The General Products Center . . .

Providing You With a Wide Variety of Diverse Products is Our Business!

Looking to BE FIT?

You've come to the right place. The General Products Center carries the latest and greatest in fitness equipment at best value prices. Give us a call. You'll be glad you did.

There are many other common, as well as unusual products purchased by the Center in support of all Federal agencies and their missions.

The Variety is Limitless!

Not only do we carry the latest in fitness equipment but the General Products Center also carries a broad range of brand-name products and services not carried by other GSA Acquisition Centers — and the variety is limitless! If you can't find it anywhere else, you will most likely find it at the General Products Center. We have a staff of energetic knowledgeable people ready to assist you in finding solutions to your product needs. We carry a wide variety of items from a simple coffee cup to an inflatable boat. We are the world wide supplier of the products and services you need.

Products offered by the General Products Center can be essentially divided into two categories:

- Industrial products
- Morale, welfare and recreational (MWR)

Industrial Products

Industrial products include: material handling equipment, forklifts, fire fighting equipment and supplies, auto repair shop equipment, above ground storage tanks, generators, alarm and signal systems, pre-fab structures, warehouse storage units, batteries, energy efficient products, chillers, recycling collection containers, waste receptacles, janitorial and cleaning supplies, signs, etc.

Morale, Welfare and Recreational

In support of the morale, welfare and recreational needs of personnel in the Department of Defense and civilian agencies, products offered include: boats, mountain bikes, water filtration systems, food service equipment and supplies, musical instruments, televisions, athletic equipment and supplies, playground equipment, law enforcement equipment and supplies, trophies, recruiting aids and promotional materials, flags, household furnishings, etc.

*We can find it, order it,
expedite it, and ship it.*

It's that easy!

These products are available to you under several methods of supply — Stock, Federal Supply Schedules or through our Special Order Program. However, there is no need for you to try to guess which program carries an item you need—just call us and we'll let you know. (817) 978-4545

Our Staff is Waiting to Hear From You

The General Products Center's experienced staff of customer service representatives is committed to providing you with the exceptional service you deserve. Our professional staff can handle just about any situation or problem and find a solution fast. We can find it, order it, expedite it, and ship it. It's that easy! Take a look at our services:

- Provide status of requisitions
- Provide product availability
- Take emergency orders
- Accept orders and provide status of orders over the Internet
- Accept GSA *Advantage!*TM credit card orders
- Provide information on national stock numbers or products
- Expedite orders

For more information about any of our services, give us a call:

Or, visit our website at:
www.gsa.gov/regions/7fss/7fx/index.htm

And don't forget, you can shop on-line through GSA *Advantage!*TM on
<http://www.fss.gsa.gov>.

Finally, general questions can be addressed to Genni Brown, Director, Customer/Vendor Relations,
(817) 978-4543, Fax (817) 978-3761,
Internet: genni.brown@gsa.gov

Be Fit! Use Federal Supply Schedule 78, Part I, Section A

Everything needed to support morale, welfare and recreational initiatives is included under Federal Supply Schedule 78, Part I, Section A (Athletic and Recreational Equipment; Crafts and Hobbies; Toys and Preschool Aids; and Theatrical Equipment and Supplies). With annual sales at \$50 million, we know that the brand name products offered are in demand. Brands available include: Life Fitness, Nautilus, Quinton, National, BSN, Wilson, Riddell, Rawlings, American, Nordic Track, Universal, USA, Pro Star Sports, Champion, Western Golf, Everlast, Childcraft, All American ABC, and Discovery Toys, to name a few.

If it's time for new equipment for that gym, to replace those worn out golf clubs at the golf course, or to update equipment at the youth recreational center, you'll find the latest technology in equipment - at the best prices around - on Schedule 78 I A.

Products available include:

-- Exercise, fitness and weight training equipment and supplies,

-- Golf equipment and supplies,
-- Table tennis equipment and supplies,
-- Amusement devices and games,
-- Billiard equipment and supplies,
-- Swimming pool equipment and supplies,

-- Mats:
Floor, Wall
and Post

-- Baseball, basketball, football, boxing, wrestling, judo, gymnastics, soccer, handball, racquetball, track and field, volleyball, and tennis equipment and supplies,

-- Toys and preschool aids,
-- Craft and hobby supplies and more!

Give us a call, we'll do all we can to make your search as easy as possible.

Athletic and Recreational Clothing/Footwear

Look what's new under Federal Supply Schedule 84, Part V, Section A: name brand recreational clothing and footwear for baseball, softball, basketball, football, soccer, tennis, gym, hockey, skiing, swimming, and track and field. This Schedule includes sweat suits, T-shirts, and athletic footwear.

KOOL OFF Products Now on Schedule

Look what's new and cool on Federal Supply Schedule 84, Part V, Section A - Clothing and Footwear: Athletic and Recreational.

KOOL OFF Products are designed to act as personal cooling systems and reduce core body temperatures fast, thus helping prevent heat stress at work and play. KOOL OFF products include Arctic Bandanas and KOOL OFF ties, desert caps, skull caps, visors, headbands, sport caps, vests, and more! Each product contains safe, water-absorbing polymer crystals to give hours of cooling relief from hot temperatures. Great products for golf, tennis, running, biking, hiking, boating, etc.

Skullcaps are great for construction workers, maintenance workers, warehouse workers, and under helmets for cyclists or at the gym. One size fits all. They are lined with fleece for cold

weather use, and available in over 28 designs (including: U.S. Flag, Desert Camo, Woodland Camo) and can also be custom designed and screen printed with logos.

Need to "Chill" Out? We have Water-Chillers

Let GSA's new Federal Supply Schedule for Commercial Water-Chilling Packages help you!

July 1, 1998, is the target date for converting GSA's popular Basic Ordering Agreement for 100 to 2,000 ton commercial centrifugal and rotary screw water-chilling packages to a Federal Supply Schedule. Through partnership with GSA, the Department of Energy, and manufacturers such as Trane, York, and Carrier, a better solution is now available for cooling system replacements.

Check out these advantages!

- Design/build options
- Extended service and maintenance options
- Commercial systems meeting facility requirements
- Pre-qualified manufacturers
- Total life-cycle cost analysis (Ref: Executive Order 12902)
- 2-year factory warranty
- Up-front contracts with manufacturers
- Standardized specification
- Streamlined procurement
- Mitigates ozone depletion
- Reduces global warming
- High efficiency - low operating cost
- Computerized control
- Engineered for the new millennium

Need a LIFT? (Locating Industrial Forklifts Today)

The LIFT Program was created to greatly simplify and speed the process of purchasing industrial equipment. Under LIFT, agencies no longer need to acquire contractor publications to find the lowest priced item that meets their requirements. Instead, you just select a forklift from the pricing and specification data that's listed in the LIFT catalog. Then complete the order entry form attached to the catalog and fax or mail it in. We take care of everything else.

LIFT covers the most popular forklift configurations and options. If you need something that's not shown, you can still get technical brochures from contractors to enable you to determine your needs.

The BIG benefits of using LIFT include:

- You have a choice of many popular commercial brand names
- Your "best value" selection process is simplified
- We place your order and take care of the administration
- Prices are competitive and reasonable

For assistance in using the LIFT catalog or in placing orders; write, call or fax:

GSA
General Products Center (7FXG)

Flags, Flags and More Flags!

Don't let "Old Glory" get too old and faded! Replace those old worn out flags with new ones from the General Products Center and restore the pride!

Flag Facts:

In general, the American flag should be disposed of by burning in a dignified manner. Call your local chapter of the American Legion for further instructions.

The General Products Center can supply all types of flags - outdoor, indoor, cotton,

nylon, nylon/wool, silk-screened, storm, POW/MIA - in a variety of sizes, with accessories (flag poles, ornaments, snap hooks, etc.) at the best prices and delivery around!

All flags meet specifications set by the Institute of Heraldry.

The U.S. flag should be displayed daily on or near the main building of every governmental institution, schoolhouse, and in or near every polling place on election days.

Our most popular flags:

Outdoor / Nylon Flag

Want Choices???

GSA now offers Two Types of Upholstery Fabrics

New and Improved! Not the old Naugahyde!

Refurbishing the old office or ship furniture? Bring it into the millennium with GSA's vinyl or new nylon upholstery fabric! Variety does not just stop at the fabric type, just look at the selections of colors offered below.

Vinyl Upholstery Fabric:

Upholstery vinyl has an exterior vinyl wear layer, a secondary expanded layer of vinyl foam, and a plain knit backing cloth. Vinyl surface simulates finely grained leather with a matte (low gloss) finish and a soft, supple hand. The fabric is a uniform, solid color and is fire, mildew, and oil resistant. Minimum weight: 20.3 oz/square yard. Minimum width: 53.5 inches. Roll length: 40 yards, U/I -RO, Price: \$298.34.

Color: Red
NSN: 8305-00-286-5565

Color: Rose
NSN: 8305-00-286-5566

New Power Distribution Equipment added under Schedule 61, Part V, Section B

**Attention...
Power Supply Design
Managers/Engineers and
Buildings/Facility
Managers!**

The word is getting out! In response to customer feedback, GSA has added new products and services to Schedule 61V B to provide a total power equipment package. New categories of products include:

- Switchgear
- Transformers
- Panel-Boards/Switchboards/Load Centers/Metering

Services have been added to support the equipment purchase, including:

- Maintenance
- Training
- Logistical Support
- Site Surveys

Some of the name-brands for these new products are:

- Cutler-Hammer/Westinghouse
- Square D
- Toloc Systems
- Pyramid Power Systems
- Energy Technology, Inc.

GSA has already complied with all procurement regulations by synopsisizing this power equipment procurement, negotiating the contracts, and determining the pricing to be fair and reasonable. All of your power requirements can be met by ordering from Schedule 61, Part V, Section B.

Spill Containment Products Available Now from GSA

GSA's Federal Supply Schedule 39, Part II, Section A - Material Handling Equipment, Scaffolding, and Work and Service Platforms, has been expanded to include Spill Containment Units under SIN 357-10c.

Spill containment units may be used to control or contain spills of potentially harmful or hazardous chemicals and pollutants. Spill containment units currently available from schedule contractors include vehicle/cargo area hazardous spill remediation trays for transport of hazardous liquids or materials; drive-on units in multiple sizes for use under even the largest military fuel tankers; individual and multi-drum overpacks; or containment flooring for work areas. Schedule contractors can provide containment units for almost any application.

To receive your copy of Schedule 39 II A, contact the Centralized Mailing List Service by phone at (817) 334-5215, by Fax at (817) 334-5227, or have immediate access to all General Products Schedules by visiting our home page at: <http://www.gsa.gov/regions/7fss/7fx/schedules/html> - look for Schedule 39 II A, featuring products for all your material handling needs.

New Item Introductory Program

Damming Devices from Aqua-Barriers™

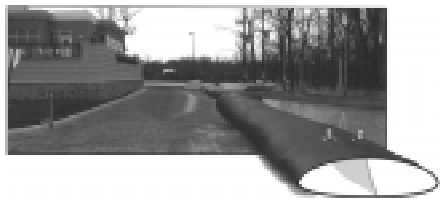

Aqua-Barriers™ are cost effective water-filled damming devices used for flood protection, construction and reme-

diation site dewatering, and sediment control. Constructed from industrial-grade reinforced plastic products, Aqua-

Barriers™ is lightweight, reusable, and compact in storage. Standard heights range from 2 feet to 7 feet, and lengths up to 200 feet are available. Connection methods are available to join the barriers

for extended lengths. To install, simply deploy and begin inflating through easily-accessible fill ports. Aqua-Barriers™ conform to uneven terrain and surfaces to restrict liquid transmission. To remove, discharge the water and conveniently store for future needs.

New Item Introductory Program

Sandbag Filling Systems

The Sandbagger™ Gravity Feed (GF) is an automated sandbag filling system used to fill four sandbags simultaneously. Operators simply press a foot pedal to stop the flow. A ladder is provided to manually probe the material in the hopper when necessary. The GF is self-contained, lightweight, and transportable in the bed of a pickup truck. The machine is user-friendly and can fill between 700-900 bags per hour, depending on the material and manpower.

The Sandbagger™ Motorized Auger (MA) is designed to fill four sandbags simultaneously. This machine is capable of filling at least 1,600 bags per hour

using unskilled labor. The MA is equipped with a hydraulic driven hi-directional auger and agitator to keep wet materials flowing. Each machine also includes a safety grid, safety shield, gas engine, hydraulic motor, auger and agitator.

Order directly from the contractor:

Space Bag[®] is the Answer to Storage Problems and More!

Need to:

- Store more in less space?
- Increase shipping capacities?
- Protect valuable equipment, instruments, documents?

Space Bag[®] is the answer to these problems and a lot more. Airtight, watertight, tough, and reusable. Shrinks soft, bulky bedding, linens, foul weather gear up to 75%. Features a "zipper" that seals like a sandwich bag and enables the user to seal the pack airtight. Space Bag[®] storage pack works with any vacuum cleaner with a hose.

On-Demand Heavy Duty Door Operator Door Aid®

DOOR AID® is quickly becoming known as an excellent product that is a simple and cost-effective way to make doors easily accessible for those in need of assistance. The unit is easy to install, with no special wiring required, and should only take 90 minutes using standard tools. A unique feature of DOOR AID® is that the actuator arm does not attach to the door itself. This means that the gearbox and motor only cycle when the unit is activated, saving a considerable amount of wear on the mechanism.

As you already know, Title I of the Americans with Disabilities Act is in effect. A principle issue of ADA is access to employment and/or goods or services available inside buildings. Although ADA does not mandate the use of automatic or power door operators, it does mandate accessibility through the use of appropriate hardware. This retrofit automatic door operator is specifically engi

neered to solve entrance accessibility problems, with only moderate cost to clients.

Surface Conditioning Disks Class 5345 Available from GSA's Stock Program

Surface conditioning disks can be used for many different types of applications. These disks are comprised of synthetic fibers and abrasive particles bonded together. You may recognize the commercial term as "scotch-brite" products. These disks work well for cleaning and restoring surfaces without removing or damaging the base material, and conform to flat or irregular surfaces as well as hard-to-reach areas.

GSA now stocks several additional surface conditioning abrasive disks, with the 3M Roloc "TR", quick-change mechanical feature. Customers will find that the TR product will complete the wide selection of quick-change disks available for all types of abrasive disks in the commercial marketplace today.

A Temporary Solution to Your Staffing Problems

Has Federal Government downsizing, decreased budgets, and hiring freezes left you short staffed?

To fill this need, the General Products Center created the first Basic Ordering Agreement for Temporary Nonpersonal Administrative and General Support Services. The national scope program, known as "The Road Ahead", is designed to facilitate mainstream career opportunities for the blind and disabled while providing support to Federal agencies across the country.

This ordering agreement is unique because it meets the requirements of the Javits-Wagner-O'Day Act and the rules of the Committee for Purchase From People Who Are Blind or Severely Disabled. The services are temporary and not permanent on the Procurement List.

Some of the many benefits of this Program include:

- Ordering the temporary service takes only days,
- Substitutions are permitted,
- GSA hourly rates average 17-27% below commercial market for temporary service organizations,
- 30-day cancellation clause available.

Protect Valuable Documents

Safeguarding and maintaining the integrity of valuable documents, photos, diagrams in files or in transit, requires protection of the highest order. GSA offers a wide variety of quality document protectors.

Top Loading Document Protectors

Top-loading StayzNeat Document Protectors from Eberhard Faber lend a professional appearance, are made of durable polypropylene and are superior to ordinary polyvinyl chloride protectors. Popular size (8-1/2" x 11") and easy access make these protectors most convenient and easiest-to use when inserting or even changing documents.

Multi-punched to fit a wide variety of binders, they are available in standard or heavyweight thickness. Best of all, they will not absorb ink from copier paper, turn yellow or become brittle. Holds

8-1/2" x 11 sheet without hole punching of document.

NSN: 7510-01-347-9580
Size: 9" x 11"
Thickness: Standard weight, 0.0026"
Finish: Clear
U/I: BX (50)
Price: \$4.34

NSN: 7510-01-381-5300
Size: 9" x 11"
Thickness: Standard weight, 0.0026"
Finish: Non-glare
U/I: BX (50)
Price: \$3.45

NSN: 7510-01-381-2219
Size: 9" x 11"
Thickness: Heavy weight, 0.0039"
Finish: Non-glare
U/I: BX (50)
Price: \$4.63

Top loading Document Protectors from Sabina Office Products are highly durable with reinforced binding edges, are static-free, and specially-punched for three and six ring binders. They feature notched corners and oval holes for easy page turning.

NSN: 7510-01-347-9579
Size: 9" x 11"
Thickness: Heavy weight, 0.0039"

Plastic Wrap for Protection in Shipping

Normal impact-strength polyethylene plastic is ideal for general purpose packaging. It protects items from dust and is highly water resistant and moderately vapor-resistant, low-slip type.

Approved for wrapping food:

NSN: 8135-00-855-3387
Size: 10' wide, 0.004" thick nominally
U/I: RO (Contains 100 FT)
Price: \$16.30

Not approved for wrapping food:

NSN: 8135-00-584-0610
Size: 8' wide, 0.004" thick nominally
U/I: RO (Contains 100 FT)
Price: \$14.79

NSN: 8135-00-584-0619
Size: 8' 4" wide, 0.002" thick nominally
U/I: RO (Contains 100 FT)
Price: \$16.32

NSN: 8135-00-579-6491
Size: 10' wide, 0.006" thick nominally
U/I: RO (Contains 100 FT)
Price: \$23.53

NSN: 8135-00-579-6489
Size: 12' wide, 0.006" thick nominally
U/I: RO (Contains 100 FT)
Price: \$32.60

NSN: 8135-00-618-1783
Size: 16' wide, 0.006" thick nominally
U/I: RO (Contains 100 FT)
Price: \$38.65

NSN: 8135-00-579-6487
Size: 20' wide, 0.006" thick nominally
U/I: RO (Contains 100 FT)
Price: \$52.67

NSN: 8135-00-282-5635
Size: 48" wide, 0.004" thick nominally
U/I: RO (Contains 50 YD)
Price: \$79.47

NSN: 8135-00-050-7698
Size: 54" wide, 0.20" thick nominally

New Item Program

Advantage 7" Rubber Bands

Alliance Rubber Bands, the country's largest rubber band supplier and a New Item Program (NIP) contractor, presents their Advantage 7-inch Rubber Band for heavy duty banding. Size: 7" long x 1/4" wide. U/I - PG (1 LB), 25 PG per Case.

Made of lightweight crepe rubber, with a minimum of filler, ensuring a high count per pound, maximum tensile strength, and greater biodegradability. The bands owe their high tensile strength and stretch to the extremely high rubber content exceeding Federal Specification AA-151.

NSN: 7510-01-452-0526
Contractor Part # NNP0214.

New Item Program

Theft Resistant Pen... Always Ready to Write

Rolamech Security Pen is Theft-Proof, Frustrating Thieves and Foiling Vandals.

The Rolamech #722 Classic Security Pen for counter use is always ready to write because it cannot be stolen. Smooth-writing 6" long ballpoint pen is attached by a 20" vinyl-covered steel cable -- that cannot be ripped or broken without special tools -- to a permanently-mounted base (2-1/4" x 2-3/4"). Black pen and base. Aluminum pens are tapered for users' writing comfort. Bases feature an attractive textured finish.

Long-term service is assured. Spring-mounted ink fillers retract on impact to resist pen-point damage and assure smooth, continuous writing. The bases are mounted with powerful self-adhesive tape or hidden screws. In addition, the Jumbo Mile-Rite™ Refill will write approximately 13,000 feet, minimizing refilling. Black ink, medium point.

Rolamech security products are available under the New Item program (NIP) which allows buyers to order directly from the manufacturer, under Contract No. GS-14F-64105.

Hand Held and Desktop Calculators

Multiply, subtract, divide and so much more. Handy, Accurate, Lowest in Price.

Hand held calculators fit pockets attache cases and pocketbooks. Desktop calculators are portable, but are very much at home on desktops.

Other electronics calculators are available through Federal Supply Schedule 74 II and III, which can be ordered from:

GSA/CMLS
P.O. Box 6477
Ft. Worth, TX 76115
Telephone: (817) 334-5215
Fax: (817) 334-5227

Internet address:

<http://pub.fss.gsa.gov>

Hand-Held Calculators (Display Only)

Eight-digit calculator displays only. Include four arithmetic functions (+, -, /, x) one memory, floating decimal, square root, percent functions and automatic constant and chain calculations.

NSN: 7420-01-182-8532
Power Source: Solar
Price: \$2.88

NSN: 7420-01-182-8531
Power Source: Batteries
Price: \$2.11

Scientific models are solar-powered or battery-powered. They have eight-digit capability and one memory and display answer only. Includes four arithmetic functions (+, -, /, x) plus roots, trigonometry (sin, cos, tan and inverses) in degrees and radians, logs and their inverses, scientific notation, standard deviation and floating decimal.

NSN: 7420-01-182-8535
Power Source: Solar
Price: \$12.80

NSN: 7420-01-182-8534
Power Source: Batteries
Price: \$5.47

Desktop Calculators (Display and Print)

Handy multi-use, portable calculators, have four arithmetic functions (+, 1, /, x), a percent key for add-on and discount, a minimum of one independent addressable memory with M+, M-, MR and MC capabilities, a minimum of three fixed decimal positions, total and subtotal functions, negative sign for negative entries and answers; and item count. Print and display or display only capability; the sub-total automatically repints after switching to print from display-only functions.

NSN: 7420-01-174-5221
Power Source: AC Adapter or Batteries (both included)
Price: \$25.22

NSN: 7420-01-174-5218
Power Source: AC (prints in black or red)
Price: \$36.10

Binders... Binders...Binders

We have what you need...Two Ring or Three Ring...Clothbound or Plastic...Stiff Cover or Flexible.

Clear Cover Binders make customizing easy. Just slip inserts into front cover and spine and voila! you have your own specially-identified binder for meetings, presentations and a host of other uses.

Heavy Duty Binders with metal hinges for rugged field use or for holding especially heavy contents.

Also available from WDC and CSC are two ring and short side opening binders. See the GSA Supply Catalog, Spring, 1997. In addition, a large variety of vinyl and polyethylene binders can be found in Federal Supply Schedule 75 II A.

Plastic covered binders are made from postconsumer materials in accordance with the President's Executive Order.

Binders designated with an asterisk (*) are made under JWOD by non-profit organizations associated with NIB.

New National Source For Custom Stamps !

Need to get your message across? Try a **BOLD MESSAGE STAMP**. Tired of signing your name a hundred times a day? How about a stamp with your *signature*?

Whether you need a simple return address stamp, a date stamp, or something totally creative, **SKILCRAFT®** can fill the bill. **SKILCRAFT®** offers an extensive line of Custom and Generic Title (pre-made) stamps. Get their beautiful new catalog now by calling **1-800-799-0402**.

Order direct from them via fax or mail; your stamps are made and shipped **within 7 working days!** (Next day for generic stamps.) Plus, their prices and quality can't be beat.

SKILCRAFT® has custom-made stamps for all uses: office, warehouse, hospital, shipping, mail room, desktop — you name it. **SKILCRAFT®** has the modern, long-lasting, pre-inked and self-inking varieties which require no stamp pad. Their catalog has over 20 different sizes and shapes (mini to monster; rectangular, square, round) in many attractive styles.

SKILCRAFT® also offers a selection of popular, generic title stamps. So if you need a stamp that says something simple, such as, "DRAFT", "FILE COPY", or

"CONFIDENTIAL", **SKILCRAFT®** has what you need at the best price.

SKILCRAFT® stamps are made at The Lighthouse For The Blind, Inc in Seattle, Washington.

Hot Off The Presses:

Business Cards

Handsome yet inexpensive custom-printed business cards are now available to all Federal employees. Here's a better image for you and your agency, courtesy of GSA and a new ruling from the Department of Justice. (Of course, each agency has discretion regarding whether they will purchase business cards, and who, within the agency, is authorized to do so.)

Under a new Federal Supply Schedule, custom-printed cards are available at excellent prices from **Skilcraft®**. Both plain and foil-embossed cards can be purchased in quantities of 250, 500 or 1,000.

You can order cards direct from **Skilcraft®** via fax or mail, for delivery in just 10 working days. They accept payment via government credit card,

check, money order, or on approved accounts. They will also accept orders from government employees who need to purchase cards with personal funds.

Skilcraft®'s brochure shows 4 classic styles, designed to incorporate different agency seals or logos. **Skilcraft®** will also set up unique designs for agencies wishing to establish their own look. Cards are printed with **soy inks** on bright white **recycled paper**.

For all the details regarding features, pricing, and ordering, call: **1-800-799-0402** to request **Skilcraft®**'s Business Card brochure.

Indicator Tabs Mark Your Place

Chekit Indicator Tabs are an idea whose time has come. They are 2-color, 3-position signaling tabs that indicate actions required and/or actions taken.

For example: Set tab to red for "action required;" set tab to neutral for "action taken;" set tab to green for OK status, or design your own system.

Use Chekit Tabs on file folders, inventory bins, etc., to maintain Inventory Control (i.e., reorder point, out of stock, etc.), Medical Records (patient status, room status, etc.), Filing Systems (file removed, security status, etc.), Data Processing (in use status, job loading, etc.).

Chekit Tabs have adhesive backs and are packaged in lots of 25 and 100 prices at \$19.75 and \$79.00 respectively, including shipment, with red and green colors. They come in bulk at lower discounts (see below) and other color combinations.

Chekit Tabs are available under the Special Order Program, (SOP), which permits ordering through normal FEDSTRIP/MILSTRIP procedures. FSS administers the order, while delivery is made directly by the manufacturer, Bechris Company.

Self-directed Computer Training Now on Schedule

Federal agency training personnel now have alternative training solutions when divergent and overlapping group needs or mass classroom sessions are a problem. Federal Supply Schedule 69 now includes several well-known, highly qualified training services that offer a myriad of state-of-the-art training programs that utilize multi-media hardware and software. Programs include training on an individual basis in computer software, operation techniques and other industrial technical subjects.

It's a win-win situation. In addition to the resultant excellent learning experience, this individual training is highly-cost effective, as well:

-- Because it is self-disciplined in format, individual training allows participants to skip sections they know, allowing specific concentration where needed and often saving time.

-- Training costs are reduced with less involvement by agency instructors.
-- Privacy makes participants more comfortable.
-- Learning is self-paced.
-- The multimedia format aids retention.
-- Employee morale and self-esteem is enhanced, because training is self-managed.

Three of the leading contractors are:

ITC
13515 Dulles Technology Drive
Herndon, VA 10271
Phone: (703) 713-3335
Fax: (703) 713-0065

Contract: GS-20F-9415C

ITC offers the broadest spectrum of courses ranging from subjects as simple as Basic Reading, Writing and Math to popular software like Windows 95 and LAN management to advanced courses in other technical non-computer subjects. Space constraints do not allow room for their lengthy list of titles.

Willard Scott
CBT Systems Ltd.
2503 Red Glover Court
Reston, VA 2091-3709
Phone: (703) 758-8166
Fax: (703) 758-9891

Contract: GS-20F-9379C

CBT Systems, Ltd., publishes a growing library of more than 350 interactive educational software titles. These cover a comprehensive range of client/server and internet technologies and desktop systems work with the industry's leading software producers. They are used by more than 1250 of the world's leading corporations.

A Surveillance Camera Is Only As Good As Its Tape

Under normal taping circumstances, videotape takes a terrible beating from recording heads and other elements in the camera. This is particularly so in the time lapse camera, due to the stop-and-start nature of the recording.

Government security personnel, however, can rely on blank Time Lapse Video Cassettes from Fleetwood Video Corporation, a Federal Supply Schedule contractor. The tape is manufactured by Maxell Corporation and possesses the necessary density to accept extra-high output, extra-low noise, and low static electricity to prevent most picture "dropout." It also promises longer life expectancy.

Fleetwood offers customized packaging (including agency name and logo) for the following: Professional/Industrial Quality, Master Grade Quality, and Broadcast Quality VHS 1/2" Recording Tape, and Standard, High Grade and High 8mm Recording Tape.

Bulk order discounts and BPAs are also available. Fleetwood is woman-owned small business.

SKILCRAFT® VuRyte and VuRiser Workstation Puts Work in Focus

The new SKILCRAFT®, VuRyte Workstation, developed to ease work at computers for Federal employees, is now available from stock. The PC accessory was designed to eliminate many of the aches and pains associated with computer work, both orthopedically (improving comfort for neck and back) and visually (placing the monitor at the optimum level to prevent eyestrain.), while boosting productivity. It is composed of three parts that work in conjunction to accomplish its ergonomic goals. The VuRyte Easel is a copy holder that allows data to be placed directly in front of the computer operator and at the same focal point as the monitor screen. It can be adjusted for access to monitor, depth distance, angle preference and split surfaces, minimizing awkward and tiring head and neck movements, as well as eyestrain. Includes a Line Guide Slide and Tracer. Two sizes: 18" Screen Length (SL) and 14" Screen Length (SL).

VuRysers I and II are pedestals upon which the monitor is placed so that it is positioned at a viewing level that is ergonomically correct for the operator and minimizing awkward and tiring head and neck movements. They may be used separately or in tandem, anchored by an interlocking device.

Made under JWOD by the Tarrant County Association for the Blind and the Lighthouse for the Blind of Fort Worth, TX, a non-profit agency affiliated with NIB.

The workstation consists of: (1) VuRyte 18" or 14", (1) VuRyser 1" and (1) VuRyser 2".

No One Sells Better Plastic Bags

Our plastic bags go through the same rigorous testing that commercial bags do. Puncture tests. Drop tests. Tensile strength tests. Elongation tests. Gas and water vapor permeability tests. Chemical tests that measure how well a bag can withstand accelerated weathering. All carefully designed by the American Standards for Testing Materials Committee.

Whatever your disposal needs are, you can get the right bag for the right purpose, with exactly the strength requirements you need. So when you use bags from FSS, you know that what goes into the bag stays in the bag. And that means quality you can rely on....at a price your budget can afford.

Medium-Duty Trash Bag

Designed for everyday use in cafeterias or mess halls. Comes without closure ties but is suitable for knotting at the top.

For most office and outdoor trash

Vehicle Acquisition and Leasing Services

Washington, DC

Greater Southwest Customer and Vendor Focus Meetings

The Greater Southwest Fleet Management Division invites you to attend one of our Customer and Vendor Focus Meetings. These meetings provide customers and vendors an opportunity to share and exchange ideas and information relative to government vehicles. We'll cover topics such as maintenance, customer service, products, etc., and we'll also explain GSA's Fleet Management Program - - what we offer and the services available to our customers. These meetings will be held throughout the year at various locations in Texas, Louisiana, Oklahoma, New Mexico, and Arkansas. The following identifies meetings scheduled for July through October 1998. For details, please contact **Mr. Fred Cox** at **817-978-4351**.

July 21, 1998

Location: Airport Hilton
El Paso, TX
Customer Sessions: 9:00 am and
1:00 pm

July 23, 1998

Location: DOE Conference
Room
Carlsbad, NM
Customer Sessions: 9:00 am and
1:00 pm

August 5, 1998

Location: Riverfront Hilton
Little Rock, AR
Customer Sessions: 9:00 am and
1:00 pm

September 9, 1998

Location: Airport Radisson
Houston, TX
Customer Sessions: 9:00 am and
1:00 pm

September 22, 1998

Location: Holiday Inn
Gallup, NM
Customer Sessions: 9:00 am and
1:00 pm

What's Hot with Alternative Fuel Vehicles

The GSA fleet program purchased over 3,400 alternative fueled vehicles (AFV) for its customers this year! This brings the total number of AFVs purchased by GSA to over 18,000 vehicles nationwide. For model year 1998, the ethanol flexible fuel Dodge minivan and the ethanol flexible fuel Ford Taurus were offered to the Federal government at NO INCREMENTAL COST. This is great news for our customers! The monthly lease rate for these AFVs is the same as conventionally fueled vehicles. GSA fleet customers get an AFV at no additional cost, which helps them meet President Clinton's AFV goals.

For more information on leasing AFVs contact: **Denise Lenar (703) 305-6278**.

You II Can Have A Better Body, and Accessorize It!!!

Need something special for your vehicle? Want that just right look? Has safety been an issue in the past? Well it's possible to have all those things and more.

Yes, the Automotive Division now has Worldwide Multiple Award Federal Supply Schedule 25 I A, Vehicular Parts and Accessories, for the contract period May 29, 1997 through September 30, 2002 and Schedule 25 II B, Vehicular Bodies, for the contract period October 1, 1997 through September 30, 2002. Both schedules have an option to extend the contracts for one (1) additional five year period.

Both schedules will include the use of the Government Credit Card and expedited delivery will be available. Customers are strongly encouraged to utilize Blanket Purchase Agreements (BPAs) with the new suggested format printed in the schedules.

The following is a list of Special Item Numbers (SINs) under Schedule 25 I A:

Special Item Numbers Currently Awarded

Item Number 025-103
Tarps and Cargo Covers

Contractor:
Wholesale Trailer Supply
GS-03F-1007H

Continued next page

Item Number 025-104:

Truck Mounted Hoist, Tow Hooks and Trailer Towing Packages

Contractor:

EPA-17 Free, Low VOC Sealants And Adhesives

We have identified many products that contain no chemicals on the EPA-17 list, no carcinogens, no chemicals reportable under SARA 313 and no shipping hazards. Here is a sampling of these products that can help meet your environmental goals.

Architectural Products

Linoleum adhesive, MMM-A-137:

NSN: 8040-00-273-8713
U/I: GL (1 Gallon)
Price: \$13.27

Caulking, A-A-272 Type 4:

NSN: 8030-00-180-6339
U/I: CA (10 oz)
Price: \$2.35

General or Multi-purpose Products

Two part Epoxy adhesives, A-A-3053 Type 1, low strength epoxy adhesive:

NSN: 8040-00-753-4800
U/I: KT (1.5 oz)
Price: \$2.30

A-A-3053 Type II, intermediate strength epoxy adhesive for nonporous substrates:

NSN: 8040-00-846-3351
U/I: KT (1 pint)
Price: \$31.37

EPK 608, optically clear, high strength epoxy bonds metal to fiberglass:

NSN: 8040-00-092-2816
U/I: BX (100 4g double bubble packets)
Price: \$19.83

Office adhesives, A-A-342 (gluestick), for paper:

NSN: 8040-01-039-8132
U/I: BX (12 small white sticks)
Price: \$3.21

These products are available through normal FEDSTRIP/MILSTRIP procedures.

Check our internet homepage at www.northwest.gsa.gov/fss/pnt_chem for additional information on our environmental products.

Are You Into Space And Waste Minimization?

The Paints and Chemicals Center has a unique Multiple Award Schedule, FSC 79, Part VII, Chemical Dispensing Systems/Products. These systems allow for accurate and safe dilutions into containers so that you use only what you need. GSA has numerous vendors under this schedule. We do not recommend one vendor or product over another. Check them all out and then order the product

that best meets your needs. To ensure you have a choice in ordering, the products have National Stock Numbers and can be ordered by FEDSTRIP/MILSTRIP procedures or you may order direct from the company using a purchase order or your IMPAC Card. Call the Paints and Chemicals Center at 1-800-241-RAIN (7246) for more information, or if you would like to receive a copy of this schedule (mail list code 00SC 7907) contact the GSA Centralized Mailing List Service (7CPNL), PO Box 6477, Fort Worth, TX 76115 on the INTERNET: CMLS.gsa@gsa.gov or on-line ordering at <http://pub.fss.gsa.gov> or FAX your request to (817) 334-5227.

Solvent Recycling Service Continues...

with a NEW service added. The contract now includes Aqueous Recycling Parts Washer Service to help with your hazardous material handling. This will provide a more environmentally acceptable alternative to your solvent usage. All the original service choices are still available.

This contract is still a closed loop system. Safety Kleen services the parts washer, provides clean solvent and takes away the old solvent for recycling. Safety Kleen does the following work for your activity:

- Obtains all necessary licenses
- Obtains all necessary permits
- Compliance with Federal, state, local and municipal laws, codes and regulations.

News and Information

Rota Welcomes GSA's Uncle Sam's Club

On Tuesday, May 19, 1998, GSA and Navy officials joined forces at Naval Station Rota, Spain to celebrate the dedication and Grand Opening of the Uncle Sam's Club, Rota. A ribbon cutting ceremony took place with FSS Commissioner Frank Pugliese, Mid-Atlantic Regional Administrator Rafael Borrás, FSS Assistant Regional Administrator Jack Williams, and Captain Gerald Stair, Commander U.S. Naval Activities Spain and Commanding Officer Naval Station Rota, cutting the ribbon.

The Uncle Sam's Club is the result of an initial request for assistance by the Naval Station in 1996. They asked for GSA's help in reducing inventory while continuing to maintain a wide range of products for their customers. GSA's Northeast Distribution Center at Burlington initially partnered with the Navy by providing

display boards in their Servmart allowing the Navy to order directly from GSA and to stock fewer items, while having a greater selection for the customers. The success of this endeavor prompted the Navy to enlist GSA's help once again in enhancing the Navy Servmart. The result was the establishment of the second Uncle Sam's Club! Modeled after the successful Uncle Sam's Club in Norfolk, VA, the store actually opened for business on October 29, 1997. Since then, sales have exceeded \$500,000.

Along with Uncle Sam's Club, two packaged room projects were dedicated on May 19, 1998 at the Naval Station. A total of 255 packaged rooms, valued at over \$1.6 million, were installed. American of Martinsville and Thomasville furnished these. The completion of these projects demonstrated the shared commitment not only between GSA and the U.S. Navy, but with our industry partners as well.

Rota Naval Base in southwestern Spain is one of strategic importance to the Navy.

Its core mission is to keep fuel, oil, ammunition and spare parts flowing to the US SIXTH Fleet operating in the Mediterranean. While remaining under the Spanish flag, the base is used jointly by Spain and the United States. Commander U.S. Naval Activities Spain, Captain Gerald Stair, is headquartered at Rota and is the area coordinator for all US Naval shore activities in Spain. Since he is also the Commanding Officer of Naval Station Rota, Captain Stair maintains and coordinates the overall security, upkeep and support features, which ensure smooth operation of the installation. GSA assists in this capacity by providing services and continued support with supplies and furniture. Both GSA and the Navy are thrilled at the flourishing partnership and look forward to more success stories. GSA is proud to support the U.S. Navy by adding value and excellence to their day to day needs. We thank them for issuing us such a challenge and giving GSA the opportunity to demonstrate our promise to deliver! For more information, please contact Morris Boiman on (609) 499-7000.

GSA Advantage!TM

GSA Advantage!TM Online Shopping "Cool Stuff I Didn't Know"

Attention Savvy Negotiators: Did you know that you can actually reduce the price of a Federal Supply Schedule item on-line?

Let's say you have negotiated a lower price with a schedule contractor for a large quantity order or maybe you have a

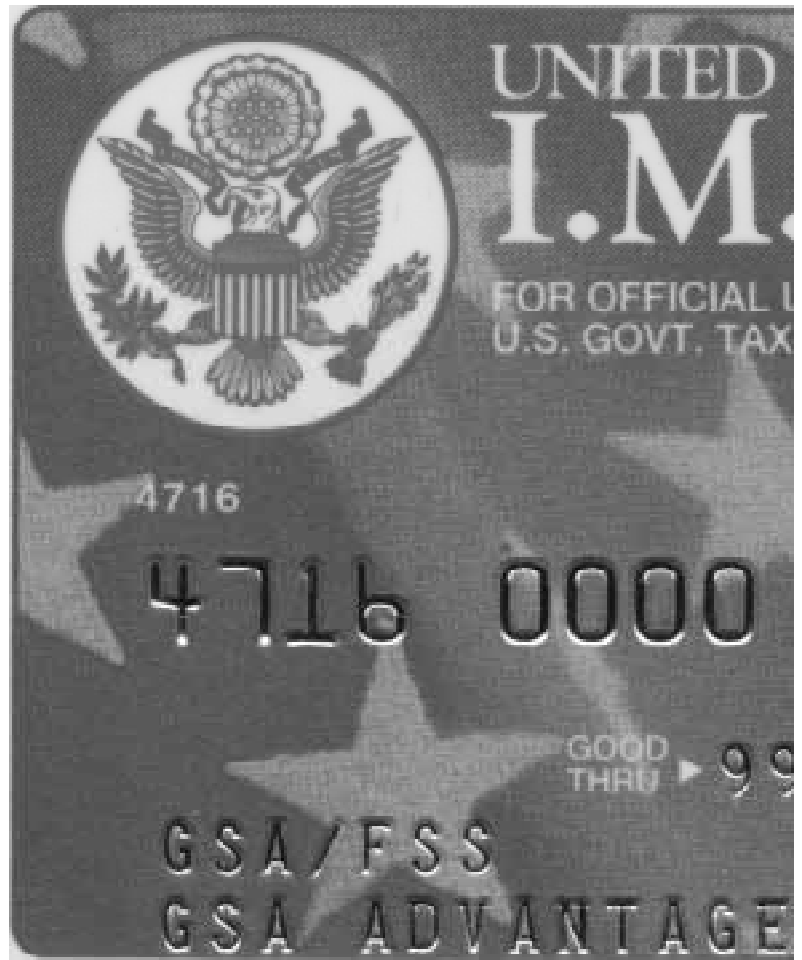

Blanket Purchase Agreement (BPA) with the contractor for specific items. **GSA Advantage!TM** allows you to reduce the posted price directly on-line. The price reduction entered will appear on the purchase order generated by **GSA Advantage!TM** (be advised that you will be asked to provide a BPA number or the contractors point of contract authorizing the price reduction. This will be passed to the contractor).

Have questions, need more information call: (703) 305-7359

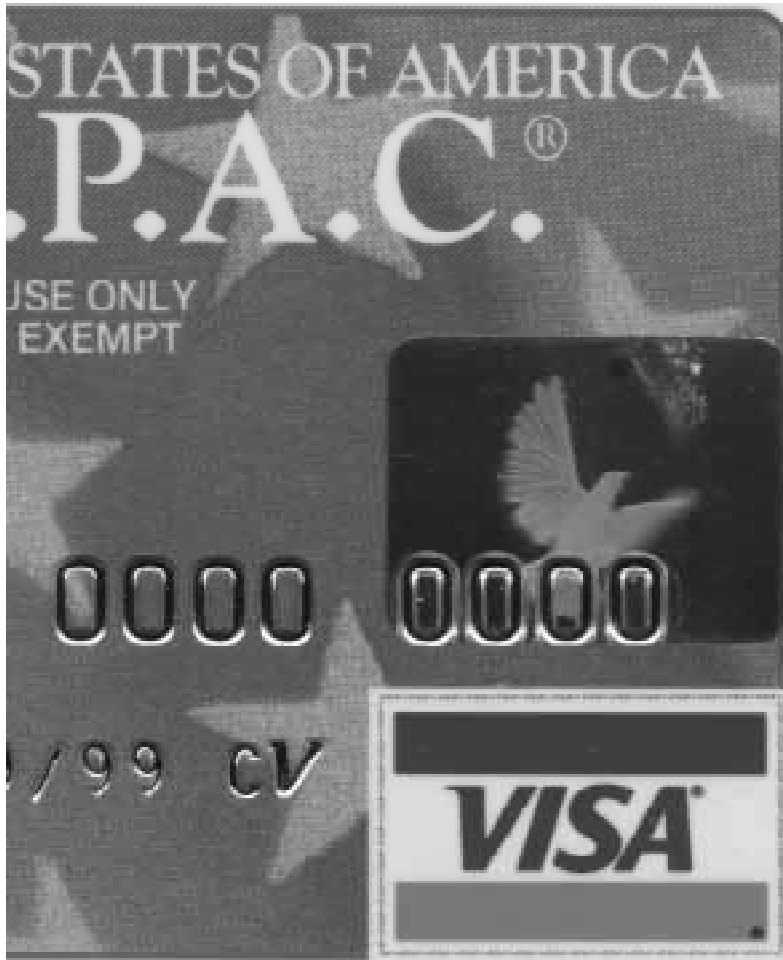

**GSA Advantage!TM

Digital and One-Time Use Cameras on Schedule

No film required! Now when you take the picture you can transfer the image to your PC. A PC card adapter for your digital disk enables you to transfer images from your camera to your computer. The images are editable and reproducible. GSA's digital cameras perform desktop publishing, graphics, print production, image archives, security and identification, multimedia programs and web page development. The images can even be attached to electronic mail. Let GSA provide you with imaging power!

Great photos are now easier than ever! We've got 35mm One-Time Use Cameras. Indoor and Outdoor color prints and Flash are available on most models. There's even a waterproof model for your convenience. Why look any further?

One-Time Use Cameras and Digital Cameras and Accessories can be found on Multiple Award Schedule 67 II and III, Photographic Equipment and Supplies.

Doppler Acoustic Sounder

Doppler Acoustic Sounders are available that produce real-time wind and turbulence profiles within the atmosphere's lowest kilometer. In uniform terrain conditions, the basic system, comprised of two antennae's, measures north-south and east-west components from which the resultant horizontal wind vector is computed. In complex terrain situations, a third antenna is incorporated for direct measurement of the local vertical wind motions producing a complete measurement of the three-dimensional wind field in 30-meter increments. The result is a time sequence of high-resolution spatial wind and turbulence observations for characterizing the diurnal, dynamic structure of the local boundary layer.

Other Doppler models available are designed as high resolution temporal and spatial monitors of the lower atmospheric boundary layer. They operate on an acoustic frequency of 2800 Hz and samples from 30 meters to 600 meters in five meter increments. Smaller units operate on 4500 Hz and samples from 10 meters to 200 meters. Steered-beam phased array antennae coupled with reflector-type antenna enclosures help to create the high resolution displays. Doppler sonar systems operate in all types of weather as well as both noisy and quiet environments.

Now available on Federal Supply Schedule Group 66, Part II, Section Q, Special Item Number 66-410g.

Leak Detection Devices Recently Awarded Under New Technology Program

In keeping with our customers demands for the latest technologies, and to stay up-to-date with all the latest products, the Office and Scientific Equipment Center is able to make these products available to you when they become available to commercial customers. Through this new technology program, we now offer devices which can detect environmentally hazardous leaks.

The first is LeakNet, a high performance, easy-to-use, cost-effective leak detection and location system. It can be used for gas, liquid, multi-phase pipelines, and storage tanks. The system offers rapid, completely automatic service under both flowing and static conditions. It has a remote Valve Operator that provides console control of block, delivery, and injection valves and provides the following detection methods: Leak Location, Pressure Point Analysis, Masspack and Smartpoint.

The Federal Supply Schedule contractor for this product is:

EFA Technologies, Inc.
1611 Twentieth Street
Sacramento, CA 95814
(916) 443-8842
FAX: (916) 443-3759

Contract Number: GS-24F-9001H

The second leak detection product is the D-Tek Refrigerant Halogen Leak Detector (Handheld Automotive Model). This monitor is used to detect a wide variety of refrigerant leaks in commercial automotive and truck maintenance repair facilities.

The Federal Supply Schedule contractor for this product is:

Nestor Sales Inc.
d/b/a Ace Tool Company
7337 Bryan Dairy Road
Largo, FL 34647
(813) 544-6114
FAX: (813) 544-6211

Contract Number: GS-24F-3039G

The third item is a Refrigerant Monitor, used to detect refrigerant leaks down to one part per million. This product offers different cost-effective alternatives for continuous monitoring of refrigerants with any chiller configuration. With this product you can be alerted early on to those allusive and insidious low level, costly leaks.

The Federal Supply Schedule contractors are:

North East Technical Sales Inc.
402 Gordon Road
Eton, PA 19341
(610)524-1212
FAX: (610)524-8425

Contract Number: GS-24F-3052G

SenTech Corporation
5745 Progress Road
Indianapolis, IN 46241
(317) 248-1988
FAX: (317) 248-2014

Contract Number: GS-24F-2049D

All of these items are available under Federal Supply Schedule 66 II R.

HP 51629A	HP 51640M	HP 51625A	Canon BC-20
HP 51633A	HP 51640Y	HP 51649A	and more....
HP 51640A	HP 51645A		

FREE postage paid recycle collection boxes. Holds 6 empty HP 51626 / 51629 Ink Jet cartridges. Other Ink Jet cartridge recycle materials available free from the GTS web site.

NSN No.	Product	Price
8115-01-386-2293-A	6-Pack Ink Jet Recycle Collection Box	FREE

Unlike toner cartridges, Ink Jet cartridges have no moving parts. This allows them to be remanufactured to the same standards as new cartridges, or even higher with new formulation inks in some cases. When thrown away, however, this resource never breaks down in the landfill, and requires new virgin materials to produce new cartridges - needlessly!

GSA Customer Supply Centers

To order, contact your regional Customer Supply Center or obtain fax order sheet at: GTS web site: WWW.GTSisGSA.com/recycle/gaorder.htm

Services Acquisition Center Washington, DC

Wouldn't it be great if you could delegate all your difficult tasks?

At GSA's Services Acquisition Center, we take the stress of acquisition off your mind—and deliver fast, direct-access to the quality industry leaders you need in Professional Support Services.

By using our schedules, you're assured every professional is pre-qualified. The price is pre-negotiated. We make compliance with procurement regulations easy. The result? You can now clearly focus on selecting the specialists who can do the best work for you.

In each edition of MarkeTips, we focus on a selection of programs that not only save the taxpayers money, but also assist agencies with specialized tools to meet their requirements. This edition concentrates on our:

- Equal Employment Opportunity (EEO) Services,
- Auditing and Financial Management Services,
- Temporary Clerical Support Services,
- Temporary Professional Support Services,
- Financial Asset Services, and
- The Next Generation of Travel, Purchase, and Fleet Payment Systems, Otherwise Known as GSA SmartPay.

In addition, we are also featuring a "How to..." section on the basics of placing a task order against one of our schedules.

Please share this article with those in your agency who may benefit from these

services. For further information or a listing of the many additional professional services that we provide, please contact one of our customer service representatives on (703) 305-6658 or visit our website at www.fss.gsa.gov and click on the SERVICES listing.

One Stop Shopping with GSA's EEO Program

GSA's newest Equal Employment Opportunity (EEO) Multiple Award Schedule (MAS) is now in full swing. Twenty-four EEO vendors have contracts awarded under the new MAS schedule.

The new MAS schedule contains no zonal restrictions and provides for a complete spectrum of services supplied by qualified EEO vendors at competitive prices.

Agencies can now meet all of the Federal Government EEO regulation requirements with this new and inventive "one stop shop" schedule.

The features of this program can be used to address existing EEO issues within your organization, or more importantly, this service can be used to create a healthier organizational culture and working environment. The new schedule features the following services:

- EEO Counseling,
- Alternative Dispute Resolutions,
- EEO Training and Consulting (off the Shelf Training and Customized Training)
- Investigations (at the Government Facility or at the Contractor's Facility),
- Final Agency Decisions,
- Inquiries Regarding Notices of Intent to Sue under the Age Discrimination in Employment Act,
- EEO Reference Materials,
- Analysis of Allegations of Noncompliance with Settlement Agreements and their findings.

We invite you to view our EEO Services in more detail. Please visit our website at:

<http://pub.fss.gsa.gov/services/eo>

For more information on eliminating the "Red-Tape" commonly associated with the EEO process, please contact Ms. Cindy Jones at the following e:Mail address: cindy.jones@gsa.gov or phone: (703) 308-0803.

Auditing Services and Financial Management Services

GSA's Services Acquisition Center is proud to announce the availability of a new Multiple Award Schedule for Auditing and Financial Management Support Services. This multiple award schedule provides the Federal Community direct access to industry leaders who provide auditing and financial management services to assist agencies in meeting their missions. Government officials, policy makers, and managers need reliable financial and performance information in order to achieve the goal of developing a more responsive and effective government. This schedule provides agencies with a wide choice of vendors, services and prices to meet all of your auditing and financial management needs.

Benefits of this program include direct access to specialized expertise agencies need but do not have on staff and assistance in meeting the requirements of the Chief Financial Officers (CFO) Act, Government Performance and Results Act (GPRA), and various Office of Management and Budget mandates, circulars, and bulletins. Available services include but are not limited to: Financial Audits, Performance Audits, Accounting, Budgeting, Financial Consulting, and other financial management services. The general types of contractual support covered by this program include:

Financial Audits

Provides CFO Act Financial Statement Audits, Forensic Audits, Cost Incurred Audits and Indirect Cost Audits.

Performance Audits

Provides IG Act Audits such as Economy and Efficiency Audits, Program Results, and Program Fraud Audits.

Accounting Services

Provides Accounting and Bookkeeping Support, Accounting Reconciliation, Data Manipulation, Financial Management Accounting Services, Preparing Pro Forma Statements, and Cost Benefit Analyses.

Financial Consulting

Provides Accounting and Audit Consulting, such as Policies and Procedures, Financial Procedures, Internal Control Structure, Financial Systems Improvement, Financial Systems Implementation, Actuarial Services, and Activity Based Costing.

We invite you to view this financial service in more detail. Please visit our website at:

<http://pub.fss.gsa.gov/services/audit-mgmt-svcs>

For more information on GSA's Auditing and Financial Management Services, please contact Ms. Alexandra Walter at the following email address or phone number: alexandra.walter@gsa.gov or (703) 305-6747.

Financial Asset Services

This exciting new GSA program provides a vehicle for all Government agencies to obtain the services of industry leaders with the qualifications, commitment, expertise, and experience required to assist the Government in the evaluation, management, maintenance, and disposal of various assets. The general types of support for Government financial asset services available through contracts under this program include, but are not limited to:

Transaction Financial Advisor Services

Provides asset sales services such as the valuation, management, maintenance, restructuring, and/or disposition of various assets (secured and unsecured notes, premiums, revenue streams, and other receivables).

Program Financial Advisor Services

Provides program financial advisor services which can include overall program management and staff development of marketing plans for an asset sale, review of sales reports, post sale analyses, and credit reform analyses.

Due Diligence and Support Services

Provides Federal Agencies with information to confirm and validate an agency's representations concerning the financial status and/or history of assets offered for sale to the public.

Loan Servicing

Provides services to monitor, service, maintain, and occasionally re-finance Government-held loans and assets such as bank loans, single family and multi-family project mortgage loans, education loans, small business loans, agricultural loans, etc.

Continued next page

Equity Oversight and Monitoring

Provides Federal Agencies with contractors who oversee limited partnership-type arrangements to ensure the Government interests are maximized.

We invite you to view this financial service in more detail. Please visit our website at:

<http://pub.fss.gsa.gov/services/asset-svcs>

william.toth@gsa.gov or (703) 305-6670
catherine.maloney@gsa.gov or (703) 305-7014.

Temporary Clerical and Temporary Professional Support Services

Have members of your administrative and professional staff been out sick when a critical project was due?

Are events like jury duty always happening at the worst time?

If so, let GSA come to the rescue with our two new Temporary Support Services Programs. Temporary Clerical and Temporary Professional Support Services both provide access to contractors, who are qualified to supply expert administrative, clerical, and professional support services to the Federal Government. The two contracting programs are 100% small business set-asides. Recent changes in the Procurement Preference Goal Program allow agencies to count the amount of any orders placed for these services towards meeting their small business goals.

Our Temporary Clerical Support Schedule provides clerical, legal, and medical secretaries; receptionists; general and administrative clerks; audit and accounting clerks; data entry operators; court reporters; stenotype operators; and transcribing machine operators.

Our Temporary Professional Support Schedule provides agencies with a wide range of professional services such as accountants, auditors, contract specialists, desktop publishers, environmental analysts, environmental technicians, graphic designers, lawyers, librarians, and market research analysts to name a few.

Both schedules allow agencies to solve temporary staffing problems by providing for the short term assistance of superior clerical and professional services.

These schedules offer many benefits such as:

- Orders for assistance can be filled within 24 hours,
- Quick response to changing staffing requirements,

- Temps can be used for up to 240 consecutive days,
- Choice of vendors, and
- Customers will be able to place orders on **GSA Advantage!**TM.

We invite you to view our Temporary Support Services in more detail. Please visit our website at:

<http://pub.fss.gsa.gov/services/temp-svcs>

For more information on GSA's Temporary Clerical or Temporary Professional Support Services, please contact Mr. Guy Galloway at the following email address or phone number:
guy.galloway@gsa.gov or (703) 305-6000.

GSA SMARTPAY The Next Generation of Travel, Purchase, and Fleet Payment Systems

This special program is a master contract, not a multiple award schedule. GSA has special ordering instructions and assistance available on our website listed at the end of this article.

GSA SMARTPAY, the next generation of Travel, Purchase, and Fleet Card Programs, replaces the Travel and Transportation Payment and Expense Control System (AMERICAN EXPRESS); Government-wide Commercial Purchase Card Program (US BANK's I.M.P.A.C.TM); and the U.S. Government Fleet Services Card (Wright Express). The contracts effective November 30, 1998, have a base period for five years with five one-year options. Agencies will place task orders against this contract, and select a system that best meets their requirements and the Federal Supply Service (FSS) will provide assistance as needed.

Continued next page

This unique program was awarded under a master contract approach for the first time. GSA has historically awarded these contracts separately with each program area being awarded to only one vendor. The master contract concept offers enormous benefits over the previous procurement method. This new approach recognizes that one size does not fit all. Agencies have varying financial requirements and it is impossible to design one system that meets everyone's needs. Under this new approach, agencies will have a selection of vendors and services to choose from and the flexibility to tailor a program to meet their unique needs. Agencies will also have the ability to change vendors if they wish during the contract period. In addition, for the first time ever, agencies will be able to integrate two or more of the travel, purchase, or fleet functions on one card. The structure of the master contract concept allows for continual access to advances in technology, which encourages competition within industry to develop program improvements and share these best practices with the Government.

On February 10, 1998, GSA announced the award of six contracts for the next generation of Federal government charge cards, bringing Federal agencies closer to a single payment system for multiple services. With a potential contract length of 10 years, charges under these contracts could total \$100 Billion.

Purchase card contracts were awarded to American Express, Citibank, First National Bank of Chicago, Mellon Bank, NationsBank, and US Bank (formerly Rocky Mountain BankCard Systems).

Contracts for travel-related payment services were awarded to American Express, Citibank, NationsBank, US Bank, and First Chicago (integrated only).

Fleet card services will be available from American Express, Citibank, Nationsbank, US Bank, and First Chicago (integrated only). As mentioned previously, these services—Purchase, Travel and

Fleet—are currently provided by three separate contractors. Under the new contracts, an agency could choose to receive more than one service (Purchase and Fleet for example)—plus innovative add-ons—from a single contractor.

American Express, Citibank, First National Bank of Chicago, NationsBank, and US Bank (formerly Rocky Mountain BankCard Systems) were awarded contracts that integrate two or more services (Travel and Fleet for example). Such integration might include administrative functions like account set-up and maintenance and financial processes such as reconciliation, reporting and invoicing. Agencies, therefore, could process account set-up through a single system and receive combined reports.

“These contracts represent another step in simplifying government financial transactions and saving on administrative costs while offering agencies broad choices in card-based services,” said GSA Administrator David J. Barram. “They also offer new and innovative methods to increase electronic commerce activity and capture financial data for accounting and performance measurement. This is another major step in our efforts to reinvent how the Federal Government does business.”

Frank P. Pugliese, Jr., Commissioner of GSA's Federal Supply Service—the GSA component that handled the procurement—added, “This is the largest single procurement of card-based services. Agencies will have access to a variety of commercial services, increasing the potential for streamlining transactions, saving money, and improving accountability.”

What services are available?

Traditional card based services as well as ATM services, travelers checks and convenience checks are available. Additionally, contractors may offer new services

such as smart cards, stored value cards, and other emerging technology.

Some of the Advantages of GSA SMARTPAY are:

- Streamlines Agency's procurement process
- Reduces administrative costs
- Improves Agency cash management
- Provides Agencies with the ability to designate cardholders and their spending limits
- Limits the need for imprest funds, third party drafts, and "cash on hand"
- Provides extensive management reports for tracking expenditures and payments
- Improves control and payment process options
- Works like any commercial credit card
- Provides detailed monthly statements that are available electronically
- Provides rebates to agencies

Want to Place An Order for a “Service” But Your Not Quite Sure How? Read on!

In this edition of MarkeTips, we are presenting a section devoted to the Task Order Request Process. This material supplements information provided on the Federal Supply Service Schedules website at www.fss.gsa.gov.

Multiple Award Schedule Task Order Request Process:

For orders **under \$2,500:**

Agencies can obtain services simply by placing an order with the schedule contractor of the agency's choice.

For orders **over \$2,500:**

a) The agency should prepare a performance-based Statement of Work (SOW) which includes the following information:

- Detailed Description of all Tasks to be Performed.
- Deliverable Schedule .
- Applicable Standards.
- Acceptance Criteria.
- Period of Performance (including any options).
- Location of Work.
- Any Special Requirements (i.e., security clearances, travel, special knowledge, etc.).

After developing the SOW, the agencies should review the Federal Supply Schedule contractor catalogs and pricelists to identify at least three contractors who are able to meet their requirements. For requirements in excess of the schedule's maximum order threshold, the request for quotes should be provided to additional contractors who can meet the agency's needs. The agency may contact the contractors for additional information, if

desired, to assist in determining which contractor can best meet their need.

b) The agency should develop a written task order request. The task order request is not an actual task order, but rather, a request for proposals from the Federal Supply Schedule Contractors. The task order request should include:

- 1) The performance-based SOW.
- 2) A request for technical proposals (a detailed proposal explaining how a schedule contractor plans to meet the requirements of the SOW). The technical proposals may be either oral, written, or a combination of both as determined by the ordering agency. When appropriate, agencies are encouraged to request oral proposals from the contractors.
- 3) A request for the contractor to submit either a firm-fixed price or a ceiling price to provide the services outlined in the SOW.
- 4) A draft format to standardize the contractors' price proposal submissions.
- 5) Evaluation Criteria and their relative importance.

The task order proposal generally is split into two parts: Technical and Price. All

criteria used to evaluate either portion of the potential contractors' proposals must be identified in the agency task order request as evaluation criteria. The agency task order request must also direct the contractors to include such information in their technical and price proposals.

Technical Proposals:

The following checklist represents some commonly used evaluation criteria for service contracts.

- The contractor's understanding of the requirements.
- A description of the contractor's technical and management . approach to accomplish the requirements within the specified timeframe.
- A listing of milestones or a break down of when certain facets of the required task will be completed.
- A description of the skill categories to be utilized.
- A description and/or listing of which portions of the effort will be sub contracted, if any.
- A description of the number of hours required to accomplish the work effort for each requirement, mile stone, or breakdown of the work structure.
- Corporate experience.
- Past performance.

Price Proposals:

Unless otherwise specified, pricing shall be firm-fixed price. The firm-fixed price shall be based on the hourly rates in the schedule contract or the hourly rates negotiated by the ordering agency. (Agencies may negotiate price reductions and the schedule contractors are no longer required to extend the reduced prices to other Federal customers.) Pricing shall consider the mix of labor categories and level of effort required to perform the services described in the SOW. The firm-fixed price of the order should also include any travel costs or other incidental costs related to the performance of the services ordered, unless

Continued next page

the order provides for reimbursement of travel costs at the rates provided in the Federal Travel or Joint Federal Travel Regulations.

The following checklist represents information agencies commonly request contractors to provide in their price proposals.

- List all tasks to be performed and the number of hours required for completion.
- Identify the skill levels required to perform each task, the number of hours needed for each skill level, and the associated labor rate for each skill level.
- Summarize the total number of hours and the extended price required to complete each task.
- Summarize the extended price by labor hour category.
- Provide a total price for all tasks.

If the ordering office makes a determination that it is not possible to accurately estimate the extent or duration of the work or to anticipate costs with any reasonable degree of accuracy at the time of placing the order, a labor hour or time-and-materials proposal may be requested. A ceiling price must be established for labor-hour and time-and-materials orders.

6) Method of Award

The task order request must notify the contractors what basis will be used for selecting the contractor to receive the order and the basis for determining whether the contractors are technically qualified.

7) A due date for receipt of written and/or oral proposals

Agencies are not required to develop formal evaluation plans or scoring schemes for task orders in accordance with FAR 8.4 and agencies are free to make award on a low price, technically acceptable or a best value basis.

c) **The agency should submit the task order request to the identified FSS schedule contractors.** For orders estimated to exceed the micro-purchase threshold, the task order request should be sent to three schedule contractors. If the task order is estimated to exceed the schedule maximum order threshold, the request for proposal should be provided to additional contractors that offer services that will meet the agency's needs. The contract maximum order level is not a ceiling. Rather, it is a suggested target for the agency to seek further price

reductions. If the order exceeds the maximum order threshold and/or the contractor agrees to offer further price reductions, the order should still be placed against the schedule contract. Contractors are no longer required to pass price reductions given to one Federal customer to other Federal clients. Agencies may seek price reductions on task orders of any dollar value.

d) **The contractor(s) shall submit a task order proposal, or notify the ordering agency if they wish to decline the request,** within the timeframe specified by the ordering agency in the task order request.

e) **The Agency will review and evaluate each task order proposal submitted by the contractors.** The technical proposal should be evaluated in accordance with the evaluation criteria and the method of award specified in the task order request.

f) **The Agency selects the contractor that best meets its needs.** After the proposals have been evaluated against the criteria included in the task order request, the agency may:

- select the contractor that represents the best value (considering price, special qualifications, administrative costs, etc.) without further negotiations; or
- conduct negotiations.

If negotiations are conducted, they will occur at the time and place designated by the ordering Contracting Officer and/or his/her designated representative. Following the completion of negotiations, the Contractor shall submit a finalized task order proposal, as directed by the ordering Contracting Officer. The agency will then select the contractor that represents the best value based on the revised proposals.

g) **A task order is issued by the ordering Contracting Officer.** The task order will reflect the final revision of the technical and price proposal and include a firm milestone schedule.

Any changes to a task order will be issued in writing by the ordering Contracting Officer. Only the ordering Contracting Officer may modify the terms and conditions of the task order. A task order may not increase the scope of the contract. The ordering Contracting Officer does not have the authority to modify the terms and conditions of the contract.

h) **Agencies may establish Blanket Purchase Agreements (BPAs) for recurring services** under the Federal Supply Schedule program if the following procedures are used:

The BPA must:

- Define the services that may be ordered under the agreement.
- Specify the delivery or performance time frames.
- Establish billing procedures.
- Estimate, but not guarantee, the volume of purchases that will be made through the agreement. (Contractors may be open to progressive discounts as the volume of orders placed under the BPA increases.)
- Identify the offices able to place orders against the BPA.

Continued next page

Agencies establishing BPAs for ordering services off schedule shall identify their intention to use a single or multiple BPAs to meet the requirements of their SOW in the task order request that is forwarded to contractors for consideration. The task order request must also indicate the basis that will be used for selecting the contractors to be awarded BPAs.

Established BPAs must be reviewed annually to ensure that the agreement still represents the best value (considering price, special qualifications, etc.) and results in the lowest overall cost alternative to meet the agency's needs.

General Guidelines:

- Ordering offices should give preference to small business concerns when two or more contractors can provide the services at the same firm-fixed price or ceiling price.
- When the ordering office's requirement includes both products and professional services, the ordering office should total the prices for the products and the services and select the contractor that represents the greatest value in terms of meeting the agency's total needs.
- The ordering office, at a minimum, should document orders by identifying the contractor from whom the services were purchased, the services purchased, and the amount paid. If other than a firm-fixed price order is placed, the documentation should include the basis for the determination to use a labor-hour or time-and-materials order. For agency requirements in excess of the micro-purchase threshold, the order file should document the evaluation of schedule contractors' proposals that formed the basis for the selection of the contractor that received the order and the rationale for any trade-offs made in making the selection.

Frustrated?

Questions about the Federal Supply Service keep popping up?

Office of Transportation and Property Management

Transportation Management Programs

Federal civilian agencies can reap significant benefits by using the General Services Administration's (GSA's) Centralized Household Goods Traffic Management Program (CHAMP) and Freight Management Program (FMP). For example, GSA negotiates deeply discounted rates on behalf of Federal agencies for the movement of household goods and freight shipments. In addition, GSA has instituted a strict carrier approval process to carefully screen carriers that wish to participate in the household goods program. GSA's extensive experience in negotiating discounted rates and approving carriers can benefit all agencies and be an especial boon to those of you affected by downsizing, freeing you from the burdensome task of having to conduct rate negotiations and carrier approvals in-house. You can instead use your valuable resources elsewhere. GSA's ability to solicit rate offers on a worldwide basis provides for a more competitive environment, and results in an average CHAMP discount of 49%.

Additionally, GSA provides for the Federal civilian agencies separate Household Goods Tender of Services's (HTOS)

-- Domestic Tender of Service (DTOS) effective January 2, 1996,

-- International Tender of Service (ITOS) effective October 1, 1995, supplements thereto and reissues thereof for domestic and international household goods shipments.

GSA also provides Standard Tender of Service (STOS) for FMP. The HTOS and STOS establish carrier service and performance standards with which partici-

pating carriers agree to comply. GSA's expertise in establishing specific performance standards has in many cases resulted in standards that exceed those in the commercial sector. Regarding the domestic and international HTOS identified above, efforts are underway to develop one HTOS that will incorporate both the tenders' into one publication. A draft of the HTOS along with the official STOS can be found on the GSA web site at:

<http://www.kc.gsa.gov/fsstt>. The STOS is also available on the GSA CD-ROM.

As a Federal civilian agency involved with household goods movements and/or freight shipments, it is important for you to review provisions of the HTOS and STOS to ensure that you are receiving the best transportation services available. CHAMP has many provisions to benefit you, among them: level of service, released value, long carries, weight variance, late delivery reduction, and claims settlement penalties. Under the FMP, Federal civilian agencies also benefit from specific provisions in the STOS such as: all shipments move at full value, specific transit times, ability to aggregate freight claims, and a wide variety of accessorial services to be provided by the carrier. Both CHAMP and FMP provide benefits and performance standards that will help you manage your transportation programs.

If you would like additional information about CHAMP and/or the FMP, please call us at (816) 823-3646 or FAX us at (816) 823-3656. You also may e:mail (for CHAMP) carla.young@gsa.gov or richardj.johnson@gsa.gov; and (for FMP) robyn.bennett@gsa.gov or cindy.schardt@gsa.gov, phone them at (816) 823-3546.

GSA Transportation Management Web Site Update

For those of you who may not recently have visited GSA's web site at www.kc.gsa.gov/fsstt, here are some items of interest you may have missed:

1. August 4, 1997:
Publication of 1997 Carrier Satisfaction Indices(CSI). This index represents a household carrier's average performance level compared with all carriers in the GSA program. For more information, contact Carla Young or Brian Kellhofer at (816) 823-3646.
 2. January 12, 1998:
1995 GSA CHAMP Annual Report published on the web site for the first time. This report provides CHAMP statistical data including: major CHAMP program activities, GBL versus Commuted Rate Schedule analyses, CHAMP data compared with other household goods industry data, and detailed carrier performance information. This information also is available on the ITMS CD-ROM. You may direct questions to Cindy Schardt at (816) 823-3646.
 3. February 24, 1998:
Minutes from the February 12, 1998, CHAMP Federal Household Goods Transportation Council Meeting. For further details, contact Kim Anderson at (816) 823-3646.
 4. Continuing updates on distribution of the Interagency Transportation Management System (ITMS) CD-ROM.
- We regularly post these and many other timely and interesting topics at our web site. Stop by and visit! Also, we welcome your comments and suggestions about the format and content of information posted on our web site.

GSA Federal Household Goods Transportation Council Meeting

On February 12, 1998, the Program Management Office (PMO) for the Centralized Household Goods Traffic Management Program (CHAMP) held a Federal Household Goods Transportation Council Meeting in Washington, DC. We congratulate Noreen Toy-Sneddon, Department of State, on her election as Executive Director of the Federal Council and Charlie Hill, Department of Commerce, NOAA, on his election as the Assistant Executive Director. The Council discussed the following topics:

-- Summary of agency comments GSA received during Household Goods Focus Group meetings held February 10-11, 1998

-- Update on Move Management Services

-- Update on proposed changes to CFR 101-40 & 101-41

-- Update on combining the GSA Domestic and International Household Goods Tenders of Service

-- Brief discussion on the previous distribution of the draft international household good shipment evaluation form

-- Informed council members of the PMS's efforts to determine another method for the calculation of Customer Satisfaction Indices (CSI).

-- Discussion on using a third party to collect GSA Forms 3080, "Household Goods Carrier Evaluation Reports"

-- Distribution of a draft international household goods shipment evaluation form

-- Review of the PMO's calculation of Customer Satisfaction Indices

-- Discussion on whether to raise the maximum liability for full value protection on domestic household goods shipments from \$3.50 to a value not exceeding \$4.00 per hundred weight.

Minutes of the February 12th Council meeting have been posted on the web site at www.kc.gsa.gov/fsstt/hhg. You may direct any questions or comments to Carla Young at (816) 823-3646 or FAX (816) 823-3656, or e:mail to carla.young@gsa.gov.

Training Classes Learn from the Pros!

The Mid-Atlantic Region's FSS Transportation Training Branch is the government trainer for Travel and Transportation courses worldwide.

Sign up today and learn the new "Plain Language" FTR!

GSA's Office of Governmentwide Policy has issued the Federal Travel Regulation (FTR) Chapter 300 and 301 in a new "Plain Language" format that is easier to use and understand. This will be effective July 1, 1998. In conjunction with this, the Transportation Training Branch is offering a Temporary Duty Travel course which will educate you on the new FTR.

This course is one of several courses which can be tailored and offered as an on-site special at your location. You provide us the dates and location, and we will bring a quality course to you at a COST SAVINGS!!!!

REMINDER...

**See page 18 for
Registration Form**

National Furniture Center Washington, DC

In September of 1996, GSA's National Furniture Center (NFC) opened its Customer Resource Center (CRC) and showroom at the Washington Design Center in Washington, D.C. The Resource Center is located at 300 D Street SW, Suite 632, Washington, D.C. 20024 (Federal Center SW Metro stop).

The Center's reference library provides hands on access to current furniture, furnishings, fabric and carpeting schedules. You can also look at numerous vendor catalogs, as well as fabric and carpet samples and swatches. The showroom itself displays samples of the quality products available through GSA – giving customers a chance to see and touch furnishings. Displays rotate quarterly – highlighting different styles and program areas.

The CRC is open weekdays from 9:00am until 5:00pm and is staffed by NFC procurement and design professionals. While walk-in visitors are welcome, you may also make an appointment to meet personally with the design staff. To make an appointment or to simply ask a question, contact Michael Rudderforth on (202)-245-0045, FAX (202)-245-0038.

Do you need Wood Certificates or Photo Frames? Do you want them delivered directly from the manufacturer to your office? The frames listed below come with velcro adhesive for easy attachment and removal from systems furniture and can be used on any surface. Clear glass and white mats are included in these precision crafted frames that can be displayed either in a vertical or horizontal position.

NSN	Display Area Unmatted	Display Area Matted	Price
Oakwood Frames			
7105-01-440-6068	8 x10	5 x7	\$42.88

7105-01-440-6082	11 x14	8 x10	\$52.40

All frames are made in the USA at Eastern Carolina Vocational Center (ECVC) by persons with disabilities and are shipped in sturdy corrugated boxes of 12 frames per box. Your order is processed electronically for rapid delivery. For additional information about these and other available frames, check **GSA Advantage!**TM, visit the website at www.ecvinc.com or call GSA Customer Service at (703) 305-7003.

ECVC is an affirmative industry affiliated with JWOD and NISH.

Did You Know...

GSA's National Furniture Center, based in Arlington, VA, is part of the Mid-Atlantic Region's Federal Supply Service. The Center supports the furniture and furnishings requirements of federal activities worldwide, with annual sales of approximately \$1 billion.

Our procurement operations teams provide supply support expressly tailored to our customers' needs. Product options available through the Center include general office furniture (e.g., ergonomic seating, filing systems, daycare and classroom furniture), systems and automated data processing furniture, dormitory and quarters furnishings, hospital furniture, carpeting and more!

At the National Furniture Center, our customers are our greatest asset. With this in mind, we strive each day to maximize customer satisfaction. We are proactively committed to improving the quality of services we provide and to listening to our customers. To this end we have established, in recent years, three exciting initiatives:

-- **Customer Service:** Our Account Management and Customer Service Division is comprised of several core action teams. Each team includes purchasing specialists, customer service specialists, and technicians. These cross functional teams are able to respond quickly to status requests, discrepancies and expediting orders.

-- **Quality Partnerships:** Communication with our customers and suppliers is key to our mutual success. Striving to maximize communication, GSA founded a Quality Partnership Council. The all volunteer partnership is comprised of equal representation from industry, our customer community and GSA. Its collective mission is to foster communication and education and to work

continuously to improve processes involved in servicing one another.

-- **Express Desk - Code 90:** To demonstrate our commitment to providing quality service to our customers, we are offering a convenient new "Express" ordering option.

In utilizing this process, customers simply fax their orders directly to the Center. Customers should include their Item Description, Part Number, Model, NSN, Manufacturer/Supplier, Price, Quantity, Appropriation Code and Contract Number. In addition to product information please provide an ordering point of contact, phone and fax number.

Information on all of these programs may be obtained by calling the Center on (703) 305-6636

Our direct customer service line is: (703) 305-7003

Express Desk - Code 90 orders can be faxed to: (703) 305-7934

New Item

English/Spanish Translation Kits Are Lightweight, Portable and Re-usable

Expert Translations Pase Inc., in conjunction with the Red Cross, as well as medical, military, and law enforcement experts fluent in technical Spanish, has produced the first comprehensive kit of English - Spanish status boards available anywhere. (GSA New Item Introductory Schedule Contract Number: GS-28F-7058G).

Actually Two Complete Kits in One

Each of the 17 status boards in this kit are printed in English on one side and Spanish on the other. These boards are ideal for cities along the United States Southwest border, for international response and relief agencies, for Customs, Immigration and other law enforcement agencies. These kits are also excellent tools for incident command and control, emergency management and emergency public information.

Above All, They're Practical

Each kit is lightweight, portable, low-tech, reusable and affordable. They can be set up anywhere. They permit people to train with the same tools they will use in an actual event.

Every kit contains 17 24"x36" erasable, updatable and reusable mylar laminated bilingual status boards. The kits also have wet erase marker pens and one (1) each English and Spanish set of master boards in form size (8-1/2"x 11"), plus a portfolio carrying case.

Orders may be placed directly with the manufacturer by calling (502) 394-0845; fax: (502) 394-0822 or at Pasa's Website: <http://www.pascinc.com>. The Government I.M.P.A.C.® card is accepted!

Bend-A-Light® Flexible Light Inspection and Parts Retrieval Tool Kit

-- 10 inch flexible light shaft with mini size halogen bulb illuminates hard-to-reach areas for inspection and servicing. Light passes through openings as small as 1/4 inch.

-- Plastic extension wand extends reach to 24" and doubles as protective cover for bulb and shaft.

-- Attachable tip magnet permits small parts retrieval.

-- Clip-on magnetic mounting device allows hands-free use.

-- Penlight and attachable reflector add to lighting and inspection capabilities.

The World's Most Advanced Ratchet System

-- Eliminates The Weak Link –
Sockets click directly into the ratchet head for up to a 40% stronger, more direct transfer of power.

-- Eliminates Tight Spot Hassles –
Integrated ratchet/socket design is up to 50% slimmer than ordinary ratchets. You can work in places ordinary ratchets can't reach.

-- Eliminates Trips To The Tool Box –
Bolts pass through the ratchet head, eliminating the need for deep sockets or open end wrenches.

-- Eliminates Confusion - Sockets are color coded: Red for Fractional - Blue for Metric. Changing sockets is easy - Just a push of the thumb! - Comes with adapter so you can still use your old sockets.

Armstrong® Eliminator™ Sets

Survival/Multi-Purpose Knives

Over the last several years some of the best selling items in the GSA, Tools and Appliances Center's stock program have been the "survival" and multi-purpose knives used by virtually all areas of the Government. Just recently the contractor has made a positive commercial change to ensure the safety of all users of these item(s).

This enhancement, known as the Multi-Plier® Multi-Lock™ automates the lock in place for the ten major components of this tool in order to ensure safety. Once your use is completed, pressure on the lock release permits a quick, easy release, and closure, of the component back into the "tool box which fits in the palm of your hand". Even with this addition the tool continues to measure 5 1/8" when closed.

Five (5) of these NSN's are available in the stock program for immediate order.

NSN: 5110-01-346-5339

New Item

Toolfinder A Tool Recovery System

A misplaced tool can be the greatest threat to aircraft safety and flight readiness. The Toolfinder Recovery System is your most potent weapon in the fight against tool Foreign Object Damage (FOD). The total responsibility for aircraft safety and reliability rests on the maintenance team's shoulders. The pressure of quickly returning aircraft to the

NSN: 5180-01-449-4996
U/I: KT
Price: \$11,788.74

flightline is often intense on maintenance personnel. Errors like misplacing a tool can keep an aircraft grounded until that tool is located.

The Toolfinder Recovery System has been developed to reduce the time spent locating misplaced tools which could lead to serious damage if not found. Since Toolfinder can quickly detect tools lodged in critical areas where visual inspection isn't possible, down time and risk of tool FOD is greatly reduced.

Toolfinder can relieve some of the pressure of your job, helping you to keep your aircraft in the sky.

Order using FEDSTRIP/MILSTRIP or MUFFIN procedures.

New Item

The Super Tork Fastening Tool Kit

The TDA Fastening Tool has a ratcheting head which can maneuver into seven different positions. Its chrome plated and hardened body is 300% stronger than any other ratcheting screwdriver design available. This kit comes with 41 attachments including Metric and SAE Sockets, Phillips bits, slotted bits, hex bits, and star bits all neatly packaged in a blow molded carrying case. No shop, garage or mechanic should be without this multi-purpose tool. It could be the only screwdriver you'll ever need.

Order by using FEDSTRIP/MILSTRIP or MUFFIN procedures.

Are you looking for the perfect Appliance...check out the Appliances and Services Acquisition Program (ASAP)!

Order using FEDSTRIP/MILSTRIP or MUFFIN procedures or through GSA Advantage!TM.

This program offers you choices in vendor and product lines through the availability of over 1200 new appliances' National Stock Number's (NSN's) under contract with quality, brand-name vendors. Each NSN in this program is assigned to a specific manufacturer's model number. Check out some of the choices available on GSA Advantage!TM

NOTE: Effective October 1, 1998, Appliances will be available on Multiple Award Schedules (MAS).

Frigidare FMT116 Space Save Microwave

Compact microwave mounts above a rangetop to save space * 850 watts cooking power * 1.1 cu. Ft. oven cavity * Electric touch pad controls * 5 cooking modes, 10 heat settings, 6 cooking programs * Digital clock-timer * Interior oven light * Blackoven window * 120 volts, 60 Hz * 15-13/32" h X 24-7/8" w X 14" d.

NSN: 7310-01-428-1870
Price: \$324.59

White-Westinghouse FSE747 Electric Clothes Dryer

Affordable price in a convenient single-family electric dryer * 5.5 cu. Ft. drum capacity * Program settings for 3 heat selections, 3 auto-drying cycles and 4 timed cycles up to 70 minutes * Adjust-

able end-of-cycle signal * Heat sensor * RH door opens wider for easier accessibility * 4 leveling legs * Rear exhaust with additional knockout * 1/4 HP motor * Requires 4500 heating watts, 30 amps 208/240 volts, 60 Hz * 36" h X 26-7/8" w X 25-1/4" d

NSN: 3510-01-428-3742
Price: \$380.41

White-Westinghouse FWT445 Clothes Washer

Deluxe features on a convenient front loading single-family washer * 2.7 cu. Ft. tub capacity * Automatic water level selection * Program settings for 8 wash cycles, 4 wash/rinse temperatures, 2 wash and agitate/spin speeds * Automatic liquid bleach dispenser * Safety lock lid * Self-leveling front legs, rear rollers * Requires 15 amps, 120 volts, 60 Hz * 36" h X 26-3/4" w X 24-3/4" d.

NSN: 3510-01-428-3730
Price: \$761.91

MicrofridgeTM MF-3 (Black)

Combination Refrigerator, Freezer and Microwave. Runs all 3 appliances on a single cord * Microwave oven permanently fixed to the refrigerator * Refrigerator has 2.9 cu. Ft. fresh food compartment * Separate door * Door storage for small packages, * Interior light * 2- shelves * Adjustable temperature control * Freezer has 0.7 cu. Ft. compartment * Separate door * 2 Ice trays * Microwave has 600 watts power * 2 power cooking levels * 30 minute timer with audible signal * Glass carousel * Window in door * Operates on 120 volts, 60 Hz * maximum dimensions: 45" h X 21" w X 26-1/2" d.

NSN: 4110-01-355-3015
Price: \$469.79*

*For Price Breaks on MicrofridgesTM and more information contact Janna Babcock at (816) 926-1299 or E:mail janna.babcock@gsa.gov

Order using FEDSTRIP/MILSTRIP or MUFFIN procedures.

Microfridge™ MF-3 (White)

Combination Refrigerator, Freezer and Microwave. Runs all 3 appliances on a single cord * Microwave oven permanently fixed to the refrigerator * Refrigerator has 2.9 cu. Ft. fresh food compartment * Separate door * Door storage for small packages * Interior light * 2 shelves * Adjustable temperature control * Freezer has 0.7 cu. Ft. compartment * Separate door * 2 Ice trays * Microwave has 600 watts power * 2 power cooking levels * 30 minute timer with audible signal * Glass carousel * Window in door * Operates on 120 volts, 60 Hz * maximum dimensions: 45" h X 21" w X 26-1/2" d

NSN: 4110-01-442-4309

Price: \$469.79*

*For Price Breaks on Microfridges™ and more information contact **Janna Babcock** at (816) 926-1299 or Email janna.babcock@gsa.gov

Staber System 2301 Clothes Washer

Horizontal-Axis top loading single-family washer offers economical operation. * 2.0 cu. Ft. tub capacity * Stainless steel tub and wash basket * Variable water level selection * Program settings for 3 wash cycles, 3 wash/rinse temperatures, 3 wash and agitate/spin speeds * Automatic liquid bleach and fabric softener dispenser * Safety lock lid * Motor rated 1/2 HP * Requires 8.0 amps, 120 volts, 60 Hz * 42" h X 27" w X 26" d.

NSN: 3510-01-445-1784

Price: \$1084.74

White-Westinghouse MGF352BF Self-Cleaning Gas Range

Oven has 4.05 cu. Ft. capacity with broiler * Removable black glass oven door with window * Removable oven storage drawer * Interior oven light * Digital clock * Free standing for flush-to-wall installation * 2 removable racks with 5 adjustable heights * 4 cooktop burners * Burner controls located on the manifold, oven controls located on the backguard * Electronic ignition * Convertible from LP to Natural Gas * Requires 120 volts, 60 Hz * 45-5/16" h X 29-7/8" w X 25-3/8" d.

NSN: 7310-01-441-2701 (White)

Price: \$475.24

White-Westinghouse MEF356BF Self-Cleaning Electric Range

Radiant rangetop provides more even cooking surfaces * Oven has 4.05 cu. Ft. capacity, saves time and work * Removable black glass oven door with window * Interior oven light * 2 removable oven

Radiant rangetop provides more even cooking surfaces * Oven has 4.05 cu. Ft. capacity, saves time and work * Removable black glass oven door with window * Interior oven light * 2 removable oven racks with 5 adjustable heights * Removable oven storage drawer * Three 6" and one 8" radiant surface elements with "ON" safety indicator lights * Burner and oven controls located on backguard * Lift-up cooktop * Electric digital clock with timer * Requires 40/35 amps, 208/240 volts, 60 Hz * 46-5/16" w X 29-7/8" w X 25-3/8" d.

NSN: 7310-01-444-9055 (White)

Price: \$497.04

Sharp R-430AK Standard Microwave

Low profile design in a portable/tabletop oven * 1.2 cu. Ft. oven capacity * 1000 watts cooking power * Electric touchpad controls * Program cooking with 8 cooking modes, 10 heat settings * Digital clock with automatic oven timer * Full black oven window * Interior oven light * Food carousel * Requires 120 volts, 60 Hz, 13.0 amps, 1.5KW * 12-1/8" h X 21-5/8" w X 17-1/8" d.

NSN: 7310-01-444-9059 (Black/Stone)

Price: \$155.66

Fedders A3T12F2AG 12,000 BTU Window/Wall Air Conditioner

Quiet cooling for home or office, mounts in window or through the wall. Removes 3.9 pints/hour moisture * 4 Air direction controls and fresh air intake * Up to 310 CFM air circulation * Rated 9.0 EER * 115 volts, 60 Hz, 12.0 amps, 1330 watts * Fits 24" – 39" window width * 15-3/4" h X 23-3/4" w X 22-1/2" d

NSN: 4120-01-445-1765 (Gray)
Price: \$370.60

Portatemp PAC02 7,000 BTU Portable Air Conditioner

Free standing air cooled unit rolls on casters to provide spot cooling. Removes up to 38 pints of moisture/24 hours to increase comfort * Up to 320 CFM air circulation * Rated 8.9 EER * 115 volts, 60 Hz, 6.5 amps, 780 watts * Interior cabinet size:
28-1/2" h X 22-1/2" w X 14" d.

NSN: 4120-01-444-1916
Price: \$1,197.91

Amana 7QZ21RC 6,600 BTU Window Air Conditioner

Highly efficient single room cooling comfort. Removes 2.0 pints/hour moisture * 2 air direction controls * Up to 180 CFM air circulation * Rated 10.0 EER * 115 volts, 60 Hz, 6.2 amps, 660 watts * Fits 13-1/8" – 19" window width * 13-1/8" h X 19" w X 20-1/16" d.

NSN: 4120-01-444-8452 (gray)
Price: \$358.88

Amana RSL669T Standard Microwave

Tabletop mounting plus portable convenience * 1000 watts cooking power * Electronic touchpad controls, 10 heat settings * Digital clock with automatic oven timer * Interior oven light * Food carousel * Requires 120 volts, 60 Hz, 20 amps, 1.5KW * 14-1/4" h X 21-3/4" w X 17-9/16" d.

NSN: 7310-01-444-8436 (Almond)
Price: \$241.38

Amana LE8317W2 Electric Clothes Dryer

Convenient single family dryer has a big 6.6 cu. ft. drum capacity * Program settings for 6 time drying and 2 auto-drying cycles, 3 heat selections * End-of-cycle signal * RH door opens wide for easier accessibility * 4 leveling legs * Motor rated 1/3 HP * Requires 30 amps, 5000 watts, 120/240 volts, 60 Hz * 43-1/4" h X 26-7/8" w X 28" d.

NSN: 3510-01-444-8441
Price: \$302.43

Amana ADU 5000DB Built-in Dishwasher

5 Programmable cycles, 4 Pushbutton controls, 3 Wash levels – all work together to get dishes sparkling clean * Cycles for pots & pans, light and normal & heavy wash * Drying "heat off" option * Detergent dispenser * Upper and lower rack, utensil basket * 120°F inlet water capability * Uses 9.0 gallons water per cycle * 50 cycles/kwh energy factor * 4 leveling legs, changeable door panel * 120 volts, 60 Hz, 15 amps * 34" h X 24" w X 24" d.

NSN: 7320-01-444-8448
(Black/Almond)
Price: \$321.45

Microkitchinn™ MK-8M

Combination Refrigerator, Freezer, Microwave and Coffee Maker. All on a single power cord * Total assembly dimensions: 69.63" h X 23.63" w X 24.5" d * 7.5 cu. Ft. refrigerator * Interior light * Reversible door * Automatic cold control * Push button defrost * Adjustable shelves * 2 vegetable crispers * 2 egg racks * Dairy compartment, 2.5 cu. Ft. Freezer compartment w/separate door * 600 watt Microwave * 15 minute timer * Removable glass cooking tray * Push button door release * Storage/workspace area and 4 cup personal coffee maker * Energy Management System (EMS) * Electric Load Management System * Unit supplied with 6 ft. power cord with 3 prong grounded plug * Maximum Load Total Assembly 950 watts, 120 volts, 60 Hz.

NSN: 4110-01-444-9053
Price: \$858.92

Defense Logistics Support Command

Ft. Belvoir, VA

Active Noise Reduction (ANR) Headsets And Accessories

The deafening roar of today's high-powered aircraft significantly interferes with communications--the vital link among commanders and front-line crews. It also increases fatigue, thus, reducing alertness. Long term exposure can cause permanent hearing damage. In fast-paced modern combat, noise can mean far more than a moment's discomfort or confusion. It can contribute to the loss of life and equipment. Defense Supply Center, Columbus, realizes the importance of ANR Headsets and has recently established the following National Stock Numbers (NSNs):

NSN: 5695-01-446-1028
Part No: 011696
Description: Aviation Headset with Straight Cord, High Impedance Electret Boom Microphone, Deluxe Carrying Case, Owners Manual
Price: \$965.00

NSN: 5965-01-446-1033
Part No: 011697
Description: Aviation Headset with Coiled Cord, High Impedance Electret Boom Microphone, Deluxe Carrying Case, Owners Manual
Price: \$965.00

NSN: 5965-01-446-1041
Part No: 002925
Description: Cushion Ear - Clear Comfort Silicon-Gel Ear Cushion Kit (one pair)

Price: \$35.00
NSN: 5965-01-446-1044

Part No: 016003
Description: Filter, Acoustical - One Foam Windscreen w/O-Ring

Price: \$2.00

NSN: 5965-01-446-1052
Part No: 016007
Description: Headband, Headset - One Foam Windscreen w/O-Ring

Price: \$25.00

NSN: 5965-01-446-1058
Part No: 019577
Description: Filter, Acoustical - One Pair Headset Cup Inner Foam

Price: \$13.50

NSN: 5965-01-447-9731
Part No: 015994
Description: Headset, Accessory, Communication Cables for Portable use (Fixed Wing), Stereo Phone and Microphone Plugs

Price: \$86.00

NSN: 5965-01-447-9750
Part No: 015998
Description: Headset, Accessory - Communication Cables for Portable Use (Helicopter) U174/U Plug

Price: \$86.00

NSN: 5965-01-447-9754
Part No: 015999
Description: Headset, Accessory - Installed Installation Kit Panel Connector w/6' Prewire Harness, Installation Instructions.

Price: \$31.00
NSN: 5965-01-447-9758
Part No: 011434
Description: Headset, Accessory - Nicad Battery Pak, 110V with Belt clip, 110V Charger, Owners Manual

Price: \$150.00

NSN: 5965-01-447-9762
Part No: 011435
Description: Headset, Accessory, Nicad Battery Pak, 220V with Belt Clip, 220V Charger, Owners Manual

Price: \$150.00

NSN: 5965-01-447-9764
Part No: 016001
Description: Headset, Accessory, Alkaline Battery Pak, Alkaline Cell Holder, Battery Case with Belt Clip

Price: \$25.00

For more information about these new S9E items, contact the Marketing Office, DSN 850-7594 or 1-800-643-8825.

Your Computer Needs A Bath!

Integrating cleaning into a hardware maintenance plan is like flossing regularly. You know you should do it, but if you're like most people, you probably don't. The Defense Supply Center, Columbus, recently assigned National Stock Number (NSN) 7035-01-450-8599 to a cleaning kit that is a safe, non-flammable, non-butyl formula that removes dirt, dust, food, grease, oil, toner and other stains. This kit was specifically designed to help troops clean and maintain field electronic equipment including base computer units, telephones, military electronics and all office equipment.

This kit consists of:

- 13" storage box
- 12 oz. canned air
- 5 toner wipes
- keyboard brush
- 2 sided detail cloth
- 3.5 diskette cleaner
- 16 oz. Computer Bath Power cleaner
- Lambswool duster
- Large detail brush
- 100" long wood handle cotton swabs
- Non-abrasive scrub pad

These computer cleaning tools have been developed for high efficiency cleanup and perform in all-terrain environments and extreme conditions. For further information about this new item, contact DSN 850-8555 or 1-800-643-8825.

Catalog For Flat Washers

A helpful new catalog exclusively for identifying flat washers is now available from the Defense Industrial Supply Center. The Commodity Business Unit, DISC-J, has developed this technical reference catalog for the purpose of informing various engineering/design activities, both military and civilian, of the fastener products available within the Federal Supply System. The flat washers listed

include any which are described with the following properties: Carbon Steel, Alloy Steel, Corrosion Resistant Steel (CRES), Cadmium Plate, Passivation, or Anodize. You may request a copy of this catalog by calling James McMullen at (215) 697-0502 or by DSN 442-0502 pr by fax using extension 3648.

EPA Approved Refrigerants Now Easily Available

Class 1 ozone-depleting chemicals (ODCs) are substances which have been shown to deplete the earth's protective ozone layer. The United States has banned the manufacture and importation of Class I ODCs and has sharply raised the federal tax on such chemicals. Obviously, these are just two of the environmental and economic reasons to switch to non, or less ozone-depleting chemicals to get your job done.

Under the Clean Air Act's Significant new Alternatives Policy (SNAP) the Environmental Protection Agency (EPA) identifies and publishes lists of alternatives to Class I ozone-depleting chemicals. It does not allow the introduction of new products that simply present different adverse effects on human health or the environment than those of the product being replaced.

Defense Supply Center Richmond, has added an alternative refrigerants category to the 1998 DLA Environmental products catalog. These alternative refrigerants are EPA SNAP-approved and are easily obtainable through the Federal Supply System. This cost is substantially lower than the Class I ODCs they are intended to replace and usually much lower than local purchase prices, especially overseas.

These new refrigerants, however, are not 'drop in replacements' for any Class I ozone-depleting chemicals. Regardless of which system is involved, it is impera-

tive the system manager approve the use of the new refrigerant and that appropriate retrofit work be carried out where needed.

Each of the following items is made to American Refrigeration Institute Standard 700, requires the system manager's approval and retrofit work, and comes with a disposable cylinder except where noted.

Refrigerant: R-123
NSN: 6830-01-391-3106
Size: CY (100 lbs.)
Price: \$542.64
Equip/Use: Stationary equipment

Size: CY (25 lbs.)
Price: \$367.28
Equip/Use: Mobile and stationary

For more information on alternative refrigerants call Dean Crawford, DSCR's equipment specialist for gases at DSN 695-3230, commercial (804) 279-3230 or e:Mail dcrawford@dcsr.dla.mil

For more information on DLA's Environmental Products catalog call Stephen Perez at DSN 695-6054, commercial (804) 279-6054, or e:Mail sperez@dcsr.dla.mil

More information EPA's SNAP Program is available on its hotline at (800) 296-1996. Overseas callers can dial (301) 614-3396. EPA's SNAP web site is at <http://www.epa.gov/ozone/title6/snap>

DISC Takes Over HEPP

Effective 1 January 1998, the Defense Industrial Supply Center (DISC) has taken over management of the Heavy Equipment Procurement Program (HEPP) from Defense Supply Center, Columbus, (DSCC). DISC is committed to serving the needs of their customers and will continue at the same level of service that they had received from DSCC. The following arrangements were agreed upon:

1. The DSCC surcharge would not be increased,
2. DISC will continued to accept MIPRs including CAT I Acceptance MIPRs,
3. The DSCC contracts will be utilized,
4. A group of Contracting Specialists from DISC was established to work directly with the major manufacturers of Equipment.

Fillers And Spacers

The Defense Industrial Supply Center has completed three Commercial Item Descriptions (CIDs) for the procurement of Rotary Sweeper Brush Fillers and Spaces for airport snow and ice removal. CID A-A-55630 is used for Continuous Fillers, CID ApAp55631 is used for Strip Fillers and CID A-A-55632 is used for Sweeper Brush Spacers. These CIDs along with the already existing CID A-A-55527 for Tufted Fillers may now be used to procure 20 national Stock Number items in Federal Supply Class 3825.

For information on procuring Rotary Sweeper Brush Fillers and Spacers, call Lou Cooker, DISC-HBD, at DSN 442-5646. For Technical information concerning these items, call Chris Armellini, DISC-BBEE at DSN 442-66612 or commercial (215) 697-6661.

CSD Seminars

Customer Service Directors in the following regions will conduct FSS Information Seminars for local customers. While our target audience is new employees in supply and procurement/contracting, updated material will be presented that may be of use to experienced personnel. The following are tentative dates and locations. Exact dates and locations will be announced in regional mailings. Seminars are free; however, lodging and transportation, if required, are the responsibility of the attending agency.
