

Bid List 0555

SPECIFICATION

PROPERTY NO. 17352-5

BRONZE, ROLL LEAF FOIL

Width..... 23 to 24 inches (584.2 to 609.6 mm)
Length..... Approximately 400 feet (121.0 m) Rolls are to have a three-foot lead and a four-foot tail.
Gloss..... 50-60 units, Gardner Specular Gloss, 75° when stamped on Document Tan Buckram, GPO Property No.01729-9 using 39.0 unit calibration standard.
Color..... To match GPO standard foil, available on request,

QUALITY: Rolls should be mylar backed, sized, of good quality, suitable for use on inked panels, bookcloth, buckram and other bookbinding fabrics; prepared for use on automatic feed attachment for a stamping press; must have good release, and clearness of detail when stamped.

Sample Requirement: A 12 inch (304.4 mm) wide and 50 foot (15.2 m) long sample roll of the product that the bidder proposes to furnish shall be supplied. Once the product is accepted as satisfactory, it will be placed on a Qualified Product List for this item and no additional sample will be required on future bids unless the formulation or new products will tested and if qualified will not be considered for the current request, rather for future procurement of this item.

The following products have already met the above specifications and have been placed on the Qualified Product List:

- M Swift and Sons Inc. - Product No. B 41001
- Foilmark, Inc. - Product No. DGG-400
- CFC International - Product ID CEX26091
