MSHA is seeking to hire more mine inspectors in Nevada *Employment screenings to be held April 15 and 16 in Carlin, Nev.*

ARLINGTON, Va. – The U.S. Department of Labor’s Mine Safety and Health Administration (MSHA) is seeking to hire new federal mine inspectors for positions in Elko, Nev. Applicant screenings for these positions will be held April 15 and 16 in Carlin, Nev., at the Fire Science Academy. Interested citizens who have not previously registered via MSHA’s Web site are welcome to attend, subject to space availability.

“MSHA is seeking motivated professionals dedicated to helping us protect the health and safety of working miners,” said Richard E. Stickler, acting assistant secretary of labor for mine safety and health. “We’re looking for qualified people who can help us continue to make safety the number one priority for our nation’s miners.”

Everyone attending the applicant screening should bring a completed resume and photo identification. Check the MSHA Web site at www.msha.gov to confirm the status of the screenings before traveling to the site.

All applicants will be notified of test results. Selected candidates will participate in a formal two-year training program. Candidates for the GS-9 level should be able to perform arduous duties and can expect a starting annual salary of about \$45,000. In addition to a 40-hour workweek with generous annual, sick and holiday leave, selected candidates are offered health, life and long-term care insurance; a stable retirement program, including a tax-deferred savings plan; travel reimbursement; and flexible spending accounts for medical and dental expenses.

The Fire Science Academy is located at 100 University Ave. in Carlin. Registration will begin at 7 a.m. and testing will begin at 8 a.m. PDT.

MSHA is the federal agency charged with inspection of mining operations nationwide for adherence to regulations designed to protect the safety and health of working miners. For additional information, visit the agency’s Inspector Career Trainee Program Web site at www.msha.gov/Inspectors/InspectorsInternProgram.asp.
