Viewing Requirements:

Windows Media Player 6+

Macromedia Flash 4+

Internet Explorer browser, version 5+ (Netscape is not supported)

Sound card and speakers

Links Requirements:

An internet connection is required to select additional links and resources on the web

*Those using Macintosh computers may experience difficulties, such as the video playing in a stand-alone player instead of the multimedia interfaces. For all users, including PC and Mac users, due to the many hardware, software and data transport variations that exist, other or additional requirements may apply to your particular system.
