

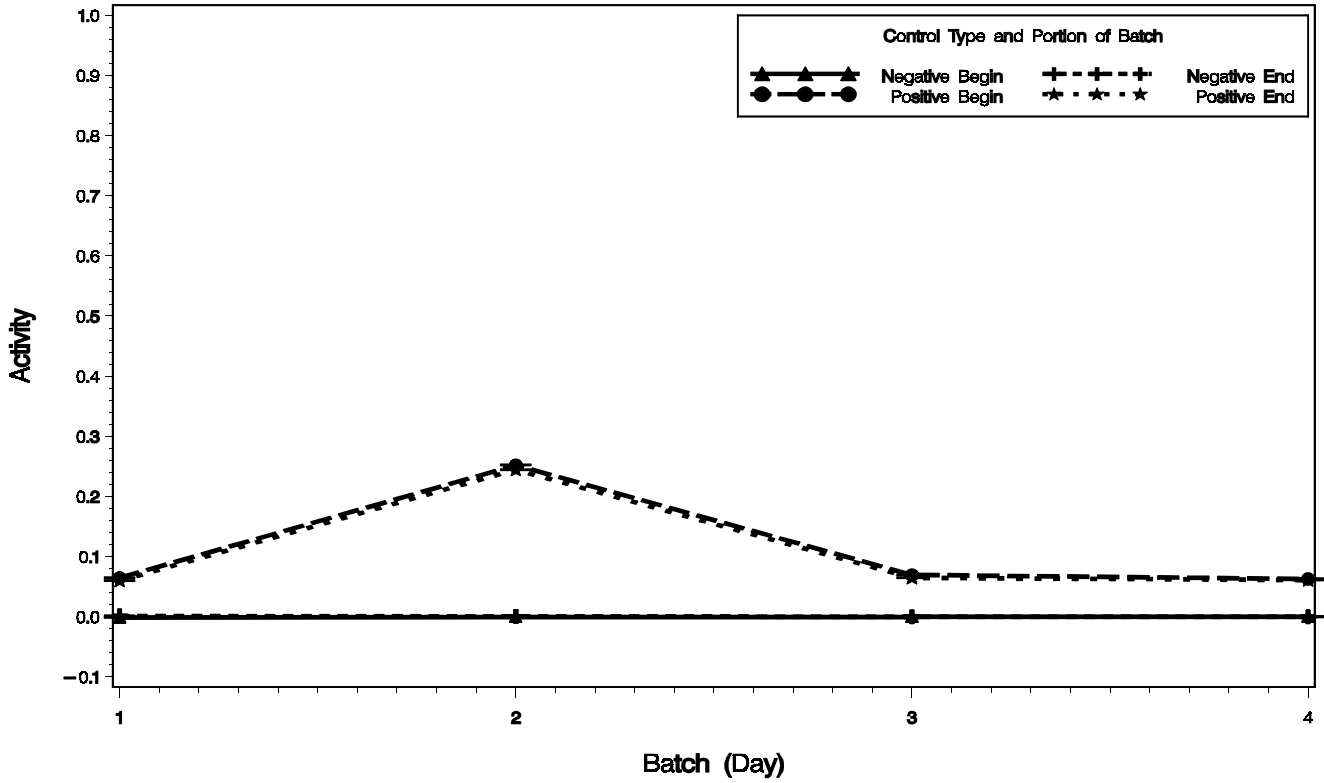

Figure 9. Graphic Presentation of Control Means and Standard Deviations

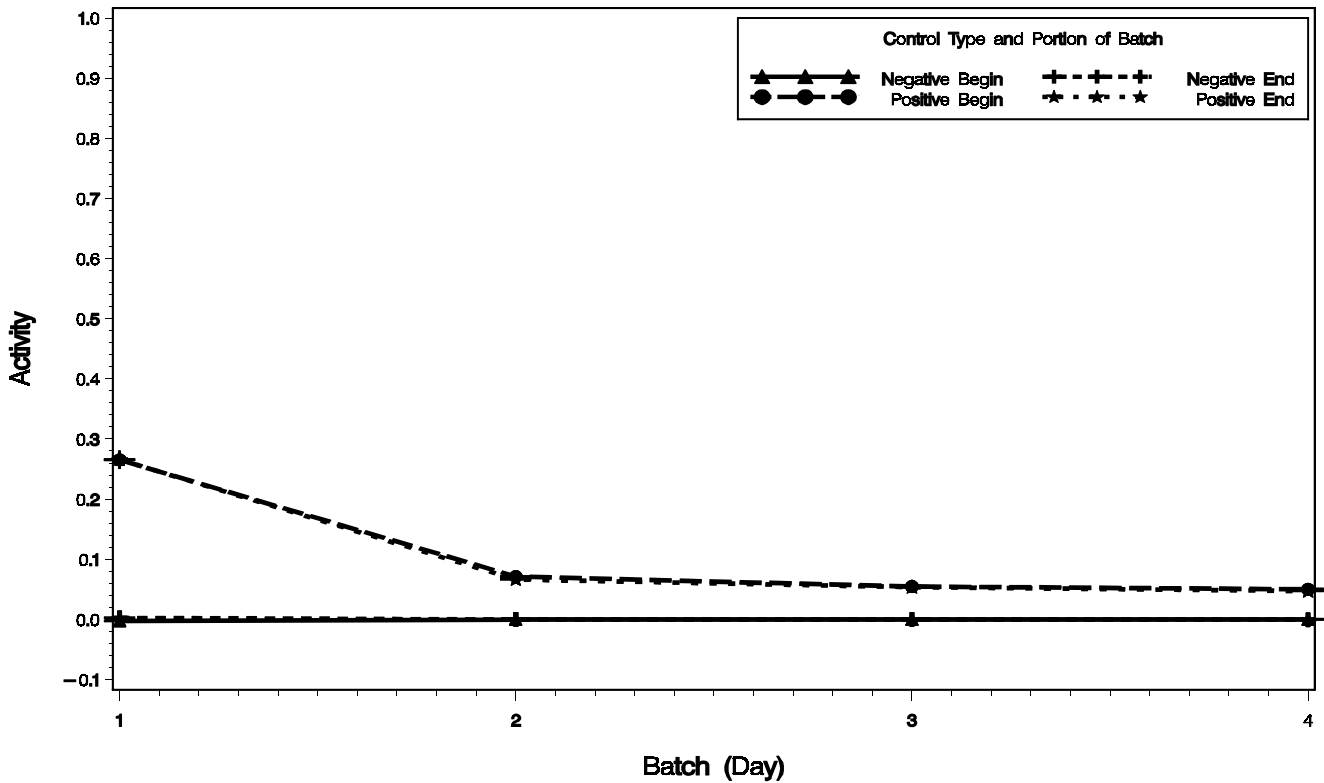

**Means and Standard Deviations of Activity by Batch and Portion**

Microsome Type=Placental Group=1

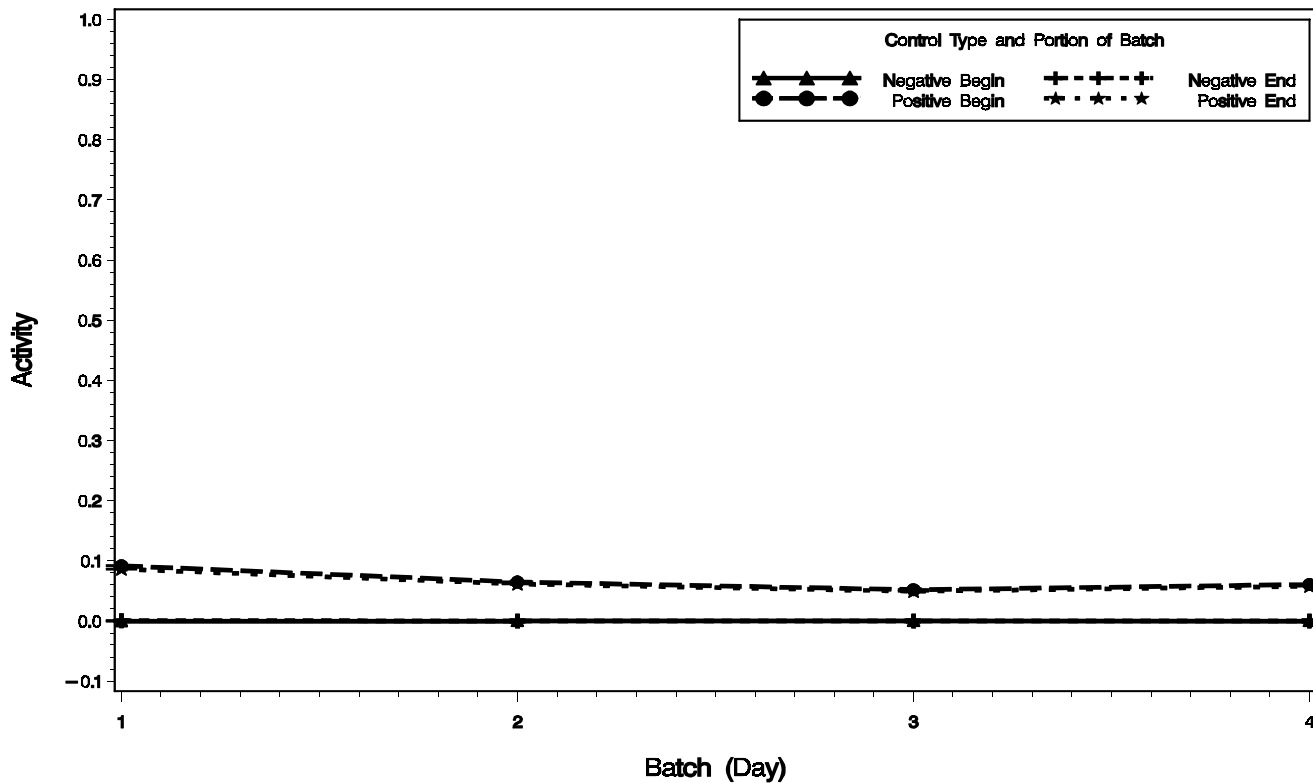

**Means and Standard Deviations of Activity by Batch and Portion**

Microsome Type=Placental Group=2

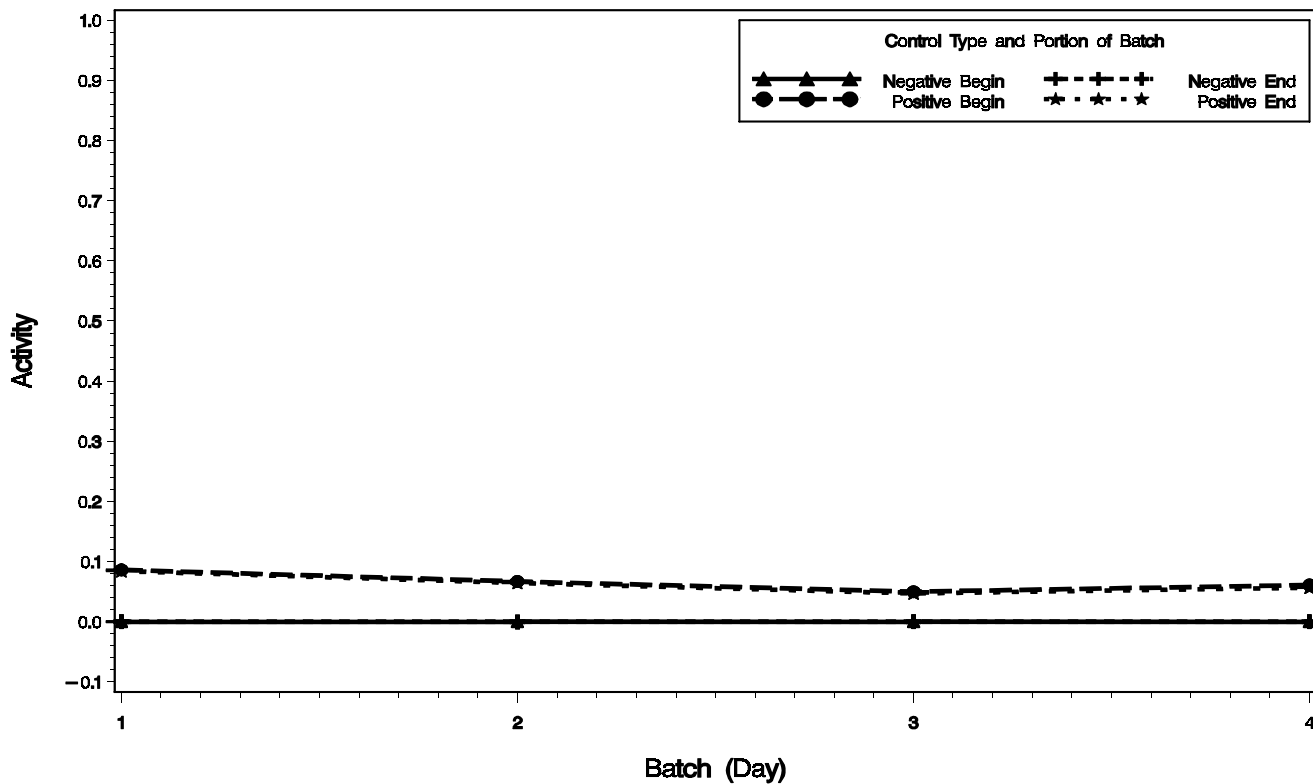

### Means and Standard Deviations of Activity by Batch and Portion

Microsome Type=Placental Group=3-DMSO

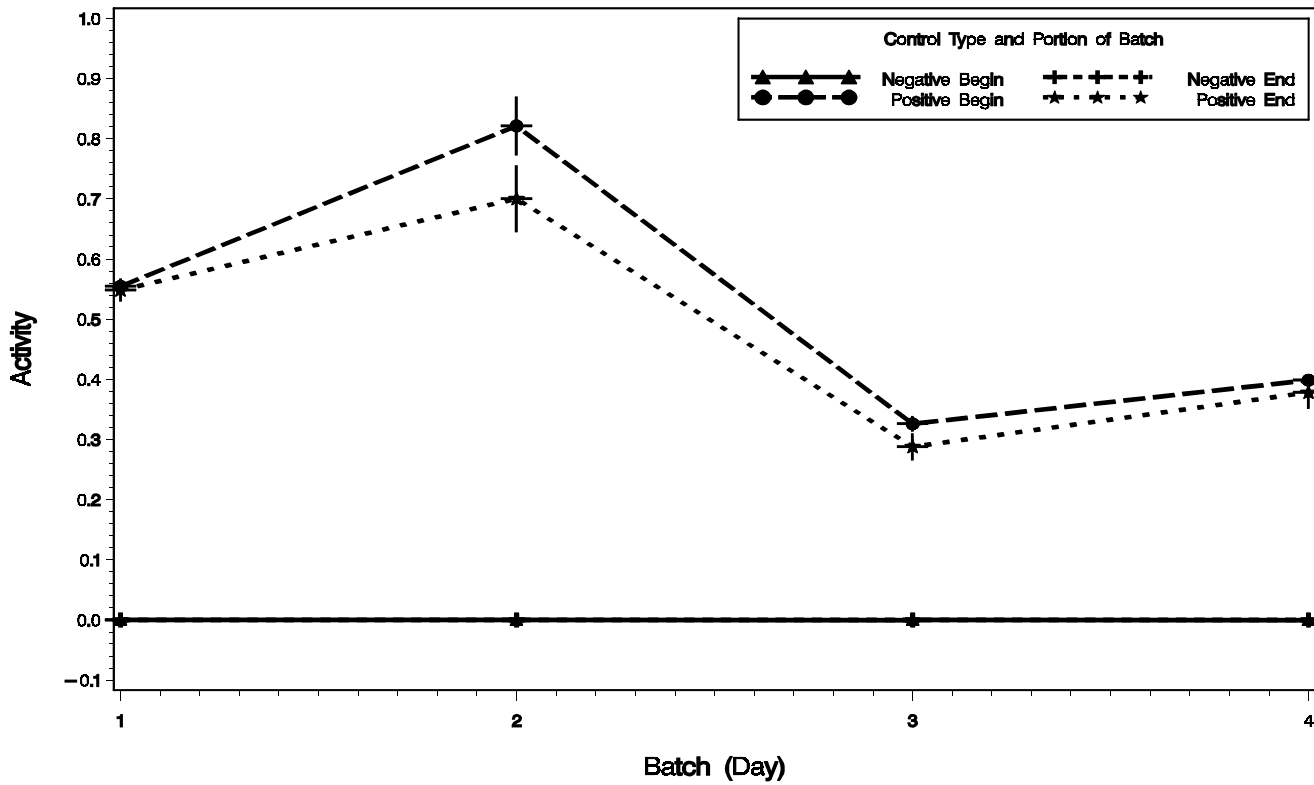

### Means and Standard Deviations of Activity by Batch and Portion

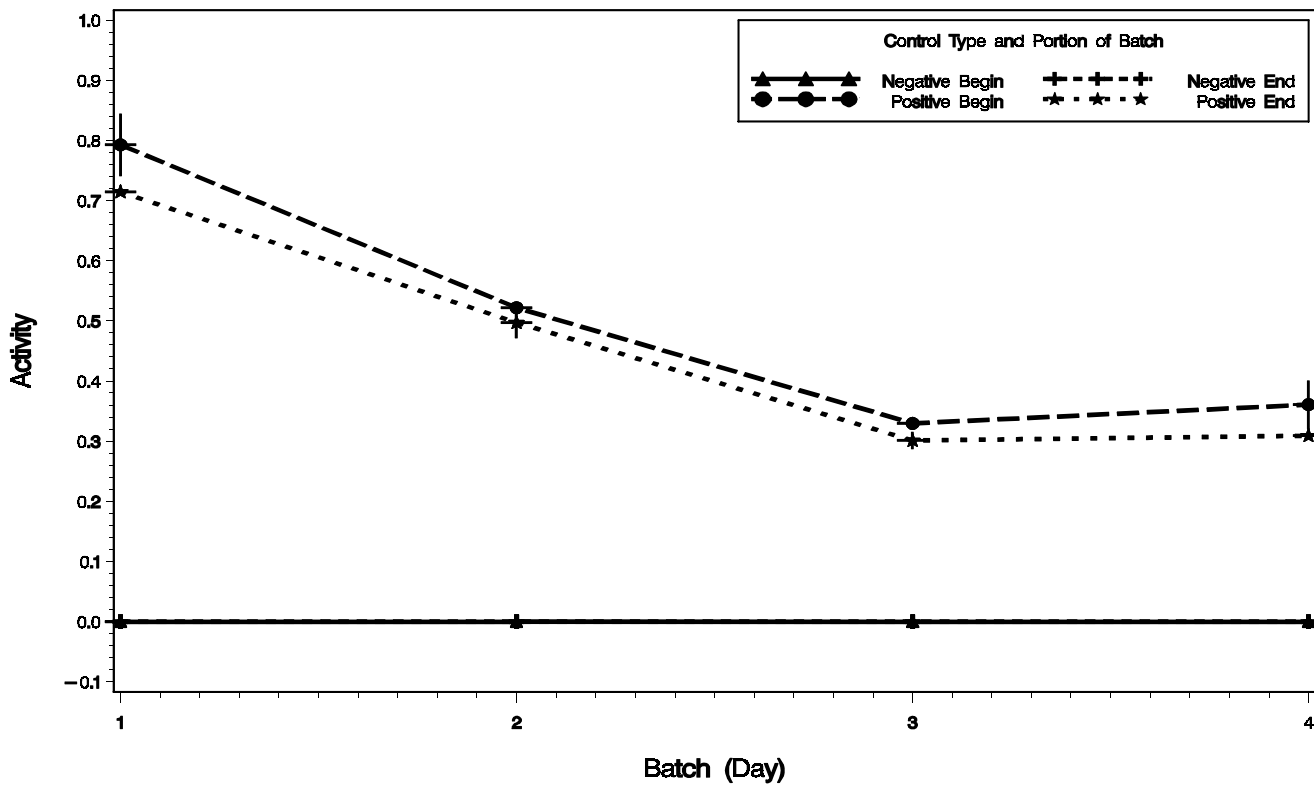

Microsome Type=Placental Group=3-ETOH

Means and Standard Deviations of Activity by Batch and Portion  
 Microsome Type=Recombinant Group=1

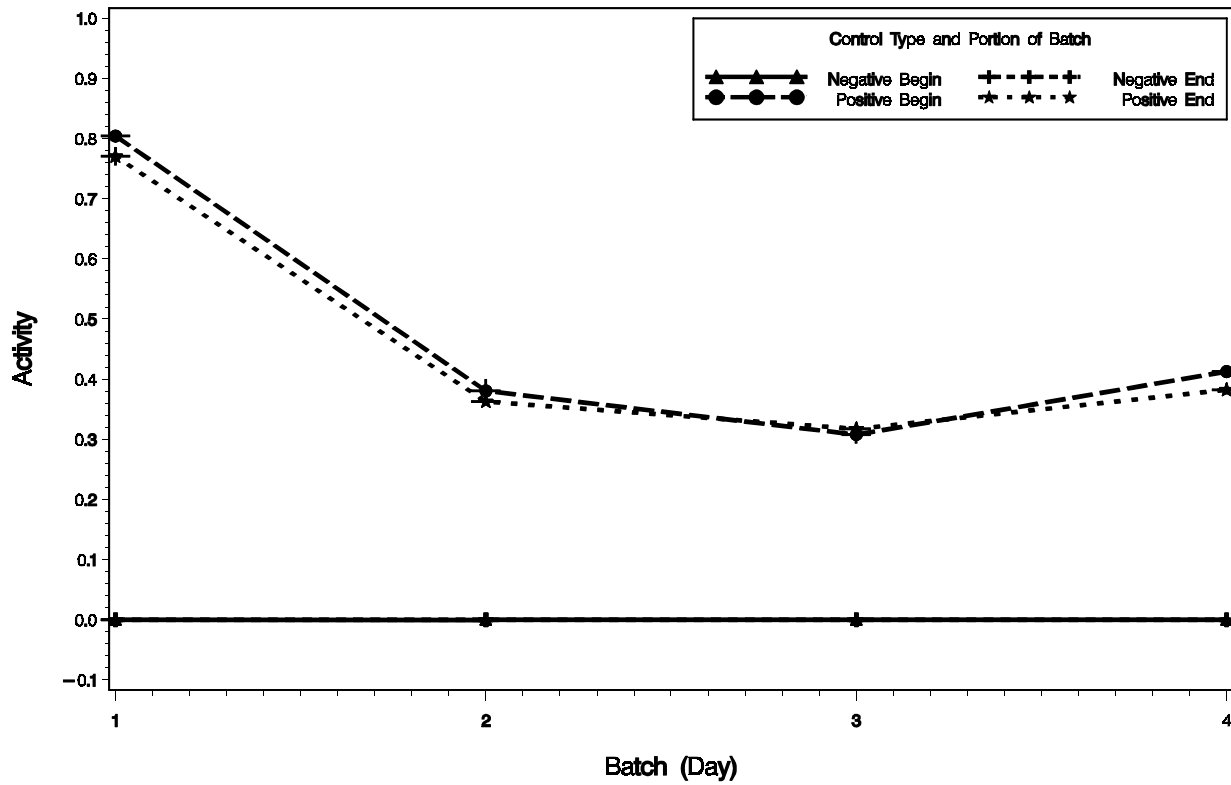

Means and Standard Deviations of Activity by Batch and Portion  
 Microsome Type=Recombinant Group=2

### Means and Standard Deviations of Activity by Batch and Portion

Microsome Type=Recombinant Group=3-DMSO

### Means and Standard Deviations of Activity by Batch and Portion

Microsome Type=Recombinant Group=3- EtOH
