

Attention: Desk Officer for EPA, 725
17th Street, NW., Washington, DC
20503.

FOR FURTHER INFORMATION CONTACT: Jane Ephremides, Resources Management and Evaluation Staff, Office of Wastewater Management, Office of Water, Mail Code: 4201M, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone number: (202) 564-0643; fax number: (202) 301-2399; e-mail address: ephremides.jane@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On May 8, 2003 (68 FR 24374), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments.

EPA has established a public docket for this ICR under Docket ID No. OW-2003-0027, which is available for public viewing at the Water Docket in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Water Docket is (202) 566-2426. An electronic version of the public docket is available through EPA Dockets (EDOCKET) at <http://www.epa.gov/edocket>. Use EDOCKET to submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA and OMB within 30 days of this notice. EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise

restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to www.epa.gov/edocket.

Title: State Water Quality Program Management Resource (Gap) Analysis.

Abstract: The Environmental Protection Agency (EPA), in partnership with States, is conducting this voluntary State Water Quality Management Resource Analysis (Gap Analysis) to help enumerate current and future funding needs and to help identify innovative strategies for reducing resource gaps. To gather preliminary information in a short time frame, the Gap Analysis was originally divided into two phases. Phase I consisted of the development of an initial, national estimate of the resource gap faced by water quality management programs to provide a general idea of the magnitude of the resource gap faced by States.

Phase II of the Gap Analysis involved developing a detailed, activity-based workload model to provide a common framework and consistent methodology for States and EPA to estimate the cost to the States to meet the objectives of the Clean Water Act (CWA) over the next five years. In order to complete the model, EPA's Office of Wastewater Management (OWM) gathered data from 21 States on current and future resources needed for water quality management activities.

Phase III of the Gap Analysis will build upon the information collected in Phase II, which used an estimate of current State expenditures on water quality activities. Under Phase III, States will complete a portion of the Phase II modules to update the needs numbers to reflect regulatory changes or changes to their programs. In addition, States will be asked to complete an activity-based model for current expenditures that mirrors the model for needs. This baseline spending data will allow the States and EPA to more accurately estimate the gap between expenditures and needed resources.

Phase III of the Gap Analysis is a one-time collection effort by OWM, and responses to this information collection request (ICR) are voluntary. The collection is necessary to develop an estimate of the gap in resources facing water quality management programs, both for individual States and the nation.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information

unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9 and are identified on the form and/or instrument, if applicable.

Burden Statement: EPA estimates the burden to be 61 hours per respondent for each respondent that chooses to submit information.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: State water quality management programs.

Estimated Number of Respondents: 20.

Frequency of Response: One time.

Estimated Total Annual Hour Burden: 1207.

Estimated Total Annual Cost: \$37,648, includes \$0 annualized capital or O&M costs.

Changes in the Estimates: There is a decrease of 2396 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease is a result of a different phase of a voluntary, one-time information collection and is due to changes in program requirements and an adjustment to the original estimates.

Dated: August 12, 2003.

Doreen Sterling,

Acting Director, Collection Strategies Division.

ENVIRONMENTAL PROTECTION AGENCY

[OAR-2003-0011, FRL-7546-6]

Agency Information Collection Activities; Submission of EPA ICR No. 0222.07 (OMB No. 2060-0086) to OMB for Review and Approval; Comment Request

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Investigation into Possible Noncompliance of Motor Vehicles with Federal Emissions Standards. This ICR describes the nature of the information collection and its estimated burden and cost.

DATES: Additional comments may be submitted on or before September 18, 2003.

ADDRESSES: Follow the detailed instructions in **SUPPLEMENTARY INFORMATION**.

FOR FURTHER INFORMATION CONTACT: Richard W Nash, Certification and Compliance Division, U.S. Environmental Protection Agency, 2000 Traverwood Dr, Ann Arbor MI 48105, (734) 214-4412, nash.dick@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On 21 March 2003 (68 FR 13909) EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments.

EPA has established a public docket for this ICR under Docket ID No. OAR-2003-0011, which is available for public viewing at the Air and Radiation Docket and Information Center in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Air and Radiation Docket and Information Center is (202) 566-1742. An electronic version of the public docket is available through EPA Dockets (EDOCKET) at <http://www.epa.gov/edocket>. Use EDOCKET to submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to OMB and EPA within 30 days of this notice, and according to the following detailed instructions: (1) Mail your comments to OMB at: Office of Information and

Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503, and (2) Submit your comments to EPA online using EDOCKET (our preferred method), by e-mail to a-and-r-docket@epamail.epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Air and Radiation Docket, Mailcode 6102T, 1200 Pennsylvania Ave., NW., Washington, DC 20460.

EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to www.epa.gov/edocket.

Title: Investigation into Possible Noncompliance of Motor Vehicles with Federal Emissions Standards (OMB Control Number 2060-0086, EPA ICR Number 0222.07). This is a request to renew an existing approved collection that is scheduled to expire on 31 August 2003. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB.

Abstract: As part of an integrated compliance program, EPA occasionally needs to evaluate the emission performance of in-use motor vehicles. In order to perform this function, EPA must solicit certain information from the vehicle owner/lessee. Participation in the information survey, as well as the vehicle evaluation, is strictly voluntary. Typically, a group of 25 potential participants is identified. They are asked to return a postcard indicating their willingness to participate and if so, to verify some limited vehicle information. They are also asked when it would be suitable to contact them. Those willing to participate are called

and asked about a half dozen questions concerning vehicle condition, operation and maintenance. Depending on owner/lessee response, additional groups of potential participants may be contacted until a sufficient number of vehicles has been obtained.

Information collected is used to assure that vehicles procured meet certain criteria. For example, since a manufacturer's responsibility to recall passenger cars is limited to 10 years of age or 100,000 miles of use, vehicles tested to establish potential recall liability must also meet those criteria. Other testing programs and vehicle types have different criteria. All information is publicly available.

The previous description generally describes how EPA obtains information on in-use passenger cars and light trucks from individual owners and lessees. Heavy duty trucks, those commonly referred to as over "¾ ton" capacity, are usually employed commercially; typically they are part of a "fleet" of identical (or very similar) vehicles. Consequently, EPA employs a slightly different method to obtain them. Potential owners/lessees can be found in registration lists; engine manufacturers will also supply identities of their customers. Occasionally, a fleet operator will contact EPA and volunteer to participate. Once potential sources are identified, EPA will make a brief telephone call to the fleet managers to ascertain if they wish to participate. If the response is positive, EPA will visit the fleet to inspect vehicles and review maintenance records. (Fleets typically keep very good records on each vehicle; EPA can quickly determine if a particular unit is acceptable.) A single fleet can supply multiple vehicles and, typically, is quite willing to participate. Therefore, EPA makes far fewer inquiries than with individual owners of light vehicles. Based on comments, EPA may decide to address light and heavy duty vehicles separately.

EPA uses several techniques in selecting the class or category of motor vehicles to be evaluated. First, if based on other information (e.g., defect reports, service bulletins) there is a suspicion that a problem exists; EPA may target a particular group. Second, groups with a large number of vehicles have potential for significant air quality effects; they may be selected for that reason. New emission control technology without a proven history is another factor in making selections. Finally, some vehicle classes are selected on a random basis.

An agency may not conduct or sponsor, and a person is not required to

respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 20 minutes per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities:
Vehicle owners/lessees.

Estimated Number of Respondents:
1800

Frequency of Response: Once
Estimated Total Annual Hour Burden:
600 hours

Estimated Total Annual Cost: None
Changes in the Estimates: There is no change in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens.

Dated: August 12, 2003.

Doreen Sterling,

Acting Director, Collection Strategies Division.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On April 4, 2003 (68 FR 16505), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments.

EPA has established a public docket for this ICR under Docket ID No. OAR-2003-0058, which is available for public viewing at the Air and Radiation Docket and Information Center in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Air and Radiation Docket and Information Center is (202) 566-1742. An electronic version of the public docket is available

through EPA Dockets (EDOCKET) at <http://www.epa.gov/edocket>. Use EDOCKET to submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA and OMB within 30 days of this notice. EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to www.epa.gov/edocket.

Title: Environmental Radiation Ambient Monitoring System (ERAMS).

Abstract: The Environmental Radiation Ambient Monitoring System (ERAMS) is a national network of stations collecting sampling media that include air, precipitation, drinking water, surface water, and milk. Samples are sent to EPA's National Air and Radiation Environmental Laboratory (NAREL) in Montgomery, AL, where they are analyzed for radioactivity. ERAMS provides emergency response and ambient monitoring information regarding levels of environmental radiation across the nation. All stations, usually manned by state and local personnel, participate in ERAMS voluntarily. Station operators complete information forms that accompany the samples. The forms request descriptive information related to sample collection, e.g., sample type, sample location, length of sampling period, and volume represented.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB
