEE COMPENSATION — Sum of **wages and salaries** and **employee benefit plans**. Expenditures made by an employer in connection with the employment of workers, including cash payments, stock based compensation, payments in-kind, and employer expenditures for employee benefit plans including those required by statute. Base compensation data on payroll records. Report compensation which relates to activities that occurred during the reporting period regardless of whether the activities were charged as an expense on the income statement, charged to inventories, or capitalized. DO NOT include amounts related to activities of a prior period, such as those capitalized or charged to inventories in prior periods.

Part III — U.S. EXPORTS TO AND U.S. IMPORTS FROM MAJORITY-OWNED FOREIGN AFFILIATE

Goods only valued f.a.s. at port of exportation; do not include services — See Instruction Booklet, Part V.

IMPORTANT NOTES

Report U.S. exports of goods to and U.S. imports of goods from the foreign affiliate in FY 2007. Report all goods that physically left or entered the U.S. customs area. Report data on a "shipped" basis, i.e., on the basis of when and to (or by) whom the goods were shipped. This is the same basis as official U.S. trade statistics to which these data will be compared. Do **not** record a U.S. import or export if the goods did not physically enter or leave (i.e., were not physically shipped to or from) the United States, even if they were charged to the foreign affiliate by, or charged by the foreign affiliate to, a U.S. person.

Foreign affiliates normally keep their accounting records on a "charged" basis, i.e., on the basis of when and to (or by) whom the goods were charged. The "charged" basis may be used if there is no material difference between it and the "shipped" basis. If there is a material difference, the "shipped" basis must be used or adjustments made to the data on a "charged" basis to approximate a "shipped" basis. The data should include goods only; they should exclude services.

Capital goods — Include capital goods but exclude the value of ships, planes, railroad rolling stock, and trucks that were temporarily outside the United States transporting people or goods.

Consigned goods — Include consigned goods in the trade figures when shipped or received, even though they are not normally recorded as sales or purchases, or entered into intercompany accounts when initially consigned.

In-transit goods — Exclude from exports and imports the value of goods that are in-transit. In-transit goods are goods that are not processed or consumed by residents in the intermediate country(ies) through which they transit; the in-transit goods enter that country(ies) only because that country(ies) is along the shipping lines between the exporting and importing countries. In-transit goods are goods en route from one foreign country to another via the United States (such as from Canada to Mexico via the United States), and in-transit exports are goods en route from one part of the United States to another part via a foreign country (such as from Alaska to Washington State via Canada).

Packaged general use computer software — Include exports and imports of packaged general use computer software. Value such exports and imports at the full transaction value, i.e., the market value of the media on which the software is recorded and the value of the information contained on the media. Do not include exports and imports of customized software designed to meet the needs of a specific user. This type of software is considered a service and should not be included as trade in goods. Also do not include negotiated leasing fees for software that is to be used on networks.

Natural gas, electricity, and water — Report **ONLY** the product value of natural gas, electricity, and water that you produce or sell at wholesale as exports and imports of goods. **DO NOT** report the service value (transmission and distribution).

97. On what basis were the trade data in the section prepared? — Mark (X) one.

- 4172 1 "Shipped" basis
 2 "Charged" basis without adjustments, because there is no material difference between the "charged" and "shipped" bases.
 3 "Charged" basis with adjustments to correct for material differences between the "charged" and "shipped" bases.

2007 ANNUAL SURVEY OF U.S. DIRECT INVESTMENT ABROAD
FORM BE-11B(LF)
ADDITIONAL INSTRUCTIONS BY ITEM

Part I — IDENTIFICATION OF FOREIGN AFFILIATE

3. Country of location — If the affiliate is engaged in petroleum shipping, other water transportation, or oil and gas drilling, and has operations spanning more than one country, use country of incorporation for country of location. For example, classify in country of incorporation an oil drilling rig that moves from country to country during the year.

6. Ownership by U.S. Reporter named in item 1.

Equity interest is the U.S. Reporter's direct ownership in the total equity (voting and nonvoting) of the affiliate. Examples of nonvoting equity include nonvoting stock and a limited partner's interest in a partnership.

Voting interest is the U.S. Reporter's direct ownership in just the voting equity of the affiliate. Examples of voting equity include voting stock and a general partner's interest in a partnership. Thus, a U.S. Reporter could have a 100 percent direct voting interest in an affiliate but own less than 100 percent of the affiliate's total equity.

24.—32.

Sales or gross operating revenues of foreign affiliate, by industry of sales or gross operating revenues. See **Additional Instructions** for Part II, Section A, item 34 below.

Holding companies (ISI code 5512) must show total income as reported in item 39. To be considered a holding company, income from equity investments (items 35 and 36) must be more than 50 percent of total income (item 39). In addition, normally at least 50 percent of total assets must consist of investments in affiliates. ISI code 5512, (holding company), is an invalid classification if more than 50 percent of income generated, or expected to be generated, by an affiliate is from non-holding company activities.

Dealers in financial instruments and finance, insurance, and real estate companies see **Special Instructions** on page 12.

Part II — FINANCIAL AND OPERATING DATA OF FOREIGN AFFILIATE

• Section A — Income Statement

34. Sales or gross operating revenues, excluding sales taxes —

Report gross operating revenues or gross sales minus returns, allowances, and discounts. Exclude sales or consumption taxes levied directly on the consumer. Exclude net value-added and excise taxes levied on manufacturers, wholesalers, and retailers. Include revenues generated during the year from the operations of a discontinued business segment, but exclude gains or losses from disposals of discontinued operations. Report such gains or losses on page 4, item 37. Affiliates classified in ISI codes 5223, 5224, 5231, 5238, 5252 and 5331 report interest income on this line. Insurance companies with ISI codes 5243 and 5249 should include gross investment income in this item. Dealers in financial instruments and finance, insurance, and real estate companies see **Special Instructions** on page 12.

35. Income from equity investments in foreign affiliates —

Report income from equity investments shown in item 64 of all foreign affiliates whether or not they are required to file a form BE-11B. Do not report interest income here. Report interest in item 34 or 38 as appropriate.

36. Income from other equity investments — Report income from equity investments included in item 65. Do not include interest income here. Report interest in item 34 or 38 as appropriate.

38. Other income — Report non-operating and other income not included in items 34—37.

40. Cost of goods sold or services rendered and selling, general, and administrative expenses — Report operating expenses that relate to sales or gross operating revenues (item 34) and selling, general, and administrative expenses. Include production royalty payments to governments, their subdivisions and agencies, and to other persons. Include depletion charges representing the amortization of the actual cost of capital assets but exclude all other depletion charges. Companies with ISI codes 5223, 5224, 5231, 5238, 5252 and 5331 should include interest expense.

41. Foreign income taxes — Exclude production royalty payments and U.S. income taxes.

42. Other costs and expenses not included above, including minority interests in income (loss) that arise out of consolidation — Report the net effect of any minority interest in the income and expense items as a lump sum in this item.

• Section B — Distribution of Sales or Gross Operating Revenues

47.—50.

Disaggregate the total sales or gross operating revenues into sales of goods, investment income, and sales of services.

48. Sales of goods — Goods are normally economic outputs that are tangible. Report as sales of goods:

- Mass produced media, including exposed film, video tapes, DVD's, audio tapes, and CD's.
- Books, NOTE: Book publishers — To the extent feasible, report as sales of services all revenues associated with the design, editing, and marketing activities necessary for producing and distributing books that you both publish and sell. If you cannot unbundle (i.e., separate) these revenues from the value of the books you sell, then report your total sales as sales of goods or services based on the activity that accounts for a majority of the value.

- Energy trading activities where you take title to the goods. NOTE: If you act in the capacity of a broker or agent to facilitate the sale of goods and you do not take title to the goods, report your revenue (i.e., commissions) as sale of services in item 49.
- Magazines and periodicals sold in retail stores. NOTE: Report subscription sales as sales of services in item 49.
- Packaged general use computer software
- Structures sold by businesses in real estate.
- Revenues earned from building structures by businesses in construction
- Electricity, Natural gas, and Water NOTE: Revenues derived from transmitting and/or distributing these goods, as opposed to revenues derived from the sale of the actual product, should to the extent feasible, be reported as sales of services in item 49.

49. Sales of services — Services are normally economic outputs that are intangible. Report as sales of services:

- Advertising revenue.
- Commissions and fees earned by companies engaged in finance and real estate activities.
- Premiums earned by companies engaged in insurance activities. NOTE: Calculate as direct premiums written (including renewals) net of cancellations, plus reinsurance premiums assumed, minus reinsurance premiums ceded, plus unearned premiums at the beginning of the year, minus unearned premiums at the end of the year.
- Commissions earned by agents or brokers (i.e., wholesalers) who act on behalf of buyers and sellers in the wholesale distribution of goods. NOTE: Agents or brokers do not take title to the goods being sold.
- Magazines and periodicals sold through subscriptions. NOTE: Report magazines and periodicals sold through retail stores, as sales of goods in item 48.
- Newspapers.
- Pipeline transportation.
- Software downloaded from the Internet, electronic mail, an Extranet, an Electronic Data Interchange network, or some other online system.
- Computer systems design and related services.
- Negotiated licensing fees for software to be used on networks.
- Electricity transmission and distribution, natural gas distribution, and water distribution.

Report the source of real estate rental income in columns 2 through 7 based on the location of the property.

50. Investment income — Report dividends and interest generated by finance and insurance activities as investment income. NOTE: Report commissions and fees as sales of services in item 49.

Finance or insurance companies that include investment income in gross operating revenues should report the source of such investment income in columns 2 through 7 based on the location of the issuer of the financial instrument whether publicly issued or privately placed. If the location of the issuer is unknown, then substitute the nationality of the issuer. If both the location and nationality of the issuer are unknown, and an intermediary (e.g., trustee, custodian, or nominee) is used to manage the investment (financial instrument or real estate) use the country of location of the intermediary.

**SPECIAL INSTRUCTIONS FOR DEALERS IN FINANCIAL
INSTRUMENTS, FINANCE COMPANIES, INSURANCE
COMPANIES AND REAL ESTATE COMPANIES**

A. Certain realized and unrealized gains (losses) for (1) dealers in financial instruments and finance and insurance companies, and (2) real estate companies.

1. Dealers in financial instruments (including securities, currencies, derivatives, and other financial instruments) and finance and insurance companies — Include in item 37:

- impairment losses as defined by FAS 115,
- realized gains and losses on trading or dealing,
- unrealized gains or losses, due to changes in the valuation of financial instruments, that flow through the income statement, and
- goodwill impairment as defined by FAS 142.

EXCLUDE from item 37, unrealized gains or losses due to changes in the valuation of financial instruments that are taken to other comprehensive income. Reflect such changes in item 74 (all other components of accumulated other comprehensive income (loss)).

EXCLUDE from item 37, income from explicit fees and commissions. Include income from these fees and commissions as operating income in items 32 and 34 and as sales of services in item 49.

2. Real estate companies — Include in item 37:

- impairment losses, as defined by FAS 144 and
- goodwill impairment as defined by FAS 142.

EXCLUDE the revenues earned and expenses incurred from the sale of real estate you own. Such revenues should be reported as operating income in items 32, 34, and 47 and as sales of goods in item 48. Such expenses, including the net book value of the real estate sold, should be reported as costs of goods sold in item 40. Do not net the expenses against the revenues.

B. Special Instructions for insurance companies

1. When there is a difference between the financial and operating data reported to the stockholders and the data reported in the annual statement to an insurance department, prepare the BE-11 on the same basis as the annual report to the stockholders. Valuation should be according to normal commercial accounting procedures, not at rates promulgated by national insurance departments, e.g., include assets not acceptable for inclusion in the annual statement to an insurance department, such as:
 1. non-trusted or free account assets and
 2. nonadmitted assets, including furniture and equipment, agents' debit balances, and all receivables deemed to be collectible. Include mandatory securities valuation reserves that are appropriations of retained earnings in the owners' equity section of the balance sheet not in the liability section.

2. Do not include assets of the U.S. Reporter held in the country of location of the affiliate that are for the benefit of the U.S. Reporter's policyholders.
