

Vehicle Acquisition and Leasing

GSA Automotive's on-line AutoChoice program has undergone several enhancements in an effort to expand its capabilities and assist customers in making informed choices for their vehicle purchases.

AutoChoice allows customers to:

- Choose Vehicle Makes and Models
- Compare Base Prices & Equipment Options
- Compare Miles Per Gallon (MPG) (Sedans and Light Trucks Only)
- Check Status (Sedans and Light Trucks Only)
- Place An Order On-line
- Link To The Federal Vehicle Standards

The program contains information on sedans, light trucks, light duty body trucks, medium/heavy trucks and buses.

New Enhancements

1. The newest enhancement to AutoChoice is that it now includes standard items under the **STAN** (Standardized Trucks Available Now) program. STAN covers the following medium/heavy trucks: cab & chassis,

dump trucks, van body trucks, stake trucks, truck tractors and maintenance/line body trucks.

2. Standard Items under our **BARB** (Buses All Ready to Buy) program are also now included in our AutoChoice program. It covers the following types of buses: school (adult passenger), shuttle, transit and coach. You can view the various types of buses and available options, configure your vehicle, compare prices and place an order.

3. The OEM Clarifications tab provides clarifications covering vehicle equipment options from DaimlerChrysler, Ford, General Motors and Honda for each model.

4. The Features and Specifications tab is available for sedans and light trucks (without body applications). This tab provides more detailed information about each model to assist customers in selecting the right vehicle for their agency's mission.

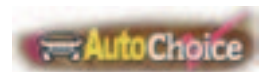

5. AutoChoice now includes a new section entitled Alternative Fuel Vehicles (AFVs). This section is located under Vehicle Types and it provides customers quick and easy access to view the standard

items which represent alternative fuel vehicles. The listing is categorized by AFV type.

If you would like to view AutoChoice, visit our web site at:

fss.gsa.gov/vehicles/buying then click on the AutoChoice button. The first time you use the program you will need to register as a new user. You will need to know your agency and bureau codes. In addition to configuring and pricing the vehicles that provide the best value, you can add your choice(s) to the "Garage" and place your order with GSA Automotive electronically. If you need assistance in accessing this information, please contact GSA Automotives' Customer CARE line on (703) 308-CARS.

Stay tuned for further enhancements to

- Naval Sea Systems Command
- Naval Air Systems Command
- Naval Surface Warfare Center
- Program Executive Office, Aircraft Carriers
- U.S. Maritime Administration
- United States Coast Guard
- City of New York
- Battelle Memorial Institute

Value-Added Engineering for the Customer through Innovative Engineering Solutions

SHARP offers innovative solutions to customer's design problems including a performance-based Risk Management Approach to design and engineering. SHARP's advantages include:

- Registered Professional Engineers (PE) on Staff
- Associates in Risk Management (ARM) on Staff
- Proven application of performance-based standards for bottom-line cost savings
- An ISO 9001 Certified Task Management system
- Many years of successful government contract performance
- A staff with prior Navy and Coast Guard Service, as Senior Enlisted Leaders through Commanding Officers, in touch with the end user's needs at all levels.

A Recent SHARP Solution:

A customer was building a large capacity passenger vessel (over 4,000 passengers) and felt that full compliance with the new USCG Lifesaving Equipment Regulations would be too high a cost, in dollars, weight, and lost deck space, as compared to the benefit provided. The SHARP Solution was to perform a full risk analysis of the vessel route and service. Based on casualty records, stakeholder interviews, and operational details, SHARP analyzed the risks and developed an integrated Risk Mitigation package of Training, Design, and Operational Procedures, that the U.S. Coast Guard accepted as providing a benefit equivalent to the full complement of primary lifesaving equipment. The result for the customer was less primary lifesaving equipment, a safer operation and millions of dollars saved in reduced lifecycle cost.

Pioneering, adventurous, willing to assume risk – words not normally used to define engineers, architects, and scientists – epitomize the people and values of ARCADIS.

Your project is accountable to many groups: public, regulatory, political, and media. ARCADIS combines international experience with local knowledge to ensure acceptance.

Every project presents a new set of challenges, from site-specific conditions to regulations and budget. Across America and around the world, our employees produce uncommon answers to infrastructure, buildings, environmental and communications issues: answers that cost less, take less time, and ensure sustainability.

Your projects bring important benefits to many people. Our dedication to scientific discovery and responsive, best value solutions are the tools you need to fulfill their expectations.

Carol Knight, Account Manager, Cendant Mobility

GSA

Schedule
Contract GS-23F-9762H

Our first federal relocation contract was awarded almost 20 years ago. Today, Cendant Mobility is the leading provider in every market it serves, including the federal government. In fact, many agencies that use an outside supplier for employee transfer services choose Cendant Mobility as their preferred relocation partner.

With almost a half-century of relocation experience, Cendant Mobility continues to lead the industry by offering the greatest number of solution-based, strategic products and convenient service options to federal agencies and others whose employees are relocating in the U.S. or overseas.

The Advantage is Real.

QUALITY

GSA Schedule
GS-35F-0036L

Lighten Your Load

Presenter-to-Go is an easy to use, fast and flexible tool that turns your handheld into a powerful presentation solution, making professional-quality presentations fast and easy.

Mobility

No need for a laptop means greater mobility. This is further enhanced by a convenient infrared remote, allowing you to move around easily while presenting. Presenter-to-Go's lightweight, travel-friendly set-up makes cumbersome presentation systems a thing of the past.

Compatibility

Presenter-to-Go offers unparalleled compatibility, giving you the ability to make presentations from PowerPoint and printable PC applications. Presenter-to-Go shows up as an icon right on your PowerPoint toolbar, and it installs as a printer driver, making mixed-format presentations simple.

Ease of Use

Presenter-to-Go is very easy to use. Turn on your handheld, connect to a digital projector or VGA display, select your presentation and go! And with "instant-on" functionality, there's no downtime, no booting up, no losing your audience's interest. It's just that simple!

Quality

Presenter-to-Go projects superb image quality. With a resolution of 1024 x 768, it presents exceptionally sharp graphics and text. Your high resolution, full-color presentations will grab the audience's attention and always look professional.

Presenter-to-Go is the presentation solution you have been waiting for!

Finally, a handheld presentation tool that rivals a laptop's quality. Presenter-to-Go enables high-quality, mixed-format color presentations (even from monochrome handhelds) anywhere there's a digital projector or VGA display. This highly-mobile device offers a stunning array of both functional and revolutionary features, making powerful presentations a breeze:

- Full color, high resolution (1024 x 768) output
- Compatible with PowerPoint and printable PC applications
- Mirror mode for displaying handheld content
- Includes infrared remote
- File compression
- Notes preview

Available for the widest range of Palm, Pocket PC, and WinCE devices, Presenter-to-Go includes many features that unburden your presentation process.

Presenter-to-Go has everything you need for impressive presentations in one convenient solution.
