CR Number: 2936

External Reference: SAFER CR 348

Category: New data element needed

Component: CVISN Architecture and Standards

Synopsis: A source, other than the authoritative source, may submit e-screening enrollment data to SAFER. States requested a data element to track the source of the transponder data.

Summary: Any state can update e-screening information (XML T0024). States do not object to an unauthorized state submitting transponder information for another state, as long as the vehicle registration data is not affected.

Proposal: Add a data element to track the source of the transponder data.

Status: Recommended

Disposition: [2004-10-25] Recommended for FMCSA approval.

Entered On: 8/23/2004 12:22:08 PM

CR Number: 2798

Category: Business rules/process to clarify data source

Component: SAFER/CVIEW

Synopsis: Synopsis: Data integrity issues are resulting from a source, other than the authoritative source, submitting vehicle registration data to SAFER.

Summary: A source other than the authoritative source can submit vehicle registration data to SAFER. If the authoritative source later updates the information, the data already in SAFER may be overwritten. Business rules/process need to be established (a) to clarify the source of data and (b) to coordinate data entry/update by authoritative source and authorized but not 'authoritative' source.

Proposal: The proposal consists of several clauses.

1. A state (in most cases, a "non-participating" state) may authorize another state to send vehicle registration data to SAFER on its behalf; this must be documented by letter/email. Letter/email will also be required to withdraw the authorization.
2. A new table in SAFER will be created to keep track of which states are authorized to send vehicle registration data to SAFER for any given state. The default would be that only the IRP base state would be authorized to send vehicle registration data to SAFER.
3. Volpe will consider whether the new table is also the appropriate place to store contact information.
4. If a state that is not authorized according to the process attempts to send vehicle

registration data (XML T0020, T0021, or T0022) for another state to SAFER, the XML transactions will be rejected and the IRP base state will be notified that an unauthorized state has attempted to send vehicle registration data on its behalf.

5. The REGISTRATION_START_DATE will be a mandatory field and REGISTRATION_EXPIRE_DATE will be a conditionally mandatory field in the vehicle registration data.

6. The table will be posted in some form on the CVISN website.

Status: Recommended

Disposition: [2004-09-27] Recommended for FMCSA approval. Will be posted to CVISN System Architects list serv for review.

External Reference: WA Bill Goforth GofortB@wsdot.wa.gov - SAFER CR 108

Category: Change to file size limit

Component: CVISN Architecture and Standards

Synopsis: The maximum transaction size should be reduced from 5,000 records to 2,000 records for the T0028 IRP Registration (Cab Card) Output Transaction and the T0031 MCMIS Safety and Census Output Transaction.

Status: Recommended

Disposition: [2004-03-18] Recommended at ACCB meeting, for future SAFER release.

Category: Need for permit snapshots

Component: CVISN Architecture and Standards

Synopsis: Since SAFER was originally developed it contained a capability to process carrier and vehicle permit data in an "assumed" form and data content. Wisconsin requested that an XML permit transaction be included in a future version of SAFER.

Status: Recommended

Disposition: Recommended for Expanded CVISN e-credentialing, open pending further analysis

Entered On: 9/18/2002 8:34:57 AM

CR Number: 66

External Reference: CR 1082

Category: Diesel Emissions Data in Inspection Reports and Snapshots

Component: Snapshots

Synopsis: A group of states is seeking to include diesel emissions data in inspection reports and flags in snapshots for interstate enforcement of environmental regulations. Corresponding CRFs should be issued for changes to ASPEN and/or other inspection support systems. The original emails from Massachusetts and New Jersey are in the folder \PVO\Config Mgmt\CRF Database\CRFs\Attachments\CRF_1082. Also in that folder are two presentations made originally at the Eastern States CVISN Design Workshop that spell out the proposal.
