OAllocation of State Workforce Appropriations \$~650 м

Using LEHD to Analyze Questions

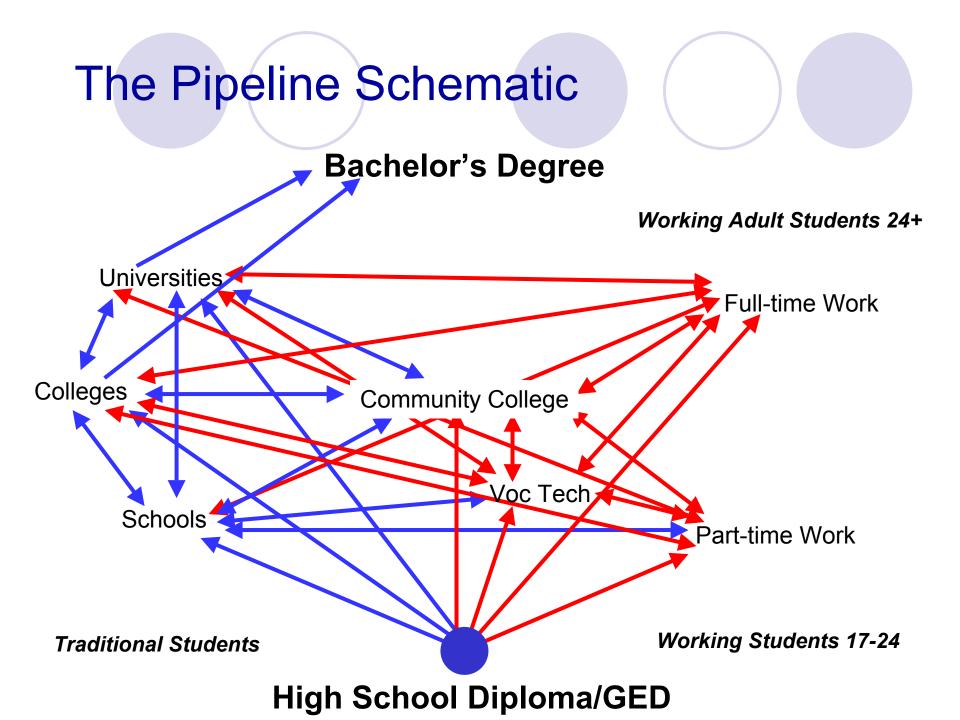

Current LEHD/Florida Products

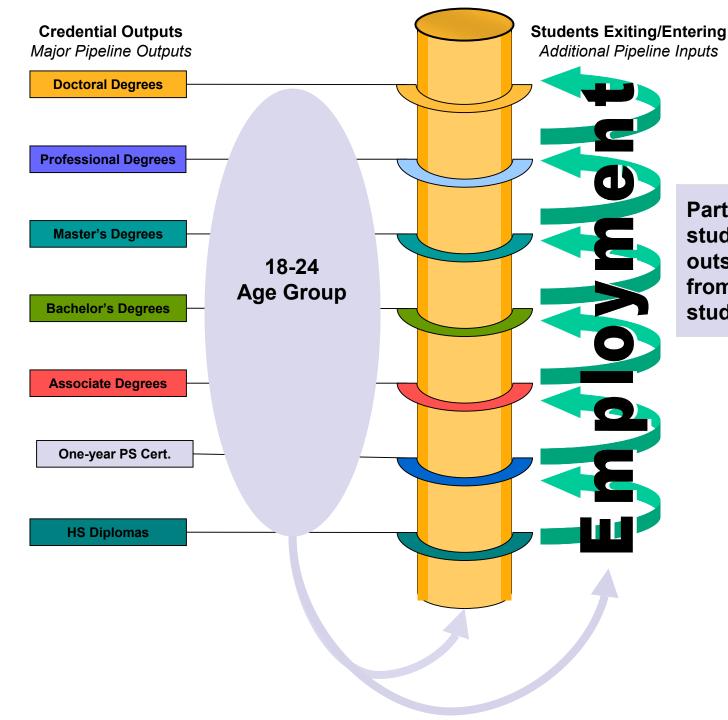

- Workforce Composition
- Earnings
- Turnover

Potential LEHD/Florida Products

- Academic Attainment Level
- Educational Requirements
 - Correlation of Educational Level
 - to regional Needs
 - to worker Needs

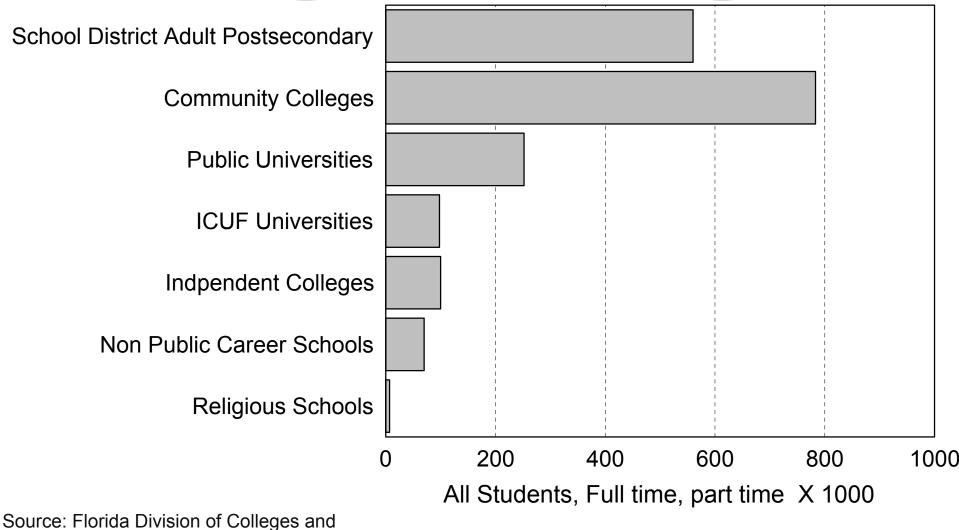

Assess and Plan Education Delivery Methods

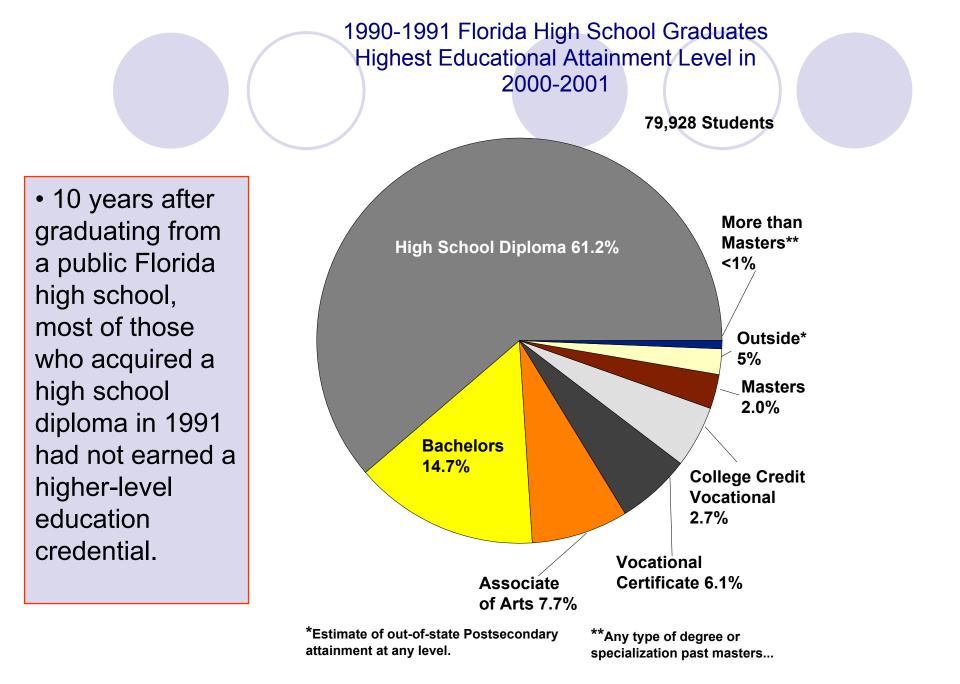

Part time traditional students, stop in/stop outs, students entering from out of state, students >24 years old.

Approximate Postsecondary Enrollments by Sector

Universities

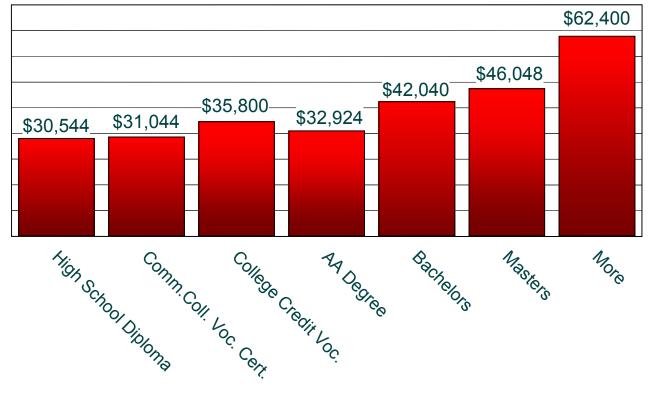

Source: FETPIP Longitudinal

 Florida's graduates earn salaries that increase as they attain higher levels of educational credentials.

• Earnings for high school graduates in 1991, started at about \$11,800 per year for full time work. Each year after graduation, the amount increased, but began to level off in 1997-98.

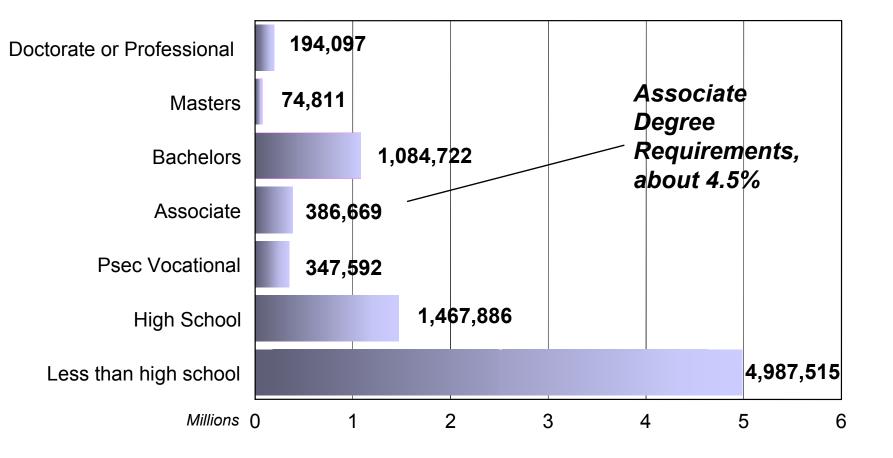

Florida Public High School Class of '91 Highest education credential attained through 2001

Earnings: October - December 2001 Quarter

Source: FETPIP Longitudinal, 1990-91 Florida Public High School Graduates. Note that the earnings levels, while annualized in this chart, are based on the earnings of former students during the fall quarter of 2001 in Florida.

Projected Florida Employment in 2009 by Educational Attainment Requirements

Based on *Number* Employed
