Memorandum

To: SAFER Users
From: FMCSA Technical Support Project Manager
Date: January 20, 2004
Subject: Release of SAFER Version 4.7

The following changes will be implemented in FMCSA Safety and Fitness Electronic Records system (SAFER) Version 4.7 effective January 20, 2005.

1. Enhancement (CR9) – This version of SAFER will complete the implementation of inspection report upload transaction using the SAFER Web Services and FTP interface.

2. Enhancement (CR151) – This version of SAFER will introduce new UAS Service to simplify the communication between Web Services users and the UAS server. It will provide an enhanced user authentication function to allow the Web Services users to authenticate with their UAS accounts without using the telnet sessions.

3. Enhancement (CR153) – This version of SAFER will implement a data format conversion for the Inspection End Time to correct a format inconsistency between the XML schema file and the database.

4. Enhancement (CR144/ CR152) – The enhancements will modify the Company Snapshot and the MCMIS load process to include New Entrant Code and carrier out of service data to the carrier records.

5. Enhancement (CR145) – This enhancement will provide a deletion function for Company Safety Profile subscription to facilitate the management of subscription requests. It will also provide capability to track subscriptions within the administration pages.

6. Enhancement (CR146) – This enhancement will add a subscription link to the Company Profile subscription error page to allow users to go back to the subscription main page to place order for less than 24 issues.

7. Enhancement (CR156) – This version of SAFER has created a new web page to display the Hazardous Material carrier crash rate and carrier out of service rates.

8. Enhancement (CR157) –This version of SAFER will make changes to the FMCSA feedback email address.

9. Enhancement (CR36) –This version of SAFER has completed Window 2000/2003 upgrades for SAFER web site and SAFER services.

10. Enhancement (CR105) –This version of SAFER will add T0032 transaction to the SAFER Web Services for real time inquiry of the license and insurance information.

11. Enhancement (CR81) – This enhancement has converted OpCon into client server application to reduce the need for server access.

If you have any questions regarding this release, please contact FMCSA Technical Support at (617) 494-3003, FMCTechSup@volpe.dot.gov or http://fmcsa-ts.dot.gov
