Memorandum

To: SAFER Users
From: FMCSA Technical Support Project Manager
Date: July 19, 2004
Subject: Release of SAFER Version 4.5

The following changes will be implemented in FMCSA Safety and Fitness Electronic Records system (SAFER) Version 4.5 effective July 19th, 2004.

1. Defect (CR20) – This version of SAFER will correct a defect in the trigger on the CARRIER table that is required for automatic operation of the T0031 update transaction.
2. Defect (CR34) - This version of SAFER will correct a problem in the EDI Vehicle Sendlist which was caused by incompatibilities between the SAFER XML and EDI interfaces.
3. Defect (CR102) - This version of SAFER will correct a problem in SAFER EDI Sendlist that resulted in duplicate records being sent to the EDI CVIEWS.
4. Defect (CR90) - This version of SAFER will correct a defect in the SAFER XML Service that caused Oracle error “ORA-01427: single-row sub-query returns more than one row” to occur when processing T0022 (Vehicle Registration) input transactions.
5. Enhancement (CR9) – This version of SAFER will include a beta inspection report upload transaction in the SAFER web service.
6. Enhancement (CR35) - This version of SAFER will provide a new installer for SAFER services.
7. Enhancement (CR36) – This version of SAFER will include SAFER web and SAFER XML services that have been upgraded to operate on Windows 2003 servers.

8. Enhancement (CR62) – This version of SAFER will include a change in the web site to display a message for inactive carriers rather than simply reporting that no record was found.
9. Enhancement (CR64) – This version of SAFER will include a change in the web site to display DOT numbers in the admin order-tracking page.
10. Enhancement (CR96) – This version of SAFER will include a change in the SAFER web service to include a user specifiable style sheet argument.
11. Enhancement (CR111) – This version of SAFER will include a change in the SAFER web site to include Out Of Service Statistics for the year 2003.
12. Enhancement (CR118) – This version of SAFER will support submitting profile request to the new deployment of the MCMIS application server.
