

4. Acknowledgments

Reviews and suggestions for improvement of 1997 MKRRP Annual Report were made by Linda Mutch, Jeff Manley, and Bob Meadows. Assistance in the tedious task of printing, compiling, and checking that all sections of the report were included was provided by Bob Meadows. I would also like to thank everyone who contributed individual project sections for this report or helped in some other capacity. The BRD office provided equipment and assistance in printing the color copies.
