Re: Copper Scrap Petition

Dear Mr. Lichtenbaum:

As a brass & bronze foundry in Pennsylvania, our company has been directly affected by the volatile market conditions for copper scrap and copper alloy scrap. Over the past three months alone, we have seen our materials costs increase by no less than 12%.

We believe that much of the increase in these costs is due to unbridled growth in demand and anti-competitive trade policies of the Chinese government. Accordingly, we support the **Petition For The Imposition Of Monitoring And Controls With Respect To Exports From The United States Of Copper Scrap And Copper Alloy Scrap** filed by the Copper & Brass Fabricators Council and the Non-Ferrous Founders' Society on April 7th.

We therefore respectfully request that the Commerce Department accept this petition and initiate the investigations necessary to determine whether the remedies requested in that petition are justified.

Sincerely,

Holger Schweisthal
President
PIAD Precision Casting
